**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing approval of a State Implementation Plan (SIP) revision submitted by Missouri on January 19, 2021. Missouri requests that the EPA approve into Missouri’s SIP revisions to its rule related to control of emissions from Batch-Type Charcoal Kilns. These revisions correct an erroneous reference, update, correct and clarify references to test methods, remove unnecessary words, and make other grammatical and typographical corrections. These revisions are administrative in nature and do not impact the stringency of the SIP or have an adverse impact to air quality. The EPA’s proposed approval of this rule revision is being done in accordance with the requirements of the Clean Air Act (CAA).

**II. What is being addressed in this document?**

The EPA is proposing to approve revisions to the Missouri SIP received on January 19, 2021. The revisions are to Title 10, Division 10 of the Code of State Regulations (CSR), 10 CSR 10–6.330 “Restriction of Emissions From Batch-Type Charcoal Kilns” which establishes emission limits for batch-type charcoal kilns based on operational parameters that reflect the Best Available Control Technology (BACT) for this industry as of August 20, 1997.

These revisions correct an erroneous reference to 10 CSR 10–6.030(21), update, correct and clarify references to test methods, remove unnecessary words, and make other grammatical and typographical corrections. These revisions are described in detail in the technical support document (TSD) included in the docket for this action.

Missouri received no comments during the state public comment period. The EPA is proposing to approve the revisions to this rule because it will not have a negative impact on air quality.

**III. Have the requirements for approval of a SIP revision been met?**

The State submission has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The State provided public notice on this SIP revision from September 16, 2019 to December 10, 2019 and received no comments on this rulemaking. As explained above, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

**IV. What action is the EPA proposing to take?**

The EPA is proposing to approve Missouri’s request to revise 10 CSR 10–6.330. The EPA is soliciting comment on the substantive and administrative revisions detailed in this proposal and the TSD. The EPA is not soliciting comment on existing rule text that has been previously approved by the EPA into the SIP. Final rulemaking will occur after consideration of any comments.

**V. Incorporation by Reference**

In this document, the EPA is proposing to include regulatory text in an EPA final rule that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the Missouri Regulation described in the proposed amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through [www.regulations.gov](https://www.regulations.gov) and at the EPA Region 7 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

**VI. Statutory and Executive Order Reviews**

Under the CAA, the Administrator is required to approve a SIP submission

that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of the National Technology Transfer and Advancement Act (NTTA) because this rulemaking does not involve technical standards; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as

specified by Executive Order 13175 (65 FR 67249, November 9, 2000).
