

address provided above or the TxDOT Dallas District Office at 4777 E Highway 80, Mesquite, TX 75150; telephone: (214) 320-6200.

4. FM 523 from SH 332 to FM 1495, Brazoria County, Texas. The project proposes to reconstruct and widen FM 523 within the described limits from two 11-foot lanes to four 12-foot lanes (two lanes in each direction) with a continuous 16-foot center turn lane and 10-foot shoulders. The project is located between the cities of Freeport and Oyster Creek in southeast Brazoria County. The project would be 1.4 miles in length and would require no new right of way, although 0.09 acre of temporary construction easements would be required at the intersection of FM 523 and Dow Levee Road. The actions by TxDOT and Federal agencies and the laws under which such actions were taken are described in the Categorical Exclusion Determination issued on April 26, 2021, and other documents in the TxDOT project file. The Categorical Exclusion Determination and other documents in the TxDOT project file are available by contacting TxDOT at the address provided above or the TxDOT Houston District Office at 7600 Washington Avenue, Houston, TX 77007; telephone: (713) 802-5076.

5. US 90 from State Highway 211 to Loop 13, Bexar County, Texas. The project will widen the existing roadway from a four-lane divided roadway with intermittent frontage roads to a six-lane expressway with one-way continuous frontage roads in each direction. The project is approximately 11.5 miles in length. The actions by TxDOT and Federal agencies and the laws under which such actions were taken are described in the Final Environmental Assessment (EA), the Finding of No Significant Impact (FONSI) issued on March 26, 2021, and other documents in the TxDOT project file. The EA, FONSI, and other documents in the TxDOT project file are available by contacting TxDOT at the address provided above or TxDOT San Antonio District Office at 4615 NW Loop 410, San Antonio, TX 78229; telephone: (210) 615-5839.

6. Kenney Fort Boulevard (Blvd.) from Forest Creek Drive to State Highway (SH) 45, Williamson County, Texas. The project will extend Kenney Fort Blvd. on new location from Forest Creek Drive south to SH 45. The project will construct a limited-access 6-lane major arterial consisting of three 12-foot travel lanes in each direction with a continuous sidewalk and shared-use path. The project is approximately 1.5 miles in length. The actions by TxDOT and Federal agencies and the laws

under which such actions were taken are described in the Final Environmental Assessment (EA), the Finding of No Significant Impact (FONSI) issued on May 21, 2021, and other documents in the TxDOT project file. The EA, FONSI, and other documents in the TxDOT project file are available by contacting TxDOT at the address provided above or the TxDOT Austin District Office at 7901 North I-35, Austin, TX 78753; telephone: 512-832-7000.

## DEPARTMENT OF TRANSPORTATION

### Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2021-0008]

#### Qualification of Drivers; Exemption Applications; Vision

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

**ACTION:** Notice of applications for exemption; request for comments.

**SUMMARY:** FMCSA announces receipt of applications from eight individuals for an exemption from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) to operate a commercial motor vehicle (CMV) in interstate commerce. If granted, the exemptions will enable these individuals to operate CMVs in interstate commerce without meeting the vision requirement in one eye.

**DATES:** Comments must be received on or before August 18, 2021.

**ADDRESSES:** You may submit comments identified by the Federal Docket Management System (FDMS) Docket No. FMCSA-2021-0008 using any of the following methods:

- *Federal eRulemaking Portal:* Go to [www.regulations.gov/](http://www.regulations.gov/), insert the docket number, FMCSA-2021-0008, in the keyword box, and click "Search." Next, sort the results by "Posted (Newer-Older)," choose the first notice listed, and click on the "Comment" button. Follow the online instructions for submitting comments.

- *Mail:* Dockets Operations; U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.

- *Hand Delivery:* West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal Holidays.

- *Fax:* (202) 493-2251.

To avoid duplication, please use only one of these four methods. See the "Public Participation" portion of the **SUPPLEMENTARY INFORMATION** section for instructions on submitting comments.

**FOR FURTHER INFORMATION CONTACT:** Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, [fmcsamedical@dot.gov](mailto:fmcsamedical@dot.gov), FMCSA, DOT, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001. Office hours are 8:30 a.m. to 5 p.m., ET, Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Dockets Operations, (202) 366-9826.

#### SUPPLEMENTARY INFORMATION:

##### I. Public Participation

###### A. Submitting Comments

If you submit a comment, please include the docket number for this notice (Docket No. FMCSA-2021-0008), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to [www.regulations.gov/docket?D=FMCSA-2021-0008](http://www.regulations.gov/docket?D=FMCSA-2021-0008). Next, sort the results by "Posted (Newer-Older)," choose the first notice listed, click the "Comment" button, and type your comment into the text box on the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit.

If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope.

FMCSA will consider all comments and material received during the comment period.

### B. Viewing Comments

To view comments go to [www.regulations.gov](http://www.regulations.gov). Insert the docket number, FMCSA–2021–0008, in the keyword box, and click “Search.” Next, sort the results by “Posted (Newer-Older),” choose the first notice listed, and click “Browse Comments.” If you do not have access to the internet, you may view the docket online by visiting Dockets Operations in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590–0001, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays. To be sure someone is there to help you, please call (202) 366–9317 or (202) 366–9826 before visiting Dockets Operations.

### C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to [www.regulations.gov](http://www.regulations.gov), as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at [www.transportation.gov/privacy](http://www.transportation.gov/privacy).

## II. Background

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the 5-year period. FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver’s medical certification.

The eight individuals listed in this notice have requested an exemption from the vision requirement in 49 CFR 391.41(b)(10). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting an exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers regarding vision found in § 391.41(b)(10) states that a person is physically qualified to drive a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses, field of

vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing standard red, green, and amber.

On July 16, 1992, the Agency first published the criteria for the Vision Waiver Program, which listed the conditions and reporting standards that CMV drivers approved for participation would need to meet (57 FR 31458). The current Vision Exemption Program was established in 1998, following the enactment of amendments to the statutes governing exemptions made by § 4007 of the Transportation Equity Act for the 21st Century (TEA–21), Public Law 105–178, 112 Stat. 107, 401 (June 9, 1998). Vision exemptions are considered under the procedures established in 49 CFR part 381 subpart C, on a case-by-case basis upon application by CMV drivers who do not meet the vision standards of § 391.41(b)(10).

To qualify for an exemption from the vision requirement, FMCSA requires a person to present verifiable evidence that he/she has driven a commercial vehicle safely in intrastate commerce with the vision deficiency for the past three years. Recent driving performance is especially important in evaluating future safety, according to several research studies designed to correlate past and future driving performance. Results of these studies support the principle that the best predictor of future performance by a driver is his/her past record of crashes and traffic violations. Copies of the studies may be found at [www.regulations.gov/docket?D=FMCSA-1998-3637](http://www.regulations.gov/docket?D=FMCSA-1998-3637).

FMCSA believes it can properly apply the principle to monocular drivers, because data from the Federal Highway Administration’s former waiver study program clearly demonstrated the driving performance of experienced monocular drivers in the program is better than that of all CMV drivers collectively.<sup>1</sup> The fact that experienced monocular drivers demonstrated safe driving records in the waiver program supports a conclusion that other monocular drivers, meeting the same qualifying conditions as those required by the waiver program, are also likely to have adapted to their vision deficiency and will continue to operate safely.

The first major research correlating past and future performance was done in England by Greenwood and Yule in 1920. Subsequent studies, building on

that model, concluded that crash rates for the same individual exposed to certain risks for two different time periods vary only slightly (See Bates and Neyman, University of California Publications in Statistics, April 1952). Other studies demonstrated theories of predicting crash proneness from crash history coupled with other factors. These factors—such as age, sex, geographic location, mileage driven and conviction history—are used every day by insurance companies and motor vehicle bureaus to predict the probability of an individual experiencing future crashes (See Weber, Donald C., “Accident Rate Potential: An Application of Multiple Regression Analysis of a Poisson Process,” Journal of American Statistical Association, June 1971). A 1964 California Driver Record Study prepared by the California Department of Motor Vehicles concluded that the best overall crash predictor for both concurrent and nonconcurrent events is the number of single convictions. This study used 3 consecutive years of data, comparing the experiences of drivers in the first 2 years with their experiences in the final year.

### Qualifications of Applicants

#### Karl C. Christenson

Mr. Christenson, 36, has corneal scarring in his right eye due to a traumatic incident in 2018. The visual acuity in his right eye is 20/200, and in his left eye, 20/20. Following an examination in 2021, his ophthalmologist stated, “It is in my medical opinion that Karl Christenson, although he is limited to 20/200 vision in his right eye, does appear to have sufficient vision to perform driving tasks required to operate a commercial vehicle.” Mr. Christenson reported that he has driven tractor-trailer combinations for 7 years, accumulating 700,000 miles. He holds a Class A CDL from Minnesota. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

#### James G. Cothren

Mr. Cothren, 54, has had a prosthetic in his right eye since birth. The visual acuity in his right eye is no light perception, and in his left eye, 20/15. Following an examination in 2021, his optometrist stated, “In my opinion, this patient has sufficient vision to perform the driving tasks required to operate a commercial vehicle.” Mr. Cothren reported that he has driven tractor-trailer combinations for 25 years, accumulating 2.5 million miles. He holds a Class A CDL from Georgia. His

<sup>1</sup> A thorough discussion of this issue may be found in a FHWA final rule published in the **Federal Register** on March 26, 1996 and available on the internet at <https://www.govinfo.gov/content/pkg/FR-1996-03-26/pdf/96-7226.pdf>.

driving record for the last 3 years shows no crashes and one conviction for speeding in a CMV; he exceeded the speed limit by 17 mph.

*Gregory C. Grubb*

Mr. Grubb, 30, has had refractive amblyopia in his left eye since childhood. The visual acuity in his right eye is 20/20, and in his left eye, 20/70. Following an examination in 2021, his ophthalmologist stated, "In my medical opinion, Greg has sufficient vision to perform the driving tasks required to operate a commercial vehicle." Mr. Grubb reported that he has driven tractor-trailer combinations for 8 years, accumulating 416,000 miles. He holds a Class DA CDL from Kentucky. His driving record for the last 3 years shows no crashes and two convictions for moving violations in a CMV; failure to obey the instructions of an applicable official traffic-control device, and improper driving.

*Ernest Herrera*

Mr. Herrera, 54, has had a retinal detachment in his left eye since 2013. The visual acuity in his right eye is 20/20, and in his left eye, 20/200. Following an examination in 2020, his ophthalmologist stated, "I can express that it is my opinion, that a person with a 20/20 or 20/25+2 Snellen acuity measurements in one eye, normal color perception with both eyes open, a visual field of 120 horizontal degrees in each eye, and that such person has made a living by legally operating a commercial vehicle in the State of Texas for the last 5 years, would possess sufficient vision necessary to operating a commercial vehicle." Mr. Herrera reported that he has driven straight trucks for 35 years, accumulating 350,000 miles, and tractor-trailer combinations for 21 years, accumulating 2.625 million miles. He holds a Class A CDL from Texas. His driving record for the last 3 years shows no crashes and one conviction for a moving violation in a CMV; over gross weight.

*Leonard G. Hill*

Mr. Hill, 49, has had amblyopia in his left eye since childhood. The visual acuity in his right eye is 20/20, and in his left eye, 20/80. Following an examination in 2021, his optometrist stated, "In my medical opinion, this patient has sufficient vision to perform normal driving tasks required to operate a commercial vehicle." Mr. Hill reported that he has driven straight trucks for 16 years, accumulating 2.2 million miles, and tractor-trailer combinations for 16 years, accumulating 2.2 million miles. He holds a Class A

CDL from Ohio. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

*Saul Quintero*

Mr. Quintero, 50, has a prosthetic right eye due to a traumatic incident in 2017. The visual acuity in his right eye is no light perception, and in his left eye, 20/20. Following an examination in 2021, his ophthalmologist stated, "Mr. Quintero has 20/20 vision on the left eye and normal visual field which should qualify him to operate a commercial vehicle." Mr. Quintero reported that he has driven tractor-trailer combinations for 16 years, accumulating 2.16 million miles. He holds a Class A CDL from Indiana. His driving record for the last 3 years shows one crash, which he was not cited for, and no convictions for moving violations in a CMV.

*Mersad Redzovic*

Mr. Redzovic, 26, has had amblyopia in his left eye since birth. The visual acuity in his right eye is 20/20, and in his left eye, 20/80. Following an examination in 2021, his optometrist stated, "His vision is sufficient to perform driving tasks required to operate a commercial vehicle." Mr. Redzovic reported that he has driven straight trucks for 2 years, accumulating 98,000 miles, and tractor-trailer combinations for 3 years, accumulating 170,500 miles. He holds a Class A CDL from Texas. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

*Tyler J. Worthen*

Mr. Worthen, 35, has had amblyopia in his left eye since birth. The visual acuity in his right eye is 20/20, and in his left eye, 20/50. Following an examination in 2021, his optometrist stated, "In my medical opinion, Mr. Worthen has sufficient vision to perform the tasks required to operate a commercial vehicle." Mr. Worthen reported that he has driven straight trucks for 6 years, accumulating 156,000 miles, and buses for 2 years, accumulating 15,600 miles. He holds an operator's license from Pennsylvania. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

### III. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315(b), FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all

comments and material received before the close of business on the closing date indicated under the **DATES** section of the notice.

**Larry W. Minor,**

[Docket ID OCC-2021-0011]

### Proposed Interagency Guidance on Third-Party Relationships: Risk Management

**AGENCY:** The Board of Governors of the Federal Reserve System (Board), the Federal Deposit Insurance Corporation (FDIC), and the Office of the Comptroller of the Currency (OCC).

**ACTION:** Proposed interagency guidance and request for comment.

**SUMMARY:** The Board, FDIC, and OCC (together, the agencies) invite comment on proposed guidance on managing risks associated with third-party relationships. The proposed guidance would offer a framework based on sound risk management principles for banking organizations to consider in developing risk management practices for all stages in the life cycle of third-party relationships that takes into account the level of risk, complexity, and size of the banking organization and the nature of the third-party relationship. The proposed guidance sets forth considerations with respect to the management of risks arising from third-party relationships. The proposed guidance would replace each agency's existing guidance on this topic and would be directed to all banking organizations supervised by the agencies.

**DATES:** Comments must be received no later than September 17, 2021.

**ADDRESSES:** Interested parties are encouraged to submit written comments to any or all agencies listed below. The agencies will share comments with each other. Comments should be directed to:

*Board:* When submitting comments, please consider submitting your
