POLICY JUSTIFICATION

The Netherlands—CH–47 Pilot Training and Logistics Support

The Government of the Netherlands has requested support for the Royal Netherlands Air Force CH–47 training program, to include fuel; base operating support; facilities; publications and technical documentation; pilot training; personnel training and training equipment; weapon system and software support; U.S. Government and contractor technical, engineering, and logistics personnel services; and other related elements of logistical and program support. The total overall estimated value is \$125 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a NATO ally which is an important force for the political stability and economic progress in Europe.

The proposed sale will improve the Netherlands' capability to maintain a set of highly trained and deployment-ready Royal Netherlands Air Force Chinook units via continued training activities at Fort Hood, Texas. This training includes the AMERICAN FALCON exercise, which serves as a certifying event for Dutch military units and personnel to deploy abroad, often supporting U.S.-led coalition operations. The Netherlands will have no difficulty absorbing this training and support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

This proposed sale does not contain any principal contractor. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Workplace and Gender Relations Survey–Civilian; OMB Control Number 0704–WGRC.

Type of Request: Regular.
Number of Respondents: 79,289.
Responses per Respondent: 1.
Annual Responses: 79,289.
Average Burden per Response: 30 minutes.

Annual Burden Hours: 39,645 hours.
Needs and Uses: The WGRC fulfills the Congressional mandate outlined in Title 10 U.S.C. 481a for a biennial survey assessment of gender relations in the DoD civilian workplace. The mandate requires that the survey (1) provides indicators of positive and negative trends for professional and personal relationships between male and female employees; (2) estimates the prevalence of unwanted gender-related behaviors for DoD civilian employees within the preceding fiscal year; (3)

examines the effectiveness of policies designed to improve professional relationships between male and female employees; and (4) examines the effectiveness of current processes for complaints and investigations concerning unwanted gender-related behaviors, including sexual assault, sexual harassment, and gender discrimination. The legal requirements for the WGRC can be found in the following:

- FY15 NDAA, Section 1073
- 10 U.S.C., Section 481a
- 10 U.S.C., Section 136
- 10 U.S.C., Section 2358
- Public Law (PL) 111–383, Sections 1602 and 1631; 113–291, Section 1073

These legal requirements mandate that the WGRC solicit information on gender issues, including issues relating to sexual assault, sexual harassment, and gender discrimination, as well as the climate in the Department for forming professional relationships between male and female employees. They also give the Department authority to conduct such surveys under the guidance of the USD(P&R).

Overall, the results of the survey will assess progress, identify shortfalls, and revise policies and programs as needed related to issues directly affecting DoD civilian employees. Data from this survey will be presented to the Office of the Under Secretary of Defense for Personnel and Readiness (OUSDP&R), Congress, and DoD policy and program offices to assess and improve policies, programs, practices, and training related to gender relations in the DoD informed by current and statistically reliable information. Analysis will include OPA's standard products: A results and trends report (a set of relative frequency distributions of each question, and cross-tabulations of survey questions by key stratifying variables), briefing slides, reports highlighting key findings, and a statistical methodology report. Ad hoc analyses requested by the policy office sponsors and other approved organizations may be conducted as needed and based on available staff.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.
