SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to conduct the Management and Organizational Practices Survey (MOPS) for survey year 2021; the survey was previously conducted for survey years 2010 and 2015. The survey will be conducted as a joint project by the Census Bureau, the University of Chicago Booth School of Business, Stanford School of Humanities and Sciences, and the Stanford Institute for Human-Centered Artificial Intelligence. The MOPS will utilize the Annual Survey of Manufacturers (ASM) mail-out sample and will collect information on management and organizational practices at the establishment level. The Census Bureau has conducted the ASM since 1949 to provide key measures of manufacturing activity during intercensal periods. In years that we conduct the Economic Census, years ending in “2” and “7”, we do not mail the ASM but collect the data as part of the Economic Census covering the Manufacturing Sector. The ASM is an integral part of the Federal Government’s statistical program, furnishing up-to-date estimates of employment and payroll, hours and wages of production workers, value added by manufacture, cost of materials, value of shipments, inventories, and expenditures for both plant and equipment and structures. The data obtained from the MOPS will allow the Census Bureau to estimate a firm’s stock of management and organizational assets, specifically the use of decentralized decision rights and establishment performance data such as production targets in decision-making. These data will provide information on investments in management and organizational practices, which will lead to a better understanding of the benefits from these investments when measured in terms of firm productivity or firm market value. This survey on management and organizational practices will provide information on the dimensions of organizational capital for this sector not currently available elsewhere. This clearance request will be for the survey year 2021. The Census Bureau plans to make the following changes to the 2015 MOPS content for the 2021 survey:

• Add a new purchased services module on the establishment’s use of its own employees, contractors, temporary staff, or leased workers for select business expenses.
• Update the data and decision-making module by removing five of the six questions, maintaining a question asking who decides what data to collect for continuity, and adding nine questions focused on the frontiers uses of data to inform artificial intelligence.
• Add three questions to the background characteristics module on the establishment’s use of an external Certified Public Accountant.
• Simplify questions on the location of decision-making in multi-location firms in the organization module by combining them into a single table and removing write-in responses.
• Remove four forecasting questions in the uncertainty module.
• Remove two questions related to the establishment’s background characteristics.
• Remove all questions about a five-year recall period.

II. Method of Collection

The 2021 MOPS will be mailed separately from the 2021 ASM and will utilize an entirely electronic collection. Unlike the ASM that mails to the headquarters of companies with multiple locations, the MOPS will be mailed directly to the individual establishments. Initial contact with respondents will be a mailed letter directing them to report online. Respondents will report electronically through the Census Bureau’s Centurion online reporting system. The sample for the 2021 MOPS will consist of the approximately 50,000 establishments in the 2021 ASM mail-out sample. The mail-out sample for the ASM is redesigned at 5-year intervals beginning the second survey year after the Economic Census. For the 2019 ASM, a new probability sample was selected from a frame of approximately 100,000 manufacturing establishments in the 2017 Economic Census that had paid employees, were located in the United States, and were associated with multi-

Certain Cold-Rolled Steel Flat Products From the Republic of Korea: Final Results of Antidumping Duty Administrative Review; 2018–2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that certain cold-rolled steel flat products (cold-rolled steel) from the Republic of Korea were not sold in the United States at prices below normal value during the period of review (POR), September 1, 2018, through August 31, 2019.

FOR FURTHER INFORMATION CONTACT: Michael J. Heaney, George McMahon, or Marc Castillo, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4475, (202) 482–1167, or (202) 482–5019, respectively.

SUPPLEMENTARY INFORMATION: Background

On January 25, 2021, Commerce published the Preliminary Results of this administrative review.1 We invited interested parties to comment on the Preliminary Results. Between February 24, 2021, and March 5, 2021, Commerce received timely filed case briefs and rebuttal briefs from United States Steel Corporation (U.S. Steel), additional domestic parties,2 Hyundai Steel Company (Hyundai), and POSCO/POSCO International Corp. and Daewoo (POSCO).3 On May 14, 2021, we extended the deadline for issuing the final results until July 23, 2021.4

For a complete description of the events that followed the Preliminary Results, see the Issues and Decision Memorandum, dated concurrently with these final results and hereby adopted by this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at http://enforcement.trade.gov/frn/index.html.

This review covers three producers and exporters of the subject merchandise. Based on an analysis of the comments received, we made certain changes to the margin calculations. The weighted-average dumping margins are listed in the “Final Results of the Review” section of this notice. Commerce conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

1 Additional domestic parties include ArcelorMittal USA LLC, AK Steel Corporation, and Cleveland-Cliffs Steel LLC (collectively, domestic producers).
4 See Memorandum, “Issues and Decision Memorandum for the Final Results of the 2018–2019 Administrative Review of the Antidumping Duty Order on Certain Cold-Rolled Steel Flat Products from the Republic of Korea,” dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).
