**SUPPLEMENTARY INFORMATION:****I. Background**

DoD, GSA, and NASA are amending the Federal Acquisition Regulation (FAR) to implement section 1811 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2017 (Pub. L. 114–328, 15 U.S.C. 644(l)(9)(A)). Section 1811 allows procurement center representatives to review any solicitation for a contract or task order without regard as to whether the contract or order is set aside for small business concerns, or reserved in the case of a multiple-award contract, or whether or not the solicitation would result in a bundled or consolidated contract or order. The Small Business Administration (SBA) issued a final rule at 84 FR 65647, dated November 29, 2019, to implement section 1811 of the NDAA for FY 2017. In their final rule, SBA amended 13 CFR 125.2(b)(1)(i)(A) to allow procurement center

representatives to review any acquisition, regardless of whether it is set aside, partially set aside, or reserved for small business or other socioeconomic categories.

**II. Discussion and Analysis**

The changes to the FAR and the rationale for the changes are summarized in the following paragraphs.

**A. Contracting Officer Requirements for Review of Acquisitions**

Section 19.202–1, Encouraging small business participation in acquisitions, is amended to require that contracting officers provide the procurement center representative a copy of any proposed acquisition package and other reasonably obtainable information related to the acquisition, if the procurement center representative exercises their discretion to review any proposed acquisition. The specific procedures are typically articulated in agreements between procuring activities and procurement center representatives. Section 19.202–1 is also amended to clarify the acquisitions for which the contracting officer must provide the statement described in paragraph (e)(2). In addition, changes are made to paragraph (d) of section 19.501, General, to provide that SBA procurement center representatives may review any proposed acquisition in excess of the micro-purchase threshold.

**B. Duties of Procurement Center Representatives**

Section 19.402, Small Business Administration procurement center representatives, is amended to update the description of a procurement center representative's duties to better reflect SBA's regulation at 13 CFR 125.2(b). Specifically, changes to FAR 19.402(c) are made to provide that procurement center representatives may recommend the set-aside or sole-source award to a small business; the breakout of discrete components, items, and requirements for competition; and ways to improve competition. Paragraph (c)(7) in section 19.402 is relocated from section 19.403, Small Business Administration breakout procurement center representatives. This paragraph describes the appeal a procurement center representative may file if a contracting activity does not adopt the procurement center representative's recommendation.

**C. Duties of Breakout Procurement Center Representative**

The text of section 19.403, Small Business Administration breakout procurement center representatives, is

removed and marked “Reserved.” Paragraph (c)(8) in this section is relocated to section 19.402 (see section II.B. of this preamble). Breakout procurement center representatives were removed from the Small Business Act (15 U.S.C. 644) by section 1621 of the NDAA for FY 2013 (Pub. L. 112–239). Therefore, section 19.403 is no longer needed.

**D. Technical Amendments**

Section 19.502–8, Rejecting Small Business Administration recommendations, has a two working-day appeals period. There is a different appeals period for the HUBZone, Service-Disabled Veteran-Owned Small Business, and Women-Owned Small Business Programs, of five working days; therefore, a reference is added to FAR 19.502–8(b) for those sections.

**III. Publication of This Final Rule for Public Comment Is Not Required by Statute**

The statute that applies to the publication of the FAR is 41 U.S.C. 1707 entitled “Publication of Proposed Regulations.” Paragraph (a)(1) of the statute requires that a procurement policy, regulation, procedure or form (including an amendment or modification thereof) must be published for public comment if it relates to the expenditure of appropriated funds, and has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure or form, or has a significant cost or administrative impact on contractors or offerors. This final rule is not required to be published for public comment, because it amends requirements related to the review of proposed acquisitions by SBA's procurement center representatives. These requirements affect only the internal operating procedures of the Government.

**IV. Applicability to Contracts at or Below the Simplified Acquisition Threshold (SAT) and for Commercial Items, Including Commercially Available Off-the-Shelf (COTS) Items**

This rule amends FAR part 19, Small Business Programs. The objective of this rule is to update requirements for contracting officers with regard to reviews of proposed acquisitions by SBA's procurement center representatives, to align with section 1811 of the NDAA for FY 2017 (Pub. L. 114–328, 15 U.S.C. 644(l)(9)(A)). This rule does not change the applicability or text of any FAR solicitation provisions or contract clauses.

V. Expected Impact of the Rule

The changes in this rule will affect Government operations, but not contractor operations.

As a result of this rule, contracting officers may have to provide additional acquisition packages to procurement center representatives for review prior to issuance of the solicitation. The number of additional acquisitions to be reviewed by PCRs is unknown, as the reviews will be conducted at the discretion of the procurement center representatives.

The cost impact for the Government will depend on how many additional acquisition packages contracting officers provide to procurement center representatives for review. This rule will have no cost impact for contractors.

VI. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993.

VII. Congressional Review Act

As required by the Congressional Review Act (5 U.S.C. 801–808) before an interim or final rule takes effect, DoD, GSA, and NASA will send the rule and the “Submission of Federal Rules Under the Congressional Review Act” form to each House of the Congress and to the Comptroller General of the United States. A major rule cannot take effect until 60 days after it is published in the Federal Register. The Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget has determined that this is not a major rule under 5 U.S.C. 804.

VIII. Regulatory Flexibility Act

Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under 41 U.S.C. 1707(a)(1) (see section III of this preamble), the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601–612) are not applicable. Accordingly, no regulatory flexibility

analysis is required, and none has been prepared.

IX. Paperwork Reduction Act

This rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. 3501–3521).
