(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Issued on: July 19, 2021.
Rodney Whitfield,
Director, Financial Services, Federal Highway Administration, California Division.

Notice of denial.

On February 9, 2021, FMCSA published a Federal Register notice (86 FR 8830) announcing receipt of an application from one individual treated with an Implantable Cardioverter Defibrillator (ICD) and requested comments from the public. The individual requested an exemption from 49 CFR 391.41(b)(4) which prohibits operation of a commercial motor vehicle (CMV) in interstate commerce by persons with a current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope (transient loss of consciousness), dyspnea (shortness of breath), collapse, or congestive heart failure.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366–4001, fmcsamedical@dot.gov, FMCSA, DOT, 1200 New Jersey Avenue SE, Room W64–224, Washington, DC 20590–0001. B. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.transportation.gov/privacy.

II. Background

On February 9, 2021, FMCSA published a Federal Register notice (86 FR 8830) announcing receipt of an application from one individual treated with an ICD and requested comments from the public. The individual requested an exemption from 49 CFR 391.41(b)(4) which prohibits operation of a CMV in interstate commerce by persons with a current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive heart failure. The public comment period closed on March 11, 2021, and one comment was received.

FMCSA has evaluated the eligibility of the applicant and concluded that granting an exemption would not provide a level of safety that would be equivalent to, or greater than, the level of safety that would be obtained by complying with § 391.41(b)(4). A summary of the applicant’s medical history related to the ICD exemption request was discussed in the February 9, 2021, Federal Register notice and will not be repeated here.

The Agency’s decision regarding this exemption application is based on information from the Cardiovascular Medical Advisory Criteria, an April 2007 evidence report titled “Cardiovascular Disease and Commercial Motor Vehicle Driver Safety,” 1 and a December 2014 focused research report titled “Implantable Cardioverter Defibrillators and the Impact of a Shock in a Patient When Deployed.” Copies of these reports are included in the docket.

FMCSA has published advisory criteria to assist medical examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce.2 The advisory criteria for § 391.41(b)(4) indicates that coronary artery bypass surgery and pacemaker implantation are remedial procedures and thus, not medically disqualifying. ICDs are disqualifying due to risk of syncope.

III. Discussion of Comments

FMCSA received one comment in this proceeding. The comment was from a private citizen who did not support granting the exemption. The individual disagreed that granting an exemption for an ICD would ensure the safety of the driver and local pedestrians. FMCSA evaluates each ICD application received to determine whether an equivalent or greater level of safety can be achieved by the applicant. While FMCSA has received and carefully evaluated many ICD exemption application requests, thus far the Agency has been unable to conclude that granting an exemption to any of the applicants would achieve a level of safety equivalent to, or greater than, the level of safety maintained without an exemption.

Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The Agency’s decision regarding this achieved exemption application is based on an

individualized assessment of the applicant’s medical information, available medical and scientific data regarding ICDs, and any relevant public comments received.

In the case of persons with ICDs, the underlying condition for which the ICD was implanted places the individual at high risk for syncope or other unpredictable events known to result in gradual or sudden incapacitation. ICDs may discharge, which could result in loss of ability to safely control a CMV. The December 2014 focused research report referenced previously upholds the findings of the April 2007 report and indicates that the available scientific data on persons with ICDs and CMV driving does not support that persons with ICDs who operate CMVs are able to meet an equal or greater level of safety.

IV. Conclusion

The Agency has determined that the available medical and scientific literature and research provides insufficient data to enable the Agency to conclude that granting this exemption would achieve a level of safety equivalent to, or greater than, the level of safety maintained without the exemption. Therefore, the following applicant has been denied an exemption from the physical qualification standards in § 391.41(b)(4): Matthew Wackt (WI)

The applicant, prior to this notice, received a letter of final disposition regarding his exemption request. The decision letter fully outlined the basis for the denial and constitute final action by the Agency. The name of the individual published today summarizes the Agency’s recent denials as required under 49 U.S.C. 31315(b)(4).

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the OMB for each collection of information that they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. The OCC asks that OMB extend its approval of the collection in this document.

Title: Release of Non-Public OCC Information.

OMB Control No.: 1557–0200.

Abstract: The information collection requirements require individuals who are requesting non-public OCC information to provide the OCC with information regarding the legal grounds for the request. The release of non-public OCC information to a requester without sufficient legal grounds to obtain the information would inhibit open consultation between a bank and the OCC, thereby impairing the OCC’s supervisory and regulatory mission. The OCC is entitled, under statute and case law, to require requesters to demonstrate that they have sufficient legal grounds for the OCC to release non-public OCC information. The OCC needs to identify the requester’s legal grounds to determine if it should release the requested non-public OCC information.

The information requirements in 12 CFR part 4, subpart C, are as follows:

1 On April 8, 2021, the OCC published a 60-day notice for this information collection, 86 FR 18371.
