

TABLE 2—TAKE ANALYSIS, PERDIDO LOA—Continued

Species	Authorized take	Scaled take ¹	Abundance ²	Percent abundance
Beaked whales	3,793	383.1	3,768	10.2
Rough-toothed dolphin	496	142.4	4,853	2.9
Bottlenose dolphin ⁵	21	n/a	176,108	0.0
Clymene dolphin	1,521	436.5	11,895	3.7
Atlantic spotted dolphin	0	n/a	74,785	n/a
Pantropical spotted dolphin	15,101	4,334.0	102,361	4.2
Spinner dolphin	354	101.6	25,114	0.4
Striped dolphin	790	226.7	5,229	4.3
Fraser's dolphin	281	80.6	1,665	4.8
Risso's dolphin	249	73.5	3,764	2.0
Melon-headed whale	1,109	327.2	7,003	4.7
Pygmy killer whale	410	121.0	2,126	5.7
False killer whale	464	136.9	3,204	4.3
Killer whale	7	n/a	267	2.6
Short-finned pilot whale	88	26.0	1,981	1.3

¹ Scalar ratios were applied to "Authorized Take" values as described at 86 FR 5322, 5404 (January 19, 2021) to derive scaled take numbers shown here.

² Best abundance estimate. For most taxa, the best abundance estimate for purposes of comparison with take estimates is considered here to be the model-predicted abundance (Roberts *et al.*, 2016). For those taxa where a density surface model predicting abundance by month was produced, the maximum mean seasonal abundance was used. For those taxa where abundance is not predicted by month, only mean annual abundance is available. For the killer whale, the larger estimated SAR abundance estimate is used.

³ The final rule refers to the GOM Bryde's whale (*Balaenoptera edeni*). These whales were subsequently described as a new species, Rice's whale (*Balaenoptera ricei*) (Rosel *et al.*, 2021).

⁴ Includes 9 takes by Level A harassment and 218 takes by Level B harassment. Scalar ratio is applied to takes by Level B harassment only; small numbers determination made on basis of scaled Level B harassment take plus Level A harassment take.

⁵ Modeled take of 16 increased to account for potential encounter with group of average size (Maze-Foley and Mullin, 2006).

Based on the analysis contained herein of Shell's proposed survey activity described in its LOA applications and the anticipated take of marine mammals, NMFS finds that small numbers of marine mammals will be taken relative to the affected species or stock sizes (*i.e.*, less than one-third of the best available abundance estimate) and therefore the taking is of no more than small numbers.

Authorization

NMFS has determined that the level of taking for these LOA requests is consistent with the findings made for the total taking allowable under the incidental take regulations and that the amount of take authorized under the LOAs is of no more than small numbers. Accordingly, we have issued two LOAs to Shell authorizing the take of marine mammals incidental to its geophysical survey activity, as described above.

Dated: July 14, 2021.

Catherine Marzin,

*Acting Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

CONSUMER PRODUCT SAFETY COMMISSION

[CPSC Docket No. 21-2]

Amazon.Com, Inc.

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of a Complaint under the Consumer Product Safety Act.

SUMMARY: Under provisions of its Rules of Practice for Adjudicative Proceeding, the Consumer Product Safety Commission must publish in the **Federal Register** Complaints which it

issues. Published below is a Complaint: In the matter of Amazon.com.

FOR FURTHER INFORMATION CONTACT:

Alberta E. Mills, Secretary, Division of the Secretariat, Office of the General Counsel, U.S. Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814, (301) 504-7479 (Office) or 240-863-8938 (cell).

SUPPLEMENTARY INFORMATION: The Commission voted 3-1 to authorize issuance of this Complaint. Acting Chairman Adler, Commissioners Kaye and Feldman voted to authorize issuance of the Complaint. Commissioner Baiocco voted to not authorize issuance of the Complaint. The text of the Complaint appears below.

Dated: July 15, 2021.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

UNITED STATES OF AMERICA
CONSUMER PRODUCT SAFETY COMMISSION

In the Matter of

AMAZON.COM, INC.

Respondent.

CPSC DOCKET NO.: 21-2

COMPLAINT

I. NATURE OF THE PROCEEDINGS

1. This administrative enforcement proceeding is instituted pursuant to Sections 15(c) and (d) of the Consumer Product Safety Act (“CPSA”), as amended, 15 U.S.C. §§ 2064(c) and (d), seeking public notification and remedial action to protect the public from the substantial product hazards presented by certain consumer products sold on amazon.com, and distributed by Amazon.com, Inc. through its Fulfilled by Amazon (“FBA”) program. These consumer products are set forth in more detail below.

2. This proceeding is governed by the Rules of Practice for Adjudicative Proceedings before the Consumer Product Safety Commission (the “Commission”), 16 C.F.R. § 1025.

II. JURISDICTION

3. This proceeding is instituted pursuant to the authority contained in Sections 15(c) and (d), of the CPSA, 15 U.S.C. §§ 2064(c), (d).

III. THE PARTIES

4. Complaint Counsel is staff of the Office of Compliance and Field Operations in the Division of Enforcement and Litigation of the U.S. Consumer Product Safety Commission (“Complaint Counsel”). The Commission is an independent federal regulatory agency established pursuant to Section 4 of the CPSA, 15 U.S.C. § 2053.

5. Respondent Amazon.com, Inc. (“Amazon”) is a C Corporation with its principal place of business located at 410 Terry Avenue, North, Seattle, Washington 98109.

6. For the reasons set forth in Section IV below, with respect to its FBA products Amazon is a “distributor” that “distributes [consumer products] in commerce,” as those terms are defined in Sections 3(a)(5), (7), and (8) of the CPSA, 15 U.S.C. §§ 2052(a)(5), (7), and (8).

IV. AMAZON’S “FULFILLED BY AMAZON” PROGRAM

7. Amazon operates an online marketplace for consumers – amazon.com – that includes listings for consumer products, as that term is defined at Section 3(a)(5) of the CPSA, 15 U.S.C. § 2052(a)(5).

8. Through amazon.com, Amazon offers an e-commerce marketplace in which Amazon and merchants can connect with consumers via the internet, expanding sales opportunities beyond traditional brick-and-mortar and direct retail sales channels.

9. Merchants enter into a business arrangement with Amazon to participate in Amazon’s consumer marketplace, which includes a Business Services Agreement and, for Amazon’s FBA program, FBA policies and requirements. Products offered for sale on amazon.com appear on webpages known as product listings and are identified by Amazon Standard Identification Numbers, or ASINs, assigned by Amazon.

Amazon offers consumer products for sale on amazon.com through at least three paths: (a) as a retailer (including through its AmazonBasics brands and in partnership with other entities), (b) as a distributor through its FBA program, and (c) through its Merchant Fulfilled Network (“MFN”), for which merchants generally ship products directly to consumers. The majority of Amazon’s sales occur through its FBA program.

10. Amazon offers a variety of services in furtherance of bringing its FBA products to consumers’ doorsteps. These services include, but are not limited to, storing FBA products at Amazon fulfillment centers, stocking and maintaining an inventory of FBA products, and administering additional sorting and shipping services, including the use of Amazon employees

to interact with the product, categorize it with the help of computers and robots, label it, and move it through the distribution process. Additional services include Amazon's retrieval of FBA products from the merchant's inventory, placement of FBA products in a shipping container, delivery of FBA products directly to consumers' doorsteps in Amazon delivery vehicles or via a shipping carrier Amazon procures, approval of all FBA ASINs, provision of 24/7 customer service, and processing all FBA product returns.

11. Amazon maintains electronic records that track inventory of all products stored in Amazon Fulfillment Centers or other Amazon warehouses or facilities. Using these electronic records, Amazon employees are able to retrieve and ship products ordered by consumers on amazon.com.

12. As part of the FBA program, Amazon ships FBA products to consumers who place orders on Amazon's online marketplace. Amazon reserves the right to combine products from inventories of multiple merchants into one shipment. Amazon employees, with the assistance of electronic records and automation at the facilities, physically ship or cause to be shipped through a shipping carrier the FBA products ordered by consumers.

13. Amazon's contracts with merchants participating in the FBA program state that the merchants retain legal title to their products even while the products are stored, sorted, and delivered to consumers from Amazon's facilities. However, these contracts also state that when consumers return an FBA product, the consumers ship the products back to Amazon, not the merchant. When a product is returned, Amazon inspects the FBA product and determines whether the product can be resold. If Amazon determines that the FBA product can be resold, Amazon returns the product to the inventory at the applicable Amazon facility. If Amazon determines that the product cannot be resold, the merchant may choose to have it sent to its own facility.

14. The contracts between Amazon and merchants also state that Amazon: (a) has

the authority to format the product's listing on its online marketplace, which includes how a listing is displayed to consumers; (b) may reject products that Amazon determines are illegal, sexually explicit, defamatory, or obscene; (c) will require merchants to communicate with their customers exclusively through Amazon's platform; and (d) shall process payments for all purchases of the FBA products, charge the payment instrument designated in each individual consumer's account, and remit the agreed-upon monies to the merchant minus the service fees due to Amazon set forth in the applicable contracts.

15. Upon information and belief, though the amount varies depending on the product, Amazon's FBA fees can amount to as much or more than 40% of the sales price of a given product.

16. In addition, Amazon polices the prices charged by merchants listing products on amazon.com through its Fair Pricing Policy, which gives Amazon the right to take action against merchants for pricing that harms consumer trust. The Fair Pricing Policy provides that "[p]ricing practices that harm customer trust include, but are not limited to: . . . setting a price on a product or service [on amazon.com] that is significantly higher than recent prices offered on or off Amazon."

17. Consumers who purchase FBA consumer products on amazon.com may reasonably believe they are purchasing the products from Amazon. While the ASIN includes "Sold by [merchant]" in small print underneath the "Buy Now" link, Amazon only explicitly identifies the role of third parties in its FBA program at paragraph 16 of its "Conditions of Use" for its website.

18. Through the actions described in Paragraphs 7 through 18 above, Amazon is a "distributor" of a "consumer product" that is "distributed in commerce," for its FBA products as those terms are defined in the CPSA. In sum, Amazon acts as a "distributor" of its FBA products by: (a) receiving delivery of FBA consumer products from a merchant with the intent to further

distribute the product; (b) holding, storing, sorting, and preparing for shipment FBA products in its warehouses and fulfillment centers; and (c) distributing FBA consumer products into commerce by delivering FBA products directly to consumers or to common carriers for delivery to consumers.

V. THE CONSUMER PRODUCTS

19. The children's sleepwear garments were sold on amazon.com as FBA products and consist of nightgowns and bathrobes intended for children primarily for sleeping or activities related to sleeping (hereinafter, the "children's sleepwear garments").

20. The children's sleepwear garments include:

- a. CPSC Sample Number: 20-800-1345 (ASIN: B074V558SB),
HOYMN Little Girl's Lace Cotton Nightgowns, Kids Long-Sleeve
Sleep Shirts Princess Sleepwear for Toddlers 2-15 Years.
- b. CPSC Sample Number: 20-800-1726 (ASIN: B0S9B7QQ7,
B07S66PR4G, B07SCJNMFP, B07S99Y5YP, B07S99R16X,
B07SDLKLS4, B07SCJ2HK6, B07S87FF4G, B07SCJ6FR6,
B07S65KQX1), IDGIRLS Kids Animal Hooded Soft Plush
Flannel Bathrobes for Girls Boys Sleepwear.
- c. CPSC Sample Number: 20-800-1727 (ASIN: B07QTGMWPK),
Home Sweet Boy's Plush Fleece Robe Shawl Skull and Hooded
Spacecraft Printed Soft Kids Bathrobe for Boy.
- d. CPSC Sample Number: 20-800-1505 (ASIN: B01HGJY9FO),
Taiocyxgan Little Girl's Coral Fleece Bathrobe Unisex Kids Robe
Pajamas Sleepwear.

21. The children's sleepwear garments are consumer products imported, distributed in U.S. commerce, and offered for sale to consumers for their personal use in or around a permanent or temporary household or residence, a school, in recreation, or otherwise.

22. The children's sleepwear garments have been tested by CPSC staff and fail to meet the flammability requirements for children's sleepwear as required under the Flammable Fabrics Act ("FFA"). *See* 16 C.F.R. Part 1615 and 1616.

23. Upon information and belief, the children's sleepwear garments were manufactured by HOYMN, IDGIRLS, Home Sweet, and Taiyexgan.

24. Upon information and belief, Amazon and the four manufacturers made the children's sleepwear garments available for purchase on amazon.com through Amazon's FBA program. The children's sleepwear garments were offered for sale between May 2019 and April 2020.

25. Upon information and belief, the children's sleepwear garments were available for sale through Amazon's FBA program for approximately \$17.84 (HOYMN), \$29.99 (Home Sweet), \$22.99 (IDGIRLS), and \$14.99 (Taiyexgan).

26. Upon information and belief, consumers purchased the children's sleepwear garments on amazon.com.

27. Upon information and belief, Amazon removed the ASINs for the children's sleepwear garments on or about January 29, 2020 (for Taiyexgan), February 22, 2020 (for IDGIRLS), and April 1, 2020 (for HOYMN and Home Sweet).

28. The carbon monoxide detectors were sold on amazon.com as FBA products and consist of carbon monoxide detectors equipped with alarms intended to alert consumers to the presence of harmful carbon monoxide gas (hereinafter, the "carbon monoxide detectors").

29. The carbon monoxide detectors include:

- a. CPSC File No. PI210013 (ASIN: B07HK8JHDV, Sample No. 20-800-1419), CD01 carbon monoxide detector manufactured by WJZXTEK.
- b. CPSC File No. PI210014 (ASIN: B07GNKD44L, Sample No. 20-

800-1420), ME2-CO carbon monoxide detector manufactured by Zhenzhou Winsen Electronics Technology Company, LTD.

- c. CPSC File No. PI210016 (ASIN: B07C2KM8RB, B07BDJTX8W, Sample No. 20-800-1422), ME2-CO and ss4 carbon monoxide detector manufactured by Zhenzhou Winsen Electronics Technology Company, LTD.
- d. CPSC File No. PI210022 (ASIN: B07MPP42GT, Sample No. 20-800-1837), carbon monoxide detector manufactured by BQQZHZ.

30. The carbon monoxide detectors are consumer products that were imported, distributed in U.S. commerce, and offered for sale to consumers for their personal use in or around a permanent or temporary household or residence, a school, in recreation, or otherwise.

31. The carbon monoxide detectors have been tested by CPSC technical staff and failed to activate when carbon monoxide gas is present.

32. Upon information and belief, the carbon monoxide detectors were manufactured by WJZXTEK, Zhenzhou Winsen Electronics Technology Company, LTD, and BQQZHZ.

33. Upon information and belief, Amazon and the three manufacturers made the carbon monoxide detectors available for purchase on amazon.com through Amazon's FBA program. The carbon monoxide detectors were offered for sale between February 9, 2018 and November 23, 2020.

34. Upon information and belief, Amazon listed the carbon monoxide detector for sale through its FBA program for approximately \$8.99 to \$12.99.

35. Upon information and belief, consumers purchased approximately 24,632 units of the carbon monoxide detectors.

36. Upon information and belief, Amazon removed the ASINs for the carbon monoxide detectors between August 6, 2020, and August 12, 2020.

37. The hair dryers were sold on amazon.com as FBA products and consist of hair dryers that fail to provide integral immersion protection components as required.

38. The hair dryers include:

Sample Number	Seller/Manufacturer	ASIN
21-800-0406	OSEIDOO	B07RRVKPMD
21-800-1213	Aiskki	B0814LSM48

21-800-0231	Dekugaa Store	B07ZYJ92DM
21-800-0186	Admitrack	B0854FGPP7

39. The hair dryers are consumer products that were imported, distributed in U.S.

commerce, and offered for sale to consumers for their personal use in or around a permanent or temporary household or residence, a school, in recreation, or otherwise.

40. The hair dryers do not provide integral immersion protection in compliance with the requirements of Section 5 of Underwriters Laboratories (“UL”) *Standard for Safety for Household Electric Personal Grooming Appliances*, UL 859 (10th edition) or Section 6 of *UL Standard for Safety for Commercial Electric Personal Grooming Appliances*, UL 1727 (4th edition).

41. Upon information and belief, the hair dryers were manufactured by the entities listed in the “Seller/Manufacturer” column of the table in Paragraph 39.

42. Upon information and belief, Amazon and the manufacturers made the hair dryers available for purchase on amazon.com through Amazon’s FBA program. The hair dryers were offered for sale between June 10, 2019, and March 9, 2021.

43. Upon information and belief, Amazon listed the hair dryers for sale through its FBA program for approximately \$20.00 to \$70.00.

44. Upon information and belief, consumers purchased approximately 398,187 units of the hair dryers.

45. Upon information and belief, Amazon removed the ASINs for the hair dryers by March 9, 2021.

VI. AMAZON’S UNILATERAL ACTIONS RELATING TO THE CONSUMER PRODUCTS ARE INSUFFICIENT

46. Following notification from the CPSC about the hazards presented by the children’s sleepwear garments, carbon monoxide detectors, and hair dryers (hereinafter the “Subject Products”) identified in Section V above, Amazon took several unilateral actions.

47. As noted above, Amazon removed the ASINs for certain of the Subject Products. *See* Paragraphs 28, 37 and 46.

48. Amazon also unilaterally, and without CPSC involvement or input concerning

the content of the notices or its other actions, notified consumers who purchased certain of the Subject Products that they could present a hazard. Amazon also offered a refund to these consumers in the form of an Amazon gift card credited to their account.

49. Amazon's unilateral actions are insufficient to remediate the hazards posed by the Subject Products and do not constitute a fully effectuated Section 15 mandatory corrective action ordered by the Commission.

50. A Section 15 order requiring Amazon to take additional actions in conjunction with the CPSC as a distributor is necessary for public safety.

VII. THE CHILDREN'S SLEEPWEAR GARMENTS VIOLATE THE FFA BECAUSE THEY DO NOT MEET FLAMMABILITY REQUIREMENTS

51. Congress enacted the FFA in 1953 in response to serious injuries and deaths resulting from burns associated with clothing.

52. In the 1970s, the Standards for the Flammability of Children's Sleepwear ("Standards") were created to address the ignition of children's sleepwear, such as nightgowns, pajamas, and robes. *See* 16 C.F.R. Parts 1615 and 1616.

53. The purpose of the Standards is to reduce the unreasonable risk of burn injuries and deaths from fire associated with children's sleepwear garments. Most burn incidents do not occur while children are sleeping but while they are awake, unsupervised, and wearing sleepwear garments. The primary hazard is ignition of the sleepwear by contact with hot surfaces and/or small open-flame ignition sources, such as stove elements, matches, and lighters.

54. The Standards require that children's sleepwear garments stop burning when the flame source is removed. In order to meet the flammability requirements of the Standards, children's sleepwear garments must not have a sample with an average char length exceeding seven inches and no individual specimen can have a char length of ten inches, as set forth at 16 C.F.R. Part 1615.3(b) and 1616.3(b).

55. Children's sleepwear garments are required to comply with flammability

requirements of the FFA, 15 U.S.C. §§ 1191-1204.

56. Children's sleepwear means any article of clothing, such as a nightgown, pajama, robe, or loungewear, that is sized above nine months and up to a size fourteen and that is intended to be worn primarily for sleeping or activities related to sleeping. In determining whether a garment is children's sleepwear, the Commission considers: (a) the nature of the garment and its suitability for sleeping or activities related to sleeping; (b) how the garment is promoted and distributed; and (c) the likelihood that the garment will be used by children primarily for sleeping or activities related to sleeping. *See generally* 16 C.F.R. Parts 1615.64(a)(2) and 1616.65(a)(2).

57. CPSC staff evaluated the children's sleepwear garments and determined that the garments are children's sleepwear.

58. CPSC staff tested the garments to the requirements of the Children's Sleepwear Standards in the FFA.

59. The children's sleepwear garments failed to meet the flammability requirements for children's sleepwear garments. *See* 16 C.F.R. Parts 1615 and 1616.

60. Children's sleepwear garments that fail to meet the FFA requirements create a substantial risk of injury to consumers because of the serious injuries that can occur when such garments ignite while worn by children.

VIII. THE CARBON MONOXIDE DETECTORS ARE DEFECTIVE BECAUSE THEY FAIL TO ALARM

61. Carbon monoxide is a colorless, odorless, tasteless gas produced by burning gasoline, wood, propane, charcoal or other fuel. Improperly ventilated appliances and engines, particularly in a sealed or enclosed space, may allow carbon monoxide to accumulate to dangerous levels.

62. If a consumer installs a carbon monoxide detector that does not provide an alert to the presence of carbon monoxide, and carbon monoxide enters the home, the consumer will

not be warned of the presence of this harmful gas.

63. Carbon monoxide gas may cause severe injury, including tissue damage and death.

64. On average, approximately 170 people in the United States die every year from carbon monoxide produced by non-automotive consumer products. These products include malfunctioning fuel-burning appliances such as furnaces, ranges, water heaters and room heaters, engine-powered equipment such as portable generators, fireplaces, and charcoal that is burned in homes or other enclosed areas.

65. CPSC staff tested the carbon monoxide detectors to determine whether they detect carbon monoxide gas.

66. CPSC testing revealed that the carbon monoxide detectors failed to detect carbon monoxide gas and failed to alarm in its presence as consumers would reasonably expect.

67. The carbon monoxide detectors are defective because they fail to detect carbon monoxide and alarm consumers.

68. The defective carbon monoxide detectors create a substantial risk of injury to consumers by failing to detect carbon monoxide and alert consumers to the presence of carbon monoxide, leading to potentially severe injury or death. Such injuries and death have occurred when carbon monoxide spreads undetected in a home.

IX. THE HAIR DRYERS VIOLATE SECTION 15(J) BECAUSE THEY DO NOT HAVE IMMERSION PROTECTION

69. On June 9, 2011, the CPSC approved a federal safety rule specifying that hand-supported hair dryers that do not provide integral immersion protection in compliance with the requirements of Section 5 of Underwriters Laboratories (“UL”) *Standard for Safety for Household Electric Personal Grooming Appliances*, UL 859 (10th edition) or Section 6 of *UL Standard for Safety for Commercial Electric Personal Grooming Appliances*, UL 1727 (4th edition) are a “substantial product hazard” under Section 15(a) of the CPSA, 15 U.S.C. §

2064(a). *See* 15 U.S.C. § 2064(j) and 16 C.F.R. § 1120.3.

70. The purpose of the federal safety rule is to reduce the risk of shock and electrocution hazards created by hand-supported hair dryers.

71. CPSC staff evaluated units of the hair dryers identified in the table in Paragraph 39 and determined that the hair dryers are hand-supported and lack an immersion protection device integral to the power cord.

72. Because these hair dryers lack an immersion protection device, they are not in conformance with the requirements of Section 5 of UL 859 or Section 6 of UL 1727. These hair dryers present a significant electric shock and electrocution hazard to users.

73. Therefore, pursuant to Section 15(j) of the CPSA, 15 U.S.C. §2064(j), and 16 C.F.R. § 1120, they are a “substantial product hazard” under Section 15(a)(2) of the CPSA, 15 U.S.C. § 2064(a)(2).

X. LEGAL AUTHORITY

74. Under the CPSA, the Commission may order a firm to provide notice to the public and take remedial action if the Commission determines that a product “presents a substantial product hazard.” 15 U.S.C. § 2064(c) and (d).

75. Under CPSA Section 15(a)(1), a “substantial product hazard” includes products that fail to comply with an applicable consumer product safety rule under this Act or a similar rule, regulation, standard or ban under any other Act enforced by the Commission which creates a substantial risk of injury to the public. 15 U.S.C. § 2064(a)(1).

76. Under CPSA Section 15(j), the Commission “may specify, by rule, for any consumer product or class of consumer products, characteristics whose existence or absence shall be deemed a substantial product hazard” 15 U.S.C. § 2064(j)(1).

77. The federal safety rule specifying that hand-supported hair dryers must provide integral immersion protection in compliance with the requirements of Section 5 of UL *Standard for Safety for Household Electric Personal Grooming Appliances*, UL 859 (10th edition) or

Section 6 of *UL Standard for Safety for Commercial Electric Personal Grooming Appliances*, UL 1727 (4th edition) constitutes a rule as referenced in CPSA Section 15(j)(1). 15 U.S.C. § 2064(j)(1).

78. The FFA is an Act enforced by the Commission as referenced in CPSA Section 15(a)(1). 15 U.S.C. § 2064(a)(1).

79. Under CPSA Section 15(a)(2), a “substantial product hazard” is a product defect which (because of the pattern of defect, the number of defective products distributed in commerce, the severity of the risk, or otherwise) creates a substantial risk of injury to the public.” 15 U.S.C. § 2064(a)(2).

80. A product may contain a design defect if a risk of injury occurs as a result of the operation or use of the product, or the failure of the product to operate as intended. 16 C.F.R. § 1115.4.

81. Under CPSA Section 15(b), every “distributor” of a consumer product who obtains information which reasonable supports the conclusion that a product fails to comply with an applicable consumer product safety rule, contains a defect which could create a substantial product hazard, or creates an unreasonable risk of serious injury or death has an obligation to inform the Commission. 15 U.S.C. § 2064(b).

82. The format of the reports required by CPSA Section 15(b) is described at 16 C.F.R. § 1115.13(d).

Count I

The Children’s Sleepwear Garments are a Substantial Product Hazard Because They Violate the FFA and Create a Substantial Risk of Injury to Children

83. Paragraphs 1 through 83 are hereby realleged and incorporated by reference as if fully set forth herein.

84. Amazon distributed the children’s sleepwear garments to consumers through the Amazon FBA program.

85. The children's sleepwear garments fail to meet the flammability requirements of the FFA.

86. Because the children's sleepwear garments fail to meet the flammability requirements of the FFA, they create a substantial risk of injury to children.

87. Therefore, the children's sleepwear garments present a substantial product hazard within the meaning of Section 15(a)(1) of the CPSA.

Count II

The Carbon Monoxide Detectors are a Substantial Product Hazard Because They Contain a Product Defect that Creates a Substantial Risk of Injury to the Public

88. Paragraphs 1 through 88 are hereby realleged and incorporated by reference as if fully set forth herein.

89. Amazon distributed the carbon monoxide detectors to consumers through the Amazon FBA program.

90. The carbon monoxide detectors fail to detect carbon monoxide and fail to alert consumers to the presence of carbon monoxide.

91. The failure of the carbon monoxide detectors to alert consumers to the presence of deadly carbon monoxide in their homes constitutes a defect that creates a substantial risk of injury to the public.

92. Therefore, the carbon monoxide detectors present a substantial product hazard within the meaning of Section 15(a)(2) of the CPSA, 15 U.S.C. § 2064(a)(2).

Count III

The Hair Dryers are a Substantial Product Hazard Because They Violate Section 15(j)(1) Due to the Lack of Immersion Protection

93. Paragraphs 1 through 93 are hereby realleged and incorporated by reference as if fully set forth herein.

94. Amazon distributed the hair dryers to consumers through the Amazon FBA program.

95. The hand-supported hair dryers fail to provide integral immersion protection in compliance with a rule subject to CPSA Section 15(j)(1). 15 U.S.C. § 2064(j)(1).

96. Because the hair dryers fail to provide integral immersion protection, they present a significant electric shock and electrocution hazard to users.

97. Therefore, the hair dryers are a “substantial product hazard” under Sections 15(a) and 15(j) of the CPSA, 15 U.S.C. §§ 2064(a) and (j). *See* 16 C.F.R. § 1120.3.

XI. RELIEF SOUGHT

WHEREFORE, in the public interest, Complaint Counsel requests that the Commission:

1. Determine that Amazon is a distributor of consumer products in commerce, as those terms are defined in the CPSA;
2. Determine that the Subject Products are substantial product hazards under Sections 15(a)(1), 15(a)(2), and 15(j) of the CPSA, 15 U.S.C. §§ 2064(a)(1), (a)(2), and (j);
3. Determine that public notification in consultation with the Commission under Section 15(c) of the CPSA, 15 U.S.C. § 2064(c), is required to adequately protect the public from substantial products hazards created by the Subject Products, and order Respondent under Section 15(c) of the CPSA, 15 U.S.C. § 2064(c), to take actions set out in Section 15(c)(1) of the CPSA, including but not limited to:
 - a. Cease distribution of the Subject Products including removal of the ASINs and any other listings of the Subject Products and functionally identical products, from Amazon’s online marketplace and identifying such ASINs to CPSC;
 - b. Issue a CPSC-approved direct notice to all consumers who purchased the Subject Products which includes a particularized

description of the hazard presented by each Subject Product and encourage the return of the Subject Products;

- c. Issue a CPSC-approved press release, as well as any other public notice documents or postings required by CPSC staff that inform consumers of the hazard posed by the Subject Products and encourage the return or destruction of the Subject Products;

4. Order that Respondent facilitate the return and destruction of the Subject Products, at no cost to consumers, under Section 15(d)(1) of the CPSA, 15 U.S.C. § 2064(d)(1), to adequately protect the public from the substantial product hazard posed the Subject Products, and order Respondent under Section 15(d)(1) of the CPSA, 15 U.S.C. § 2064(d)(1), to take actions set out in Section 15(d)(1) of the CPSA, including but not limited to:

- a. Refund the full the purchase price to all consumers who purchased the Subject Products and, to the extent not already completed, conditioning such refunds on consumers returning the Subject Products or providing proof of destruction;
- b. Destroy the Subject Products that are returned to Amazon by consumers or that remain in Amazon's inventory, with proof of such destruction via a certificate of destruction or other acceptable documentation provided to CPSC staff;
- c. Provide monthly progress reports to reflect, among other things, the number of Subject Products located in Amazon's inventory, returned by consumers, and destroyed;
- d. Provide monthly progress reports identifying all functionally equivalent products removed by Amazon from amazon.com pursuant to Commission Order, including the ASIN, the number

distributed prior to removal, and the platform through which the products were sold;

5. Provide monthly reports summarizing the incident data submitted to CPSC through the Retailer Reporting Program in a format consistent with 16 C.F.R. 1115.13(d);
6. Order that the Respondent is prohibited from distributing in commerce the Subject Products, including any functionally identical products. *See* CPSA Section 15(d)(2), 15 U.S.C. § 2064(d)(2); and
7. Order that Respondent take other and further actions as the Commission deems necessary to protect the public health and safety and to comply with the CPSA and FFA.

ISSUED BY ORDER OF THE COMMISSION:

Dated this 14th day of July, 2021.

LIST AND SUMMARY OF DOCUMENTARY EVIDENCE

Pursuant to 16 C.F.R. § 1025.11(b)(3) of the Commission's Rules of Practice for Adjudicative Proceedings, the following is a list and summary of documentary evidence supporting the charges in this matter. Complaint Counsel reserves the right to offer additional or different evidence during the course of the proceedings, or to withhold evidence on the basis of any applicable legal privileges.

1. Claims, complaints, records, reports, CPSC's In-Depth Investigations, and lawsuits concerning incidents or injuries involving various consumer products identified in the Complaint ("Subject Products").
2. CPSC Product Safety Assessments.
3. Correspondence between Respondent and CPSC staff related to the Subject Products.
4. Documents and information related to the Subject Products, including notices issued by Respondent regarding the Subject Products and substantially similar equivalent products.
5. Documents and information related to Respondent's corporate structure and business operations.

DEPARTMENT OF EDUCATION

[Docket No.: ED-2021-SCC-0108]

Agency Information Collection Activities; Comment Request; Impact Evaluation of Teacher Residency Programs**AGENCY:** Institute of Educational Science (IES), Department of Education (ED).**ACTION:** Notice.**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, ED is proposing a revision of a currently approved collection.**DATES:** Interested persons are invited to submit comments on or before September 20, 2021.**ADDRESSES:** To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED-2021-SCC-0108. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the www.regulations.gov site is not available to the public for any reason, ED will temporarily accept comments at ICDocketMgr@ed.gov. Please include the docket ID number and the title of the information collection request when requesting documents or submitting comments. *Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted.* Written requests for information or comments submitted by postal mail or delivery should be addressed to the PRA Coordinator of the Strategic Collections and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave. SW, LBJ, Room 6W208B, Washington, DC 20202-8240.**FOR FURTHER INFORMATION CONTACT:** For specific questions related to collection activities, please contact Meredith Bachman, 202-245-7494.**SUPPLEMENTARY INFORMATION:** The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information

collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Impact Evaluation of Teacher Residency Programs.*OMB Control Number:* 1850-0960.*Type of Review:* A revision of a currently approved information collection.*Respondents/Affected Public:* State, Local, and Tribal Governments.*Total Estimated Number of Annual Responses:* 637.*Total Estimated Number of Annual Burden Hours:* 394.*Abstract:* The U.S. Department of Education (ED)'s Institute of Education Sciences (IES) requests clearance for data collection activities to support a study of teacher residency programs. Teacher residency programs aim to better prepare new teachers by combining education coursework with extensive on-the-job training. Program participants complete a full-year apprenticeship, or "residency," under the supervision of an experienced mentor teacher before they become teachers of record. The programs help meet the needs of their partner districts by preparing teachers to fill shortages in high-needs schools and subjects. They offer financial support for residents in exchange for a commitment to teach for at least three to five years in the district, in an effort to improve teacher retention. This financial support may also help expand the pool of teacher candidates by encouraging people to enter the profession who might be deterred by the cost of a traditional teacher preparation program. This second request covers additional data collection activities for the study to examine program outcomes. A prior request (1850-0960, approved 4/26/2021) covered the collection of

classroom rosters from schools to support random assignment of students to participating teachers.

Dated: July 16, 2021.

Stephanie Valentine,*PRA Coordinator, Strategic Collections and Clearance Team, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.*
