

DEPARTMENT OF STATE**22 CFR Part 51****[Public Notice: 11457]****RIN 1400–AE68****Passports: Proposed Rule Allowing Passport Applicants Eligible To Apply By Mail for Renewal of Passports the Additional Option To Apply On-Line****AGENCY:** Department of State.**ACTION:** Proposed rule.

SUMMARY: Pursuant to Department regulations, the renewal of a U.S. passport must meet certain requirements to qualify for submission of an application by mail. The Department proposes to amend this rule by allowing qualified applicants the option of submitting renewal applications by mail or online via the Department's official website. This amendment will provide more flexibility for the renewal applicant, improve the customer experience, and eliminate the added burden, time, and cost to the customer by providing the on-line option as an alternative to the mail in process.

DATES: The Department of State will accept comments until October 8, 2021.

SUPPLEMENTARY INFORMATION: Currently when applying for a renewal of a U.S. passport, applicants must meet certain criteria to use the mail-in application form. These mail-in applications are processed through the Lockbox where fees, applicant data, and photo images are captured. The Lockbox transmits this data and the physical applications to a passport agency or center for further processing.

The Department proposes to amend 22 CFR 51.21(b), (b)(2), (b)(3); and 51.8(a), (b), (c), (d) to allow eligible applicants the option to apply on-line via MyTravelGov, which can be found on the Department's official website. Online Passport Renewal (OPR) refers to the electronic capability for processing renewal applications in a paperless environment. Applicants must meet all eligibility requirements for using OPR or will be referred to the paper application process. Applicants using OPR will enter their application information and upload their photos directly into the OPR system, and submit their payment through *pay.gov*. This process will improve efficiency and accessibility by offering online verification of renewal eligibility, electronic photo upload, and electronic payment. Applications received through OPR will automatically enter review queues at a passport agency or center, thus eliminating the physical application and processing at the Lockbox. The new OPR system will improve the customer experience, reduce operational and maintenance costs, and focus on data quality, protection, and traceability. The first release of the OPR system will apply to persons in the United States, with the intent for future releases applying to persons abroad.
