

existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally, in this case with the West Coast Region Protected Resources Division, whenever we propose to authorize take for endangered or threatened species.

The only species listed under the ESA with the potential to be present in the action area are the Mexico Distinct Population Segment (DPS) and Central America DPS of humpback whales. The effects of this Federal action were adequately analyzed in NMFS' Biological Opinion for the Seattle Multimodal Project at Colman Dock, Seattle, Washington, dated October 1, 2018, which concluded that issuance of an IHA would not jeopardize the continued existence of any endangered or threatened species or destroy or adversely modify any designated critical habitat.

Renewal

NMFS has issued a Renewal IHA to WSDOT for the take of marine mammals incidental to conducting the Seattle Multimodal Project at Colman Dock Year 4 in Washington State, between August 1, 2021 and July 31, 2022.

Dated: July 16, 2021.

SUPPLEMENTARY INFORMATION:

I. Background

The DoD is establishing the Defense Reasonable Accommodations and Assistive Technology Records, DoD 0007, as a DoD-wide Privacy Act system of records. A DoD-wide system of records notice (SORN) supports multiple DoD paper or electronic recordkeeping systems. DoD components maintaining the same kind of information on individuals for the same purpose maintain the system. The establishment of DoD-wide SORNs helps the DoD standardize the rules governing the collection, maintenance, use, and sharing of personal information in key areas across the enterprise. DoD-wide SORNs also reduce duplicative and overlapping SORNs published by separate DoD components. The creation of DoD-wide SORNs is expected to make locating relevant SORNs easier for DoD personnel and the public and create efficiencies in the operation of the DoD privacy program.

This SORN describes reasonable accommodation and assistive technology records maintained by all component parts of the DoD, wherever they are maintained. The system covers both electronic and paper records and

will be used by DoD components and offices to maintain records about accommodations based on disability requested by or provided to employees and applicants for employment and participants in DoD programs and activities. The Rehabilitation Act of 1973, as amended, generally requires Federal agencies to provide accommodations which enable individuals with disabilities to perform DoD employment and participate in DoD programs and activities, unless such accommodation would impose an undue burden. In addition, DoD's Computer/Electronic Accommodations Program (CAP) provides assistive (computer/electronic) technology solutions to individuals—including injured, wounded, or ill Service members—with hearing, vision, dexterity, cognitive, and/or communications impairments in the form of an accessible work environment. This also includes the request and delivery of personal assistance services for covered individuals. Such disability accommodations include: (1) Making existing facilities readily accessible to and usable by individuals with disabilities; (2) job restructuring, modification of work schedules or place of work, extended leave, telecommuting, or reassignment to a vacant position; and/or (3) acquisition or modification of equipment or devices, including computer software and hardware, appropriate adjustments or modifications of examinations, training materials or policies, the provision of qualified readers and/or interpreters, personal assistants, service animals, and other similar accommodations.

Additionally, the DoD is issuing a Direct Final Rulemaking to exempt this system of records from certain provisions of the Privacy Act elsewhere in today's issue of the **Federal Register**.

II. Privacy Act

Under the Privacy Act, a "system of records" is a group of records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined as a U.S. citizen or lawful permanent resident.

The DoD notices for systems of records subject to the Privacy Act of 1974, as amended, have been published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Defense Privacy, Civil Liberties, and Transparency Division website at <https://dpcl.dod.mil>.

In accordance with 5 U.S.C. 552a(r) and Office of Management and Budget (OMB) Circular No. A-108, the DoD has provided a report of this system of records to OMB and to Congress.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

The DoD safeguards records in this system of records according to applicable rules, policies, and procedures, including all applicable DoD automated systems security and access policies. DoD policies require the use of controls to minimize the risk of compromise of personally identifiable information (PII) in paper and electronic form and to enforce access by those with a need to know and with appropriate clearances. Additionally, the DoD has established security audit and accountability policies and procedures which support the safeguarding of PII and detection of potential PII incidents. The DoD routinely employs safeguards such as the following to information systems and paper recordkeeping systems: Multifactor log-in authentication including Common Access Card (CAC) authentication and password; Secret internet Protocol Router (SIPR) token as required; physical and technological access controls governing access to data; network encryption to protect data transmitted over the network; disk encryption securing disks storing data; key management services to safeguard encryption keys; masking of sensitive data as practicable; mandatory information assurance and privacy training for individuals who will have access; identification, marking, and safeguarding of PII; physical access safeguards including multifactor identification physical access controls, detection and electronic alert systems for access to servers and other network infrastructure; and electronic intrusion detection systems in DoD facilities.

Custodians of medical records in this system of records must have the ability to protect this information from being accessed or accessible by others without a need to know. This may involve providing custodians with access to dedicated machines for copying, printing, or faxing; dedicated, secure file storage; and temporary or permanent workspaces where telephone conversations cannot be overheard by those without a need to know.

RECORD ACCESS PROCEDURES:

Individuals seeking access to their records should follow the procedures in 32 CFR part 310. Individuals should address written inquiries to the DoD office with oversight of the records. If executed within the United States, its territories, possessions, or commonwealths: "I declare (or certify, verify, or state) under penalty of perjury that the foregoing is true and correct. Executed on (date). (Signature)."

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an

opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Impact Aid Electronic Data Collection (EDC) Program Questionnaire.

OMB Control Number: 1810-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 30.

Total Estimated Number of Annual Burden Hours: 8.

Abstract: The Impact Aid Program (IAP) in the Office of Elementary and Secondary Education (OESE) at the U.S. Department of Education (the Department) requests clearance for the Electronic Data Collection (EDC) Program Questionnaire. This is a new information collection request. As part of the Impact Aid 7003 application, Local Educational Agency's (LEA) are required to submit data concerning federally-connected children within their LEA. In the past LEAs have collected this information using paper forms, but more recently, and particularly this past year, there has been more interest from LEAs to collect this data electronically. The purpose of the EDC program is to reduce administrative burden and to create a set of best practices to assist other LEAs in the development their own electronic systems. The questionnaire will allow IAP staff to provide in depth technical assistance to LEAs and potentially increase efficiency and reduce costs associated with the Impact Aid data

collection process. Prior to Impact Aid approval of an EDC program, the LEA must successfully demonstrate that their system complies with all requirements of the Impact Aid program: U.S.C. 7703 and 7705, and regulations at 34 CFR 222.39-35.
