Brookfield White Pine Hydro LLC; Notice of Intent To Prepare an Environmental Assessment

On November 20, 2020, Brookfield White Pine Hydro LLC (White Pine Hydro) filed an application for a new license for the 10.9-megawatt Hiram Hydroelectric Project (Hiram Project) (FERC No. 2530). The Hiram Project is located on the Saco River near the towns of Hiram, Baldwin, Denmark, and Brownfield in Oxford and Cumberland Counties, Maine. The project does not occupy federal land.

In accordance with the Commission's regulations, on January 11, 2021, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to license the Hiram Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

| Milestone | Target date |
|--|----------------------------|
| Commission issues draft EA | October 2021. ¹ |
| Comments on EA | November 2021. |
| Modified 4(e) and Fishway Prescriptions. | January 2022. |
| Issue final EA | April 2022. |

Any questions regarding this notice may be directed to David Turner at (202) 502-6091 or David.Turner@ferc.gov.

If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the

¹ The Council on Environmental Quality's (CEQ) regulations under 40 CFR 1501.10(b)(1) require that EAs be completed within 1 year of the federal action agency's decision to prepare an EA. This notice establishes the Commission's intent to prepare an EA for the Normanskill Project. Therefore, in accordance with CEQ's regulations, the EA must be issued within 1 year of the issuance date of this notice.

project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 3063 is issued to Blackstone Hydro Associates for a period effective August 1, 2021 through July 31, 2022 or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before July 31, 2022, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that Blackstone Hydro Associates is authorized to continue operation of the Central Falls Hydroelectric Project, until such time as the Commission acts on its application for a subsequent license.
