Federal Register

Vol. 86, No. 147

Wednesday, August 4, 2021

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents.

DEPARTMENT OF HOMELAND SECURITY

6 CFR Part 27

[Docket No. CISA–2021–0007]

Chemical Facility Anti-Terrorism Standards: Technical Amendments

AGENCY: Cybersecurity and Infrastructure Security Agency, DHS.

ACTION: Final rule.

SUMMARY: This final rule makes non-substantive technical, organizational, and conforming amendments to the Chemical Facility Anti-Terrorism Standards.

DATES: This final rule is effective August 4, 2021.

FOR FURTHER INFORMATION CONTACT: Lona Saccomando, (202)–579–0590, CISAREgulations@cisa.dhs.gov.

SUPPLEMENTARY INFORMATION:

I. Regulatory History

We did not publish a notice of proposed rulemaking for this rule. Under Title 5 of the United States Code (U.S.C.), Section 553(b)(A), the Cybersecurity and Infrastructure Security Agency (CISA) finds that this final rule is exempt from notice and public comment rulemaking requirements because notice and comment procedures are unnecessary for this final rule under 5 U.S.C. 553(b)(B), as this rule consists of only technical and editorial corrections and these changes will have no substantive effect on the public. Under 5 U.S.C. 553(d)(3), CISA finds that, for the same reasons, good cause exists for making this final rule effective upon publication in the **Federal Register**.

II. Basis and Purpose

CISA is issuing technical, organizational, and conforming amendments to existing regulations in part 27 of title 6 of the Code of Federal Regulations (CFR), relating to the

Chemical Facility Anti-Terrorism Standards (CFATS). These technical amendments provide the public with more accurate and current regulatory information, but do not change the effect on the public of these regulations.

This final rule makes technical and editorial corrections to the CFATS regulations. These changes are necessary to correct errors, change addresses, update titles, and make other non-substantive amendments that improve the clarity of the CFR. This rule does not create or change any substantive requirements.

This final rule is issued under the authority of 5 U.S.C. 552(a), 5 U.S.C. 553, and 6 U.S.C. 627.

III. Discussion of the Rule

Until 2018, the CFATS program was administered by the Office of Infrastructure Protection of the National Protection and Programs Directorate (NPPD) of the Department of Homeland Security (DHS). In 2018, Congress passed the Cybersecurity and Infrastructure Security Agency Act of 2018, redesignating NPPD as CISA, and establishing CISA as a component of DHS. To account for the organizational changes, throughout the regulatory text of 6 CFR 27, in this rule CISA is replacing the titles for various organizations within the Department, previously responsible for operating the CFATS program, with the appropriate titles of CISA personnel and organizations. We have replaced references to “National Protection and Programs” and “Office of Infrastructure Protection” with “Cybersecurity and Infrastructure Security Agency.” We have replaced references to the “Chemical Security Division” with “Chemical Security.” We have also replaced references to the Under Secretary, Assistant Secretary, and Director of the Chemical Security Division with references to the Director, Executive Assistant Director, and Associate Director for Chemical Security, respectively. CISA has also replaced references to the Office of General Counsel of DHS with references to the Office of the Chief Counsel of CISA, where appropriate. These changes have been made throughout 6 CFR part 27. We have also removed the definition of “Deputy Secretary” because it is not referenced in the regulatory text.

We have replaced references to “section 550,” which refers to the

original numbering from the Homeland Security Appropriations Act 2007, with language referring to “this part” or references to the U.S. Code citation—6 U.S.C. 621 *et seq.*—to reflect changes in statutory numbering. We have removed gendered references to officials (*e.g.*, “his designee,” or “his staff”) and used gender-neutral terms where appropriate. In several sections, CISA has made grammatical or stylistic corrections to fix minor errors in the regulation such as consistent use of the Oxford comma and consistently hyphenating the term “high-risk” when it is used as an adjective. We discuss select additional specific changes below, and note that this is not an exhaustive list of changes. For an exhaustive list of changes, please see the amendatory instructions at the end of this document.

In section 27.105, CISA updates the definition of *A Placarded Amount* to spell out the acronym STQ. In the definition of Alternative Security Program we capitalize the word “State.” In the definition of *Chemical Security Assessment Tool or CSAT* we remove the list of examples from the definition. CISA is adding a new definition for the term *Office of the Chief Counsel* to clearly indicate the term refers to the Office of the Chief Counsel within CISA. In the definition of *CUM 100g*, CISA is clarifying that the term is used only in the context of chemical weapons themselves, which are a subset of the “Theft—CW/CWP” category. In the definition of *Secretary*, CISA is replacing the citation to section 550 with a citation to 6 U.S.C. 621 *et seq.*, to make the citation easier to find. Finally, we are correcting a citation in the definition of *Terrorist attack or terrorist incident* by replacing a citation to the definition of *terrorism or terrorist activity*, previously noted as 6 U.S.C. 101(15), with a citation to 6 U.S.C. 101(16).

In section 27.110(b), CISA is rewording the reference to excluded facilities by replacing the existing language with a clear reference to statutory exclusions in 6 U.S.C. 621(4) and breaking down the long paragraph on excluded facilities into four subsections to make clear that the regulatory language does not change the scope of the statutory exemption.

In section 27.210, CISA is adjusting the language in paragraph (b)(1) to make clear that the requirement to complete

and submit a new Top-Screen is calculated from the date of the approval of the facility's latest Security Plan. Additionally, CISA is splitting the paragraph into two sub-paragraphs to improve readability, and removing an extra space in paragraph (b)(3).

In section 27.400, CISA is correcting a citation to the Federal Records Act in paragraph (k), replacing an inaccurate U.S. Code reference to the proper citation to that Act.

Numerous other changes to style, language, and punctuation are being made in this technical amendment. In the text above, we discussed the particulars of some of the more significant changes. Examination of the amendments to the regulatory text below will detail numerous additional edits to grammar, punctuation, abbreviation, and numbering that have been made in this document.

[Docket No. FAA-2021-0417; Airspace
Docket No. 21-AGL-23]

RIN 2120-AA66

Amendment of Class E Airspace; Eveleth, MN

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Class E airspace extending upward from 700 feet above the surface at Eveleth-Virginia Municipal Airport, Eveleth, MN. This action is the result of an airspace review caused by the decommissioning of the Eveleth non-directional beacon (NDB). The geographic coordinates of the airport are also being updated to coincide with the FAA’s aeronautical database.

DATES: Effective 0901 UTC, October 7, 2021. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11E, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends the Class E airspace extending upward from 700 feet above the surface at Eveleth-Virginia Municipal Airport, Eveleth, MN, to support instrument flight rule operations at this airport.

History

The FAA published a notice of proposed rulemaking (NPRM) in the **Federal Register** (86 FR 28728; May 28, 2021) for Docket No. FAA-2021-0417 to amend the Class E airspace extending upward from 700 feet above the surface at Eveleth-Virginia Municipal Airport, Eveleth, MN. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11E lists

Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to 14 CFR part 71 amends the Class E airspace extending upward from 700 feet above the surface to within an 8.7-mile (increased from a 7-mile) radius of Eveleth-Virginia Municipal Airport, Eveleth, MN; and updates the geographic coordinates of the airport to coincide with the FAA’s aeronautical database.

This action is necessary due to an airspace review caused by the decommissioning of the Eveleth NDB which provided navigation information for the instrument procedures at this airport.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5-6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
