SUPPLEMENTARY INFORMATION:
I. Background on the Wyoming Program
II. Description of the Proposed Amendment
III. Public Comment Procedures
IV. Statutory and Executive Order Reviews

I. Background on the Wyoming Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its approved, State program includes, among other things, State laws and regulations that govern surface coal mining and reclamation operations in accordance with the Act and consistent with the Federal regulations. See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior approved the Wyoming program on November 26, 1980. You can find background information on the Wyoming program, including the Secretary’s findings, the disposition of comments, and conditions of approval in the November 26, 1980, Federal Register (45 FR 78637). You can also find later actions concerning Wyoming’s program and program amendments at 30 CFR 950.11, 950.12, 950.15, 950.16, and 950.20.

II. Description of the Proposed Amendment

By letter dated June 4, 2021 (Administrative Record No. WY–054–01), Wyoming sent us an amendment to its program under SMCRA (30 U.S.C. 1201 et seq.). Wyoming submitted the amendment in response to legislative changes made, through Wyoming House Bill HB0129 during the 2020 legislative session, to Wyoming Statute (W.S.) § 35–11–402(a)(xiii), which outlined rules regarding how decommissioned wind turbine blades and towers could be used as backfill in open surface coal mine pits in order to facilitate disposal. Due to the large volume of decommissioned wind turbine blades and towers, a lack of scalable recycling methods to facilitate their disposal, and the absence of guidance in SMCRA regarding the disposal of non-mining-generated, solid wastes at a coal mine, the Wyoming Legislature provided the Land Quality Division with the authority to develop rules and regulations regarding such disposal. The revised rules address local, state, and national issues associated with the resulting stockpile of decommissioned wind turbine blades and towers, as a result of wind energy generation, upgrades, and routine maintenance.

In addition, revisions were made to Chapter 2: Permit Application Requirements for Surface Coal Mining Operations, to provide consistency with the Wyoming Secretary of State’s Rules on Rules, as well as correct grammatical errors. The full text of the program amendment is available for you to read at the locations listed above under ADDRESSES or at http://www.regulations.gov.

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the State program.

Electronic or Written Comments

If you submit written or electronic comments on the proposed rule during the 30-day comment period, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended
change(s). We appreciate any and all comments, but those most useful and likely to influence decisions on the final regulations will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (see DATES) or sent to an address other than those listed (see ADDRESSES) will be included in the docket for this rulemaking and considered.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Public Hearing

If you wish to speak at the public hearing, contact the person listed under FOR FURTHER INFORMATION CONTACT by 4:00 p.m., m.d.t. on August 19, 2021. If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under FOR FURTHER INFORMATION CONTACT. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold a hearing.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at the public hearing provide us with a written copy of his or her comments. The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others present in the audience who wish to speak, have been heard.

Public Meeting

If only one person requests an opportunity to speak, we may hold a public meeting rather than a public hearing. If you wish to meet with us to discuss the amendment, please request a meeting by contacting the person listed under FOR FURTHER INFORMATION CONTACT. All such meetings are open to the public and, if possible, we will post notices of meetings at the locations listed under ADDRESSES. We will make a written summary of each meeting a part of the administrative record.

IV. Statutory and Executive Order Reviews

Executive Order 12866—Regulatory Planning and Review and Executive Order 13563—Improving Regulation and Regulatory Review

Executive Order 12866 provides that the Office of Information and Regulatory Affairs in the Office of Management and Budget (OMB) will review all significant rules. Pursuant to OMB guidance, dated October 12, 1993, the approval of State program amendments is exempted from OMB review under Executive Order 12866. Executive Order 13563, which reaffirms and supplements Executive Order 12866, retains this exemption.

Other Laws and Executive Orders Affecting Rulemaking

When a State submits a program amendment to OSMRE for review, our regulations at 30 CFR 732.17(h) require us to publish a notice in the Federal Register indicating receipt of the proposed amendment, its text or a summary of its terms, and an opportunity for public comment.

We conclude our review of the proposed amendment after the close of the public comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the determinations and certifications required by the various laws and executive orders governing the rulemaking process and include them in the final rule.
