

subscribers, or other entities that are recipients of the disclosures. Revealing this information could compromise sensitive information or interfere with the overall law enforcement process by revealing a pending sensitive cybersecurity investigation. Revealing this information could also permit the record subject to obtain valuable insight concerning the information obtained during any investigation and to take measures to impede the investigation, e.g., destroy evidence or alter techniques to evade discovery.

(2) From subsection (d)(1), (2), (3) and (4), (e)(4)(G) and (H), and (f) because these provisions concern individual access to and amendment of certain law enforcement and sensitive records, compliance of which could alert the subject of an authorized law enforcement activity about that particular activity and the interest of the DOJ, external federal agency subscribers, and/or other entities that are recipients of the disclosure. Providing access could compromise sensitive information, or reveal sensitive cybersecurity investigative techniques; provide information that would allow a subject to avoid detection; or constitute a potential danger to the health or safety of law enforcement personnel or confidential sources.

(3) From subsection (e)(1) because it is not always possible to know in advance what information is relevant and necessary for law enforcement purposes. The relevance and utility of certain information that may have a nexus to cybersecurity threats may not always be fully evident until and unless it is vetted and matched with other information necessarily and lawfully maintained by the DOJ, external federal agency subscribers, or other entities.

(4) From subsection (e)(4)(I), to the extent that this subsection is interpreted to require more detail regarding the record sources in this system than has been published in the **Federal Register**. Should the subsection be so interpreted, exemption from this provision is necessary to protect the sources of law enforcement information.

ACTION: Notice of proposed rulemaking; withdrawal.

SUMMARY: The Coast Guard is withdrawing its proposed rule to establish temporary special local regulations for certain waters of the Patuxent River. SUPPLEMENTARY INFORMATION:

Background Information and Regulatory History

On June 7, 2021, we published an NPRM entitled “Special Local Regulations; Patuxent River, Solomons, MD” in the **Federal Register** (86 FR 30224). The proposed rulemaking concerned the Coast Guard’s establishment of a temporary special local regulation for certain navigable waters of the Patuxent River, effective from 8 a.m. through 6 p.m. on August 29, 2021. This action was necessary to provide for the safety of life on these

waters during a power boat racing event. This rulemaking would have prohibited persons and vessels from entering the regulated area unless authorized by the Captain of the Port Maryland-National Capital Region or the Coast Guard Event Patrol Commander.

Withdrawal

The proposed rule is being withdrawn due to the regulated area no longer being necessary following a cancellation of the power boat racing event by the event sponsor.

Authority

We issue this notice of withdrawal under the authority of 46 U.S.C. 70041.

Dated: July 26, 2021.

David E. O’Connell,

I. Introduction

On July 22, 2021, the Postal Service filed a petition pursuant to 39 CFR 3050.11 requesting that the Commission initiate a rulemaking proceeding to consider changes to analytical principles relating to periodic reports.¹ The Petition identifies the proposed analytical changes filed in this docket as Proposal Four.

II. Proposal Four

Background. The Postal Service currently develops the distribution factors used for the Special Purpose Route (SPR) city carrier cost pools based on manual data collection through the City Carrier Costing System SPR subsystem (CCCS–SPR). The Commission approved the use of this subsystem in Order No. 339, and it has been used each year since FY 2009.²

Proposal. With Proposal Four, the Postal Service seeks to replace the CCCS–SPR subsystem with a new system called the Special Purpose Carrier Cost System (SPCCS). The Postal Service cites two objectives for this new system: “to replace manual sampling with scan data from Product Tracking and Reporting (PTR) combined with the clock rings from the Time and Attendance Collection System (TACS)” and to “separate the weekday SPR cost pool into peak and non-peak pools and provide separate distribution factors for each cost pool.” Petition, Proposal Four at 2.

With respect to the first objective, the Postal Service plans to use PTR delivery scans that occur within time blocks when a city carrier is clocked to Management Operating Data System (MODS) Operating Codes specific to Special Purpose Routes. *Id.* The Postal Service proposes to use a sample of time blocks “[d]ue to the disproportionate resources required to obtain a complete nationwide census.” *Id.*

Regarding the second objective, the Postal Service proposes to disaggregate the volume variabilities used for the SPR Monday through Saturday cost pool in order to create separate non-peak and peak weekday SPR cost pools. *Id.* at 3. The Postal Service also proposes annual updates to the hours used to weight the new weekday non-peak SPR cost pool variabilities. *Id.*

Impact. The impacts of Proposal Four are outlined in Table 1 of the proposal.

¹ Petition of the United States Postal Service for the Initiation of a Proceeding to Consider Proposed Changes in Analytical Principles (Proposal Four), July 22, 2021 (Petition).

² See Docket No. RM2009–10, Order on Analytical Principles Used in Periodic Reporting (Proposals Three through Nineteen), November 13, 2009 (Order No. 339); Petition, Proposal Four at 1.

Id. at 7. The most significant change in unit costs is a decrease of \$0.1743 for Collect on Delivery Service. *Id.* The unit cost of USPS Marketing Mail Parcels would increase by \$0.0151, from \$0.238 to \$0.254 per unit. *Id.* The unit cost for total domestic market dominant services would decrease by \$0.0144 per unit. *Id.*

III. Notice and Comment

The Commission establishes Docket No. RM2021–7 for consideration of matters raised by the Petition. More information on the Petition may be accessed via the Commission’s website at <http://www.prc.gov>. Interested persons may submit comments on the Petition and Proposal Four no later than August 23, 2021. Pursuant to 39 U.S.C. 505, Manon Boudreault is designated as an officer of the Commission (Public Representative) to represent the interests of the general public in this proceeding.

IV. Ordering Paragraph

It is ordered:

1. The Commission establishes Docket No. RM2021–7 for consideration of the matters raised by the Petition of the United States Postal Service for the Initiation of a Proceeding to Consider Proposed Changes in Analytical Principles (Proposal Four), filed July 22, 2021.

2. Comments by interested persons in this proceeding are due no later than August 23, 2021.

3. Pursuant to 39 U.S.C. 505, the Commission appoints Manon Boudreault to serve as an officer of the Commission (Public Representative) to represent the interests of the general public in this docket.

4. The Secretary shall arrange for publication of this Order in the **Federal Register**.

By the Commission.

Erica A. Barker,
