SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–92393; File No. SR–Phlx–2021–38]

Self-Regulatory Organizations; Nasdaq PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Options 2, Section 5, Electronic Market Maker Obligations and Quoting Requirements

July 13, 2021.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),1 and Rule 19b–4 thereunder,2 notice is hereby given that on June 30, 2021, Nasdaq PHLX LLC (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Options 2, Section 5, Electronic Market Maker Obligations and Quoting Requirements.

The text of the proposed rule change is available on the Exchange’s website at https://listingcenter.nasdaq.com/rulebook/phlx/rules, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Phlx Rules at Options 2, Section 5, Electronic Market Maker Obligations and Quoting Requirements. Currently, the Exchange requires Market Makers3 and Lead Maker Makers4 to enter bids and offers for the options to which they are registered, except in an assigned options series listed intra-day on the Exchange.5 Quotations must meet the legal quote width requirements as specified in Options 2, Section 4(c).6 On a daily basis, an electronic Market Maker must make markets consistent with the applicable quoting requirements. Market Makers (SQTs and RSQTs) associated with the same member organization7 are collectively required to provide two-sided quotations in 60% of the cumulative number of seconds, or such higher percentage as Phlx may announce in advance, for which that member organization’s assigned options series are open for trading.8 Notwithstanding the foregoing, a member organization is not required to make two-sided markets pursuant to Options 2, Section 5(e)(2) in any Quarterly Option Series, any adjusted option series,9 and any option series with an expiration of nine months or greater.10 Lead Market Makers (including Remote Lead Market Makers), associated with the same member organization, are collectively required to provide two-sided quotations in 90% of the cumulative number of seconds, or such higher percentage as Phlx may announce in advance, for which that member organization’s assigned options series are open for trading. Lead Market Makers are required to make two-sided markets pursuant to Options 2, Section 5 in any Quarterly Option Series, any Adjusted Option Series, and any option series with an expiration of nine months or greater.11 Finally, a Directed SQT or

---

3 A “Market Maker” means a Streaming Quote Trader or a Remote Streaming Quote Trader who enters quotations for his own account electronically into the System. See Options 1, Section 1(b)(28). A “Streaming Quote Trader” or “SQT” means a Market Maker who has received permission from the Exchange to generate and submit option quotations electronically in options to which such SQT is assigned. An SQT may only submit such quotations while such SQT is physically present on the trading floor of the Exchange. An SQT may only submit quotes in classes of options in which the SQT is assigned. See Options 1, Section 1(b)(54). A “Remote Streaming Quote Trader” or “RSQT” means a Market Maker that is a member affiliated with an Remote Streaming Quote Trader Organization with no physical trading floor presence who has received permission from the Exchange to generate and submit option quotations electronically in options to which such RSQT has been assigned. A qualified RSQT may function as a Remote Lead Market Maker upon Exchange approval. An RSQT is also known as a Remote Market Maker (“RMM”) pursuant to Options 2, Section 11. A Remote Streaming Quote Organization (“RSQTO”) or Remote Market Maker Organization (“RMO”) are Exchange member organizations that have qualified pursuant to Options 2, Section 1. See Options 1, Section 1(b)(49).

4 A “Lead Market Maker” means a member who is registered as an options Lead Market Maker pursuant to Options 2, Section 12(a). A Lead Market Maker includes a Remote Lead Market Maker which is defined as a Lead Market Maker in one or more classes that does not have a physical presence on an Exchange’s trading floor and is approved by the Exchange pursuant to Options 2, Section 11. See Options 1, Section 1(b)(27).

5 See Options 2, Section 5(c).

6 Options 2, Section 4(c) describes the required bid/ask differentials.

7 The term “member organization” means a corporation, partnership (general or limited), limited liability partnership, limited liability company, business trust or similar organization, transacting business as a broker or a dealer in securities and which has the status of a member organization by virtue of (i) admission to membership given to it by the Membership Department pursuant to the provisions of General 3, Sections 5 and 10 or the By-Laws or (ii) the transitional rules adopted by the Exchange pursuant to Section 6–4 of the By-Laws. References herein to officer or partner, when used in the context of a member organization, shall include any person holding a similar position in any organization other than a corporation or partnership that has the status of a member organization. See General 1, Section 1(17).

8 Options 2, Section 5(c)(2)(A).

9 An adjusted option series is defined as an option series wherein one option contract in the series is registered, except in an assigned options series listed intra-day on the Exchange. Quotations must meet the legal quote width requirements as specified in Options 2, Section 4(c). On a daily basis, an electronic Market Maker must make markets consistent with the applicable quoting requirements. Market Makers (SQTs and RSQTs) associated with the same member organization are collectively required to provide two-sided quotations in 60% of the cumulative number of seconds, or such higher percentage as Phlx may announce in advance, for which that member organization’s assigned options series are open for trading. Notwithstanding the foregoing, a member organization is not required to make two-sided markets pursuant to Options 2, Section 5(e)(2) in any Quarterly Option Series, any adjusted option series, and any option series with an expiration of nine months or greater. Finally, a Directed SQT or
RSQT is subject to the requirements within Options 2, Section 5(c)(2)(C). A member organization is required to meet each market making obligation separately. Currently, Options 2, Section 5(c) states, “An SQT and RSQT who is also the Lead Market Maker is held to the Lead Market Maker obligations in options series in which the Lead Market Maker is assigned and will be held to SQT and RSQT obligations in all other options series where assigned. An SQT or RSQT who receives a Directed Order shall be held to the SQT or Directed RSQT, as appropriate.”

Today, the Exchange calculates whether a member organization that is assigned in an options series as both a Lead Market Maker and a Market Maker has met its quoting obligations as Lead Market Maker and Market Maker, respectively, by aggregating all quotes submitted through the Specialized Quote Feed interface from the member organization, regardless of whether the quote was submitted by the member organization in its capacity as Lead Market Maker or Market Maker.

12 Directed SQTs and Directed RSQTs, associated with the same member organization, are collectively required to provide two-sided quotations in 90% of the cumulative number of seconds, or such higher percentage as Phlx may announce in advance, for which that member organization’s assigned options series are open for trading. A member organization shall be considered directed in all assigned options once that member organization receives a Directed Order in any option in which they are assigned and shall be considered a Directed SQT or Directed RSQT until such time as the member organization notifies the Exchange that they are no longer directed. Notwithstanding the foregoing, a member organization is not required to make two-sided markets pursuant to this paragraph (c)(2) above in any Quarterly Option Series, any Adjusted Option Series, and any option series with an expiration of nine months or greater. A Directed Order means any order that has been directed to a particular Lead Market Maker, SQT, or RSQT by an Order Flow Provider. To qualify as a Directed Order, an order must be delivered to the Exchange via the Specialized Quote Feed interface utilizing badges 16 and option series assigned to a Market Maker when calculating whether a member organization acting as a Market Maker has satisfied the requirements to provide two-sided quotations in 90% of the cumulative number of seconds, or such higher percentage as Phlx may announce for which that member organization’s assigned options series are open for trading. With this proposed change, a member organization is an RSQT in an options series where the member organization is also assigned as the Lead Market Maker in an options series will be held to both the Lead Market Maker and Market Maker (SQT) obligations, pursuant to Options 2, Section 5(c), separately, in that option series. The Exchange will consider whether a member organization, acting as both Lead Market Maker and Market Maker in an assigned options series, has complied with each requirement by only considering quotes in the respective badges.

13 See Options 2, Section 5(c). Today, the Exchange aggregates all quotes submitted through the Specialized Quote Feed interface from the member organization, regardless of whether the quote was submitted by the member organization in its capacity as Lead Market Maker or Market Maker.

14 The Exchange notes that pursuant to a restriction within Options 2, Section 4(b)(2), an SQT can simultaneously quote as a Lead Market Maker and an SQT. Options 2, Section 4(b)(2) provides, “An RSQT may only submit quotations electronically from off the floor of the Exchange. An RSQT may not simultaneously quote both as an RSQT and Remote Lead Market Maker in a particular security. If an RSQT is a Remote Lead Market Maker in a particular security, the Remote Lead Market Maker must make a market as a Remote Lead Market Maker and may not make a market as an RSQT in that particular security.” Because an RSQT cannot be a Market Maker, as a Market Maker, the Exchange proposes to delete “an RSQT” as part of its amendment to Options 2, Section 5(c).

15 “Specialized Quote Feed” or “SQF” is an interface that allows Lead Market Makers, SQTs and RSQTs to connect, send, and receive messages related to quotes, Immediate-or-Cancel Orders, and auction responses into and from the Exchange. Features include the following: (1) Options symbol directory messages (e.g., underlying and complex instruments); (2) system event messages (e.g., start of trading hours messages and start of opening); (3) trading action messages (e.g., bids and quotes); (4) execution messages; (5) quote messages; (6) Immediate-or-Cancel Order messages; (7) risk protection triggers and purge notifications; (8) opening imbalanced position notifications; and (10) auction responses. The SQF Purge Interface only receives and notifies of purge requests from the Lead Market Maker, SQT or RSQT. Lead Market Makers, SQTs and RSQTs may only enter interest into SQF in their assigned options series. See Options 3, Section 7(a)(i)(B).

16 The term “badge” means an account number, which may contain letters and/or numbers, assigned to Lead Market Makers and Market Makers. A Lead Market Maker or Market Maker account may be associated with multiple badges. See Options 1, Section 1(b)(6).

17 Phlx currently utilizes a badge without an associated options series to designate a Lead Market Maker assigned in an options series and a badge with an associated options series to designate a Market Maker assigned in an option series.

The Exchange notes that Floor Market Makers 18 and Floor Lead Market Makers 19 are not required to quote electronically in any designated percentage of series pursuant to Options 8, Section 27(a). Options 8, Section 27(f) provides for certain trading requirements applicable to Floor Market Makers. Today, all quoting activity from all 5 badges is aggregated in determining if Firm 123 [sic] complied with the requirement to provide two-sided quotations in 90% of the cumulative number of seconds for which that member organization’s assigned options series are open for trading. The higher of the two obligations is required today. Proposed Quoting obligation methodology: Lead Market Maker firm ABC is assigned five badges: 123A, 123B, 123C, 123D and 123.

123A is designated the Lead Market Maker badge and badge 123A–D are designated as Market Maker badges.

As proposed only quoting activity from badge 123 (and excluding badges 123 A–D) would be counted toward the requirement to provide two-sided quotations in 90% of the cumulative number of seconds for which that member organization’s assigned options series are open for trading.

All other badges (123 A–D), excluding badge 123, would be counted toward the requirement to provide two-sided quotations in 60% of the cumulative number of seconds for which that member organization’s assigned options series are open for trading.

A member organization may have only one Lead Market Maker badge per option series.

The below example explains how the Exchange aggregates quotes from Lead Market Makers, in their assigned options series, to determine compliance with quoting requirements, which will not be changing pursuant to this proposal. The same calculation applies

18 The term “Floor Market Maker” is a Market Maker who is neither an SQT or an RSQT. A Floor Market Maker may provide a quote in open outcry. See Options 8, Section 2(a)(8).

19 The term “Floor Lead Market Maker” is a member who is registered as an options Lead Market Maker pursuant to Options 2, Section 12(a) and has a physical presence on the Exchange’s trading floor. See Options 8, Section 2(a)(7).
to quotes from Market Makers in their assigned options series.

Under the proposal, and as is the case today, by way of example, assume Lead Market Maker Firm ABC assigned in five symbols across 2 different badges:

Badge 123 is assigned in symbols QQ and SPY.

Badge 124 is assigned in symbols IBM, GM, and MSFT.

Quotes submitted through the Specialized Quote Feed interface from the Firm ABC’s Lead Market Maker badges from all 5 symbols will be counted in determining compliance with Firm ABC’s requirement to provide two-sided quotations in 90% of the cumulative number of seconds for which Firm ABC’s assigned options series are open for trading.

If Firm ABC Lead Market Maker badge 123 quotes symbol QQ at 95% and SPY at 90% and Firm ABC Lead Market Maker badge 124 quotes IBM at 85%, GM at 95%, and MSFT at 90% then Firm ABC will have met requirement to provide two-sided quotations in 90% of the cumulative number of seconds for which Firm ABC’s assigned options series are open for trading because the percentage across the 5 symbols is 91%.

Implementation

The Exchange proposes to implement this rule change on August 2, 2021. The Exchange has issued an Options Regulatory Alert notifying members and member organizations of this change.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act, in general, and furthers the objectives of Section 6(b)(5) of the Act, in particular, in that it is designed to promote just and equitable principles of trade and to protect investors and the public interest by requiring Lead Market Makers and Market Makers to separately meet quoting requirements as both a Lead Market Maker and Market Maker, respectively, when the member organization is assigned in both roles in an options series.

The Exchange’s proposal to separately calculate Market Maker and Lead Market Maker quoting obligations where the member organization is assigned as both Lead Market Maker and Market Maker in an options series is consistent with the Act. Specifically, the Exchange’s proposal would only consider quotes submitted through the Specialized Quote Feed interface utilizing badges and options series assigned to a Lead Market Maker when calculating whether a member organization acting as a Lead Market Maker has satisfied the requirements to provide two-sided quotations in 90% of the cumulative number of seconds, or such higher percentage as Phlx may announce for which that member organization’s assigned options series are open for trading. Similarly, the Exchange’s proposal would only consider quotes submitted through the Specialized Quote Feed interface utilizing badges and option series assigned to a Maker when calculating whether a member organization acting as a Market Maker has satisfied the requirements to provide two-sided quotations in 60% of the cumulative number of seconds, or such higher percentage as Phlx may announce for which that member organization’s assigned options series are open for trading.

The proposed change for calculating the Lead Market Maker requirement separate from the Market Maker requirement where the member organization is assigned in both roles in an options series, would ensure that the member organization quotes the requisite number of seconds in an assigned options series, when acting as both Lead Market Maker and Market Maker. This would ensure that a member organization adds the requisite amount of liquidity in that assigned options series in exchange for certain benefits offered by the Exchange such as enhanced Lead Market Maker allocation and favorable pricing. In addition to the member organization fulfilling other market making obligations specified in Options 2, Section 5(a).

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Rather, the proposal would ensure that member organizations that are assigned in an options series as both the Lead Market Maker and Market Maker, respectively, are meeting the same quoting obligations as other member organizations who are assigned solely as either the Lead Market Maker or Market Maker in an option series. Also, this proposal would ensure that a member organization quotes the requisite number of seconds in an assigned options series, when acting as both Lead Market Maker and Market Maker, respectively, thereby adding the requisite amount of liquidity in exchange for certain benefits provided by the Exchange such as enhanced Lead Market Maker allocation and favorable pricing. In addition to fulfilling its other market making obligations specified in Options 2, Section 5(a).

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 6(b)(5)
SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Order Instituting Proceedings To Determine Whether To Approve or Disapprove a Proposed Rule Change To List and Trade Shares of the WisdomTree Bitcoin Trust Under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares

July 13, 2021.

On March 26, 2021, Cboe BZX Exchange, Inc. (“BZX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) 1 and Rule 19b–4 thereunder, 2 a proposed rule change to list and trade shares (“Shares”) of the WisdomTree Bitcoin Trust (“Trust”) under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares. The proposed rule change was published for comment in the Federal Register on April 15, 2021. 3

On May 26, 2021, pursuant to Section 19(b)(2) of the Act, 4 the Commission designated a longer period within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to disapprove the proposed rule change. 5 This order institutes proceedings under Section 19(b)(2)(B) of the Act 6 to determine whether to approve or disapprove the proposed rule change.

I. Summary of the Proposal

As described in more detail in the Notice, 7 the Exchange proposes to list and trade the Shares of the Trust under BZX Rule 14.11(e)(4), which governs the listing and trading of Commodity-Based Trust Shares on the Exchange. 

The investment objective of the Trust would be to gain exposure to the price of bitcoin, less expenses and liabilities of the Trust’s operation. 8

4 Cboe BZX Exchange, Inc. (“Cboe BZX” or “Cboe Exchange”) filed with the Commission a proposed rule change under Section 19(b) of the Securities Exchange Act of 1934 (“Act”) and Rule 19b–4(f)(6) 31 normally does not become operative for 30 days after the date of filing. However, pursuant to Rule 19b–4(f)(6)(iii), 32 the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative upon filing. Waiving the operative delay will allow the Exchange to amend, without delay, its rules regarding Market Maker quoting obligations to ensure that member organizations assigned in an options series as both the Lead Market Maker and Market Maker would have the same quoting obligations as member organizations who are assigned solely as either Lead Market Maker or Market Maker in an option series. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest and hereby designates the proposed rule change to be operative upon filing. 33 At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

• Use the Commission’s internet comment form (http://www.sec.gov/rules/sro.shtml); or

33 For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule’s impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).
