communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. These filings are available for electronic review at the Commission in the Public Reference Room or may be viewed on the Commission’s website at http://www.ferc.gov using the eLibrary link.

Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, please contact FERC Online Support at FERConlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

ENVIRONMENTAL PROTECTION AGENCY

Proposed Information Collection Request; Comment Request; Landfill Methane Outreach Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “Landfill Methane Outreach Program” (EPA ICR No. 1849.10, OMB Control No. 2060–0446) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through April 30, 2022. An Agency may not conduct or sponsor a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before September 24, 2021.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA–HQ–OAR–2003–0078, online using www.regulations.gov (our preferred method), by email to a-and-r-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Lauren Aepli, Climate Change Division, Office of Atmospheric Programs, (6207A), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 343–9423; fax number: (202) 343–2342; email address: aepli.lauren@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit http://www.epa.gov/dockets.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another Federal Register notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The Landfill Methane Outreach Program (LMOP), created by EPA as part of the United States’ commitment to reduce greenhouse gas emissions under the United Nations Framework Convention on Climate Change, is a voluntary program designed to encourage and facilitate the development of environmentally and economically sound landfill gas (LFG) energy projects across the United States to reduce methane emissions from landfills. LMOP meets these objectives by educating local governments and communities about the benefits of LFG recovery and use; building partnerships between state agencies, industry, energy service providers, local communities, and other stakeholders interested in developing this valuable resource in their community; and providing tools to
evaluate LFG energy potential. LMOP signed voluntary Memoranda of Understanding (MOUs) with these organizations to enlist their support in promoting cost-effective LFG utilization. The information collection includes completion and submission of the MOU, periodic information updates, and annual completion and submission of basic information on landfill methane projects with which the organizations are involved as an effort to update the LMOP Landfill and Landfill Gas Energy Project Database. The information collection is to be utilized to maintain up-to-date data and information about LMOP Partners and LFG energy projects with which they are involved. The data will also be used by the public to access LFG energy project development opportunities in the United States. In addition, the information collection will assist EPA in evaluating the reduction of methane emissions from landfills. No confidential information is requested or required in this information collection.

Respondents/affected entities: Private companies and municipalities that own or operate landfills; manufacturers and suppliers of equipment/knowledge to capture and utilize LFG; utility companies; end-users of energy from landfills; developers of LFG energy projects; State agencies; and other LFG energy stakeholders.

Respondent’s obligation to respond: Voluntary.

Estimated number of respondents: 1,066 (total).

Frequency of response: Annual.

Total estimated burden: 2,176 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $199,457 (per year), includes $0 annualized capital or operation & maintenance costs.

Changes in estimates: There is decrease of 94 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to anticipated slowed growth in the number of new LMOP Partners annually.

Paul M. Gunning,
Director, Climate Change Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–8700–01–R9]

Clean Air Act Operating Permit Program: Petition To Object to Operating Permits for the Drews and Century Power Generating Facilities in Southern California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an Order, dated May 10, 2021, denying a petition to object to Clean Air Act (CAA) title V operating permits issued to two facilities by the South Coast Air Quality Management District (SCAQMD). The EPA’s May 10, 2021 Order responds to a November 24, 2020 petition submitted by the Sierra Club and the Center for Community Action and Environmental Justice (the “Petitioners”). The Petitioners requested that the EPA object to the issuance of two title V renewal operating permits issued to Colton Power, LP’s Drews Power Generating Station (Facility ID No. 182561) and Century Power Generating Station (Facility ID No. 182563) (“Permits”). The Petitioners claim that the Permits must be revised to include the more stringent oxides of nitrogen (NOx) emissions limit in a recently amended version of local SCAQMD Rule 1134. The NOx emissions limit has a compliance date of January 1, 2024 and the Petitioners argued that the Permits must be revised now because the compliance date occurs before the expiration of the Permits. The Petitioners further argued that if the operator has not yet chosen one of the two compliance options from the local rule, then SCAQMD must revise the Permits to include both compliance options.

The EPA denied the petition because the Petitioners failed to demonstrate that the recently amended version of SCAQMD Rule 1134 is an applicable requirement as defined in 40 CFR 70.2. The Order provides additional information, including the EPA’s detailed basis for denying the petition.

Dated: July 8, 2021.

Elizabeth Adams,
Acting Regional Administrator, Region IX.
