

assist the public in understanding the types of information and issues that the agency may consider during the course of registration reviews. As part of the registration review process, the Agency has completed preliminary workplans for all pesticides listed in the Table in Unit IV. Through this program, the EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment.

III. Authority

The EPA is conducting its registration review of the chemicals listed in the Table in Unit IV pursuant to section 3(g)

of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. Section 3(g) of FIFRA provides, among other things, that the registrations of pesticides are to be reviewed every 15 years. Under FIFRA, a pesticide product may be registered or remain registered only if it meets the statutory standard for registration given in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). When used in accordance with widespread and commonly recognized practice, the pesticide product must perform its intended function without unreasonable adverse effects on the environment; that is, without any unreasonable risk to

man or the environment, or a human dietary risk from residues that result from the use of a pesticide in or on food.

IV. Registration Reviews

A. What action is the Agency taking?

A pesticide's registration review begins when the agency establishes a docket for the pesticide's registration review case and opens the docket for public review and comment. Pursuant to 40 CFR 155.50, this notice announces the availability of the EPA's preliminary work plans for the pesticides shown in the following table and opens a 60-day public comment period on the work plans.

Registration review case name and No.	Docket ID No.	Chemical review manager and contact information
Allyl isothiocyanate (AITC) and Oriental mustard seed, Case Number 7481.	EPA-HQ-OPP-2021-0251	Natalie Bray, Bray.Natalie@epa.gov , 703-347-8467.

B. Docket Content

The registration review docket contains information that the agency may consider in the course of the registration review. The agency may include information from its files including, but not limited to, the following information:

- An overview of the registration review case status.
- A list of current product registrations and registrants.
- **Federal Register** notices regarding any pending registration actions.
- **Federal Register** notices regarding current or pending tolerances.
- Risk assessments.
- Bibliographies concerning current registrations.
- Summaries of incident data.
- Any other pertinent data or information.

Each docket contains a document summarizing what the agency currently knows about the pesticide case and a preliminary work plan for anticipated data and assessment needs. Additional documents provide more detailed information. During this public comment period, the agency is asking that interested persons identify any additional information they believe the agency should consider during the registration reviews of these pesticides. The agency identifies in each docket the areas where public comment is specifically requested, though comment in any area is welcome.

The registration review final rule at 40 CFR 155.50(b) provides for a minimum 60-day public comment period on all preliminary registration review work plans. This comment period is intended to provide an opportunity for public

input and a mechanism for initiating any necessary changes to a pesticide's workplan. All comments should be submitted using the methods in **ADDRESSES**, and must be received by the EPA on or before the closing date. These comments will become part of the docket for the pesticides included in the Table in Unit IV. Comments received after the close of the comment period will be marked "late." The EPA is not required to consider these late comments.

The agency will carefully consider all comments received by the closing date and may provide a "Response to Comments Memorandum" in the docket. The final registration review work plan will explain the effect that any comments had on the final work plan and provide the agency's response to significant comments.

Background on the registration review program is provided at: <http://www.epa.gov/pesticide-reevaluation>.

Authority: 7 U.S.C. 136 *et seq.*

Dated: July 26, 2021.

Mary Reaves,

Acting Director, Pesticide Re-Evaluation Division, Office of Pesticide Programs.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2014-0350; FRL 8818-01-OW]

Proposed Information Collection Request; Comment Request; National Fish Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "National Fish Program" (EPA ICR No. 1959.07, OMB Control No. 2040-0226) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through April 30, 2022. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before October 4, 2021.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OW-2014-0350, online using www.regulations.gov (our preferred method), by email to OW-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: CDR Samantha Fontenelle, Office of Science and Technology, Standards and Health Protection Division, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 566-2083; fax number: (202) 566-0409; email address: fontenelle.samantha@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA would be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: This ICR is for voluntary information collections under the national fish advisory program. These information collections would help EPA

advance equitable and effective fish advisory programs that protect recreational and subsistence fishers and other underserved populations from consumption of contaminated fish. This information is collected under the authority of section 104 of the Clean Water Act, which provides for the collection of information to be used to protect human health and the environment. The information to be collected on a voluntary basis would include the following: Fish advisory information and fish tissue data collected to assist in making advisory decisions; state or tribal fish program information for the National Fish Advisory Program Evaluation; and, technical program information from time to time. EPA would analyze the information to determine what science, guidance, technical assistance, and nationwide information are needed to help state and tribes have equitable and effective fish advisory programs. In addition, EPA would also use the information provided to facilitate information sharing and to ensure guidance documents are useful and technically accurate.

This ICR renews the EPA ICR Number 1959.07, OMB Control No. 2040-0226, expiration April 30, 2022. This ICR renewal describes the estimated burden for states and authorized tribes associated with the information collections related to National Fish Program.

Form Numbers: None.

Respondents/affected entities: Potential respondents to this ICR include: The 50 states, the District of Columbia, the five territories, authorized tribes with EPA-approved WQS, and Great Lakes Fish and Wildlife Commission.

Respondent's obligation to respond: Voluntary (Clean Water Act, Section 104).

Estimated number of respondents: Up to 103 (total).

Frequency of response: Once in 3-year period for some collections; periodically for one collection.

Total estimated burden: 1,181 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$64,766.66 per year. There are no capital or operation & maintenance costs.

Changes in Estimates: There is increase of 603 hours in the total estimated annual respondent burden compared with the ICR currently approved by OMB. This increase is due to EPA's efforts to advance equity and environmental justice in fish advisory programs. EPA is adding information collections to help EPA determine what

science, guidance, technical assistance, and nationwide information are needed to help state and tribes have equitable and effective fish advisory programs that protect recreational and subsistence fishers and other underserved populations from consumption of contaminated fish. In addition, EPA would also use the information provided to facilitate information sharing and to ensure guidance documents are useful and technically accurate. The increase pertains to the addition of three voluntary information collections as part of implementing the EPA national advisory program: Information on state and tribal fish advisories; state and tribal program information for the National Fish Advisory Program Evaluation; and, technical program information from time to time.

Deborah Nagle,

Director, Office of Science and Technology, Office of Water.

Pesticide Registration Review; Proposed Interim Decisions for Several Pesticides; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's proposed interim registration review decisions and opens a 60-day public comment period on the proposed interim decisions for the following pesticides: Amitraz, cinnamaldehyde, difenoconazole, farnesol and nerolidol, fenbuconazole, isoxaflutole, mesotrione, metaldehyde, MGK-264, *Nosema locustae*, oxadiazon, oxyfluorfen, piperonyl butoxide (PBO), pyrethrins, tembotrione, topramezone, *Ulocladium oudemansii* (U3 Strain).

DATES: Comments must be received on or before October 4, 2021.

ADDRESSES: Submit your comments, identified by the docket identification (ID) number for the specific pesticide of interest provided in the Table in Unit IV., using the *Federal eRulemaking Portal* at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information
