SUPPLEMENTARY INFORMATION:

Title: Egg, Chicken, and Turkey Surveys.

OMB Number: 0535–0004.

Expiration Date of Approval: March 31, 2022.

Type of Request: Intent to seek approval to revise and extend an information collection for 3 years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Egg, Chicken, and Turkey Surveys obtain basic poultry statistics from voluntary cooperators throughout the Nation. Statistics are published on placement of pullet chicks for hatchery supply flocks; hatching reports for broiler-type, egg-type, and turkey eggs; number of layers on hand; total table egg production; and production and value estimates for eggs, chickens, and turkeys. The frequencies of the surveys being conducted include weekly, monthly, and annually. This information is used by producers, processors, feed dealers, and others in marketing and supply channels as a basis for production and marketing decisions. Government agencies use these estimates to evaluate poultry product supplies. The information is an important consideration in government purchases for the National School Lunch Program and in formulation of export-import policy. The current expiration date for this docket is March 31, 2022. NASS intends to request that the surveys be approved for another 3 years.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3501, *et seq.*), and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, “Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),” **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Public reporting burden for this collection of information is estimated between 8 and 35 minutes per respondent per survey. Additional burden is allowed for the inclusion of

publicity materials and instructions on how to respond to the surveys via the internet.

Respondents: Farmers, ranchers, farm managers, and farm contractors.

Estimated Number of Respondents: 2,800.

Estimated Total Annual Burden on Respondents: 4,100 hours. This will include burden for both the initial mailing and phone follow-up to non-respondents, as well as publicity and instruction materials mailed out with questionnaires.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological, or other forms of information technology collection methods. All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.
