Purpose(s)

HUD's primary objective of the computer matching program is to verify the employment and income of participants in certain rental assistance programs to determine the appropriate level of rental assistance, and to detect, deter and correct fraud, waste, and abuse in rental housing assistance programs. In meeting these objectives, HUD also is carrying out a responsibility under 42 U.S.C. 1437f(K) to ensure that income data provided to PHAs, and O/As, by household members is complete and accurate. HUD's various rental housing assistance programs require that participants meet certain income and other criteria to be eligible for rental assistance. In addition, tenants generally are required to report and recertify the amounts and sources of their income at least annually. However, under the Quality Housing and Work Responsibility Act (QHWRA) of 1998, PHAs operating Public Housing programs may offer tenants the option to pay a flat rent, or an income-based rent. Those tenants who select a flat rent will be required to recertify income at least every three years. In addition, the changes to the Admissions and Occupancy final rule (March 29, 2000 (65 FR 16692)) specified that household composition must be recertified annually for tenants who select a flat rent or income-based rent.

Endangered Species; Receipt of Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received

applications for permits to conduct activities intended to enhance the propagation and survival of endangered species under the Endangered Species Act of 1973, as amended. We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments on or before August 27, 2021.

ADDRESSES: *Document availability and comment submission:* Submit a request for a copy of the application and related documents and submit any comments by one of the following methods. All requests and comments should specify the applicant name and application number (e.g., Dana Ross TE-08964A-2):

- *Email:* permitsR1ES@fws.gov.
- *U.S. Mail:* Marilet Zablan, Program Manager, Restoration and Endangered Species Classification, Ecological Services, U.S. Fish and Wildlife Service, Portland Regional Office, 911 NE 11th Avenue, Portland, OR 97232-4181.

FOR FURTHER INFORMATION CONTACT: Colleen Henson, Regional Recovery

Permit Coordinator, Ecological Services, (503) 231-6131 (phone); permitsR1ES@fws.gov (email). Individuals who are hearing or speech impaired may call the Federal Relay Service at 1-800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered under the ESA.

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activity. The ESA’s definition of “take” includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened

species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. These activities often include such prohibited actions as capture and collection. Our regulations implementing section 10(a)(1)(A) for these permits are found in the Code of Federal Regulations (CFR) at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild. The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies.

Enhancement of Survival Permit Application and Draft Safe Harbor Agreement, Nye, Esmeralda, Lincoln and Clark Counties, Nevada

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of the proposed draft safe harbor agreement and NEPA compliance documentation; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the receipt and availability of an application for an enhancement of survival permit (permit) under the Endangered Species Act (ESA) and an associated draft programmatic Safe Harbor Agreement (SHA). Additionally, consistent with the requirements of the National Environmental Policy Act (NEPA), we have prepared a draft environmental action statement supporting our preliminary determination that the proposed permit action qualifies for a categorical exclusion under NEPA. The Nevada Department of Wildlife (applicant) has applied for a permit under the ESA for the enhancement activities within the SHA, which will contribute to the recovery of the Pahrump poolfish (*Empetrichthys latos*). The permit would authorize the take of one species incidental to the enhancement and restoration of private and public lands. We invite the public and local, State, Tribal, and Federal agencies to comment on the proposed SHA, and NEPA categorical exclusion determination documentation. Before issuing the requested permit, we will take into consideration any information that we receive during the public comment period.

DATES: Written comments must be received on or before August 27, 2021.

ADDRESSES: *Obtaining Documents:* The documents this notice announces, as well as any comments and other materials that we receive, will be available for public inspection in Docket No. FWS–R8–ES–2021–0047 at <http://www.regulations.gov>.

Submitting Comments: To send written comments, please use one of the following methods and identify to which document your comments are in reference—the draft SHA or NEPA compliance documentation.

- *Internet:* Submit comments at <http://www.regulations.gov> under Docket No. FWS–R8–ES–2021–0047.

- *U.S. Mail:* Public Comments Processing, Attn: Docket No. FWS–R8–ES–2021–0047; U.S. Fish and Wildlife Service Headquarters, MS: PRB/3W; 5275 Leesburg Pike; Falls Church, VA 22041–3803.

FOR FURTHER INFORMATION CONTACT: Glen W. Knowles, Field Supervisor, Southern Nevada Fish and Wildlife Office, by phone at 702–515–5244 or via the Federal Relay Service at 800–877–8339.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the receipt of a permit application from the Nevada Department of Wildlife (applicant), for a 50-year enhancement of survival permit under section 10(a)(1)(A) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). Application for the permit requires the preparation of a programmatic safe harbor agreement (SHA) between the applicant and Service. The SHA provides for voluntary habitat restoration, maintenance, or enhancement activities that will contribute to the recovery of the Pahrump poolfish (*Empetrichthys latos*).

Service consideration of issuing a permit also requires evaluation of its potential impacts on the natural and human environment in accordance with the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). The Service has prepared a draft environmental action statement, which includes a draft categorical exclusion (CatEx) pursuant to NEPA and its implementing regulations in the Code of Federal Regulations (CFR) at 40 CFR 1501.4, to preliminarily determine if the proposed SHA is eligible for a categorical exclusion.
