

minimis in the final results of the review, we will instruct CBP not to assess duties on any of its entries in accordance with the *Final Modification for Reviews*, i.e., “{w}here the weighted-average margin of dumping for the exporter is determined to be zero or *de minimis*, no antidumping duties will be assessed.”¹⁵

For entries of subject merchandise during the POR produced by Citrique Belge for which the producer did not know its merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company (or companies) involved in the transaction.¹⁶

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (i.e., within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for Citrique Belge will be equal to the weighted-average dumping margin established in the final results of this administrative review, except if the rate is less than 0.50 percent, and therefore *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, a prior review, or in the investigation but the

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these preliminary results in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213(h)(1).

Dated: July 16, 2021.

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) has preliminarily assigned Reliance Industries Limited (RIL), the sole respondent subject to this antidumping duty (AD) administrative

review, an AD margin based upon the application of total adverse facts available (AFA). The period of review (POR) is July 1, 2019, through June 30, 2020.

DATES: Applicable July 22, 2021.

Paola Aleman Ordaz, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4031.

SUPPLEMENTARY INFORMATION:

Background

On September 3, 2020, Commerce published in the **Federal Register** the notice of initiation of an AD administrative review of fine denier polyester staple fiber (fine denier PSF) from India, covering RIL.¹

On March 24, 2021, Commerce extended the deadline for issuing the preliminary results of this review from to April 2, 2021, to July 30, 2021.²

For a complete description of the events that followed the initiation of this administrative review, see the Preliminary Decision Memorandum.³

Scope of the Order

The product covered by this review is fine denier polyester staple fiber from India. For a complete description of the scope, see the Preliminary Decision Memorandum.

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act). For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. A list of the topics included in the Preliminary Decision Memorandum is included as an appendix to this notice. The Preliminary Decision Memorandum is a public document and is available to the public via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). Adverse Facts Available

Pursuant to sections 776(a) and (b) of the Act, Commerce has preliminarily

assigned RIL an AD margin of 21.43 percent, as AFA, because it withheld information regarding its sales and cost reconciliations, affiliates, incorrectly reported its control numbers, and provided unreliable and unusable sales and cost databases. For details regarding

this determination, see the Preliminary Decision Memorandum.

Preliminary Results of Review

Commerce preliminarily determines that the following estimated weighted-average dumping margin exists:

Exporter/producer	Estimated weighted-average dumping margin (percent)	Cash deposit rate adjusted for subsidy offset (percent)
Reliance Industries Limited	21.43	19.89

Assessment Rates

Upon completion of the administrative review, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review.⁴ The final results of this administrative review shall be the basis for the assessment of antidumping duties on entries of merchandise under review and for future deposits of estimated duties, where applicable.⁵ If the preliminary results are unchanged for the final results, we will instruct CBP to apply an *ad valorem* assessment rate equal to RIL's weighted-average dumping margin in the final results of this review to all entries of subject merchandise during the POR from RIL.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of fine denier PSF from India entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice of the final results of this administrative review, as provided for by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for RIL will be equal to the weighted-average dumping margin established in the final results of this review (except, if the weighted-average dumping margin is zero or *de minimis*, no cash deposit will

be required); (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the manufacturer or exporter participated; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established in the most recently completed segment of the proceeding for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 14.67 percent *ad valorem*, the all-others rate established in the less-than-fair-value investigation, adjusted for subsidy offsets.⁶ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Disclosure

Normally, Commerce discloses the calculations performed in connection with preliminary results to interested parties within five days after the date of public announcement or publication of this notice.⁷ Because Commerce preliminarily applied a rate based entirely on AFA in accordance with section 776 of the Act, to the only mandatory respondent in this review, there are no calculations to disclose.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Southeast Region Vessel and Gear Identification Requirements

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information

collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on February 19, 2021, (86 FR 10250) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

Title: Southeast Region Vessel and Gear Identification Requirements.

OMB Control Number: 0648-0358.

Form Number(s): None.

Type of Request: Regular submission. Extension of a current information collection.

Estimated Number of Respondents: 10,031.

Estimated Time per Response: Vessel marking: 75 minutes. Gear marking: aquacultured live rocks, 10 seconds each; golden crab traps, 2 minutes each; spiny lobster traps, 7 minutes each; sea bass pots, 16 minutes each; and Spanish mackerel gillnets, 20 minutes each; and buoy gear, 10 minutes each.

Estimated Total Annual Burden Hours: 40,335.

Needs and Uses: The NMFS Southeast Region manages the U.S. fisheries in the exclusive economic zone of the U.S. Caribbean, Gulf of Mexico, and South Atlantic regions under multiple fishery management plans (FMPs). The regional fishery management councils and NMFS prepared the FMPs pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). NMFS implements the regulations for the FMPs that are located at 50 CFR part 622.

The recordkeeping and reporting regulations located at 50 CFR part 622 form the basis for the information collection requirements that are currently approved under OMB Control Number 0648-0358. NMFS proposes to extend to the information collections under 0648-0358 without change. Regulations at 50 CFR part 622 require that all federally permitted fishing vessels must be marked with the official identification number or some other form of identification. A vessel's official number, under most regulations, must be displayed on the port and starboard sides of the deckhouse or hull, and on the weather deck. In addition, regulations for certain fisheries also require the display of the assigned color code for the vessel. The official number and color code identify each vessel and should be visible at distance from the sea and in the air. These markings provide law enforcement personnel

with a means to monitor fishing, at-sea processing, and other related activities, as well as to ascertain whether the vessel's observed activities are in accordance with those authorized for that vessel. The identifying official number is used by NMFS, the United States Coast Guard, and other marine agencies in issuing violations, prosecutions, and other enforcement actions. Vessels that are authorized for particular fisheries are readily identified, gear violations are more readily prosecuted, and this allows for more cost-effective enforcement.

In addition to vessel marking, requirements that fishing gear be marked are essential to facilitate enforcement. The ability to link fishing gear to the vessel owner is crucial to enforcement of regulations issued under the authority of the Magnuson-Stevens Act. The marking of fishing gear is also valuable in actions concerning damage, loss, and civil proceedings. The requirements imposed in the U.S. southeast region are for aquacultured live rock; golden crab traps; spiny lobster traps; black sea bass pots; Spanish mackerel gillnets; and buoy gear.

Affected Public: Business or other for-profit organizations, individuals or households.

Frequency: On occasion or as needed.

Respondent's Obligation: Mandatory.

Legal Authority: 16 U.S.C. 1801 *et seq.*
