

the Office of Management and Budget (“OMB”) for extension and approval.

Rule 17a– permits national securities exchanges, national securities associations, registered clearing agencies, and the Municipal Securities Rulemaking Board (“MSRB”) (collectively, “SROs”) to destroy or convert to microfilm or other recording media records maintained under Rule 17a–1, if they have filed a record destruction plan with the Commission and the Commission has declared the plan effective.

There are currently 35 SROs: 24 national securities exchanges, 1 national securities association, the MSRB, and 9 registered clearing agencies. Of the 35 SROs, only 2 SRO respondents have filed a record destruction plan with the Commission. The staff calculates that the preparation and filing of a new record destruction plan should take 160 hours. Further, any existing SRO record destruction plans may require revision, over time, in response to, for example, changes in document retention technology, which the Commission estimates will take much less than the 160 hours estimated for a new plan. The Commission estimates that each SRO that has filed a destruction plan will spend approximately 30 hours per year making required revisions. Thus, the total annual time burden is estimated to be approximately 60 hours per year based on two respondents (30 × 2). The approximate internal compliance cost per hour is \$428, resulting in a total internal cost of compliance for these respondents of approximately \$25,680 per year (60 hours at \$428 per hour).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

Section 19(b)(2) of the Exchange Act⁸ provides that, after initiating disapproval proceedings, the Commission shall issue an order approving or disapproving the proposed rule change not later than 180 days after the date of publication of notice of filing of the proposed rule change. The Commission may extend the period for issuing an order approving or disapproving the proposed rule change by not more than 60 days if the Commission determines that a longer period is appropriate and publishes reasons for such determination. Form 1-K

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Form 1-K (17 CFR 239.91) is used to file annual reports by Tier 2 issuers under Regulation A, an exemption from registration under the Securities Act of 1933 (15 U.S.C. 77a *et seq.*). Tier 2 issuers under Regulation A conducting offerings of up to \$50 million within a 12-month period are required to file Form 1-K. Form 1-K provides audited year-end financial statements and information about the issuer's business operation, ownership, management, liquidity, capital resources and operations on an annual basis. In addition, Part I of the Form 1-K collects information on any offerings under Regulation A that have been terminated or completed unless it has been previously reported on Form 1-Z. The purpose of the Form 1-K is to better inform the public about companies that have conducted Tier 2 offerings under Regulation A. We estimate that approximately 36 issuers file Form 1-K annually. We estimate that Form 1-K takes approximately 600 hours to prepare. We estimate that 75% of the 600 hours per response (450 hours) is prepared by the company for a total annual burden of 16,200 hours (450.0 hours per response × 36 responses).

Written comments are invited on: (a) Whether this proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden imposed by the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to

minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.
