SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-92593; File No. SR-CboeEDGX-2021-036]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

August 6, 2021.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that, on August 2, 2021, Cboe EDGX Exchange, Inc. (the "Exchange" or "EDGX") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. (the "Exchange" or "EDGX" or "EDGX Equities") proposes to amend its Fee

Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (http://markets.cboe.com/us/options/regulation/rule_filings/edgx/) [sic], at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform ("EDGX Equities") to modify the fee associated with Remove Volume Tier 2.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Exchange Act, to which market participants may direct their order flow. Based on publicly available information,³ no single registered equities exchange has more than 17% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses significant pricing power in the execution of order flow. The Exchange in particular operates a "Maker-Taker" model whereby it pays rebates to members that add liquidity and assesses fees to those that remove liquidity. The Exchange's Fee Schedule

sets forth the standard rebates and rates applied per share for orders that provide and remove liquidity, respectively. Currently, for orders in securities priced at or above \$1.00, the Exchange provides a standard rebate of \$0.00160 per share for orders that add liquidity and assesses a fee of \$0.00285 per share for orders that remove liquidity. For orders in securities priced below \$1.00, the Exchange provides a standard rebate of \$0.00009 per share for orders that add liquidity and assesses a fee of 0.30% of total dollar value for orders that remove liquidity. Additionally, in response to the competitive environment, the Exchange also offers tiered pricing which provides Members opportunities to qualify for higher rebates or reduced fees where certain volume criteria and thresholds are met. Tiered pricing provides an incremental incentive for Members to strive for higher tier levels, which provides increasingly higher benefits or discounts for satisfying increasingly more stringent criteria.

Pursuant to footnote 1 of the Fee Schedule, the Exchange currently offers Remove Volume Tiers that provide Members an opportunity to receive a reduced fee from the standard fee assessed for liquidity removing orders that yield fee codes BB,⁴ N,⁵ and W.⁶ The Remove Volume Tiers offer two different tiers that vary in criteria difficulty and incentive opportunities which Members may qualify for reduced fees for such orders. For example, the Remove Volume Tier 2 currently provides a reduced fee of \$.00270 for Members who have either (1) an ADAV⁷ greater than or equal to 0.25% of the TCV⁸ with displayed orders that yield fee codes B,⁹ V¹⁰ or Y;¹¹ or (2) Retail

⁴ Fee code 'BB' is appended to orders that remove liquidity from EDGX (Tape B) and is assessed a fee of \$0.00285 per share.

⁵ Fee code 'N' is appended to orders that remove liquidity from EDGX (Tape C) and is assessed a fee of \$0.00285 per share.

⁶ Fee code 'W' is appended to orders that remove liquidity from EDGX (Tape A) and is assessed a fee of \$0.00285 per share.

⁷ ADAV means average daily added volume calculated as the number of shares added per day. ADAV is calculated on a monthly basis.

⁸ TCV means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply.

⁹ Fee code 'B' is appended to orders that add liquidity to EDGX (Tape B) and is provided a rebate of \$0.0016 per share.

¹⁰ Fee code 'V' is appended to orders that add liquidity to EDGX (Tape A) and is provided a rebate of \$0.0016 per share.

¹¹ Fee code 'Y' is appended to orders that add liquidity to EDGX (Tape C) and is provided a rebate of \$0.0016 per share.

Order ADV¹² (*i.e.*, yielding fee code ZA¹³) greater than or equal to 0.45% of the TCV. The Exchange now proposes to increase the reduced fee to \$0.00275 provided under the Remove Volume Tier 2. The Exchange notes that the Remove Volume Tier 2, as modified, continues to be available to all Members and provides Members an opportunity to receive a reduced fee, albeit less of a reduced fee than currently offered. Further, the Remove Volume Tier 2 continues to be designed to encourage Members to increase their order flow on the Exchange which further contributes to a deeper, more liquid market and provides even more execution opportunities for active market participants at improved prices.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,¹⁴ in general, and furthers the objectives of Section 6(b)(4),¹⁵ in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and issuers and other persons using its facilities. The Exchange also believes that the proposed rule change is consistent with the objectives of Section 6(b)(5)¹⁶ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest, and, particularly, is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

As described above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. The proposed rule change to the Remove

Volume Tier 2 reflects a competitive pricing structure designed to incentivize market participants to direct their order flow to the Exchange, which the Exchange believes would enhance market quality to the benefit of all Members. In particular, the Exchange believes the proposed fee change for Remove Volume Tier 2 is reasonable because the tier will continue to be available to all Members and provide all Members with an additional opportunity to receive a reduced fee.

The Exchange further believes Remove Volume Tier 2 is a reasonable means to encourage growth in Members' overall order flow to the Exchange and to incentivize Members to continue to provide liquidity adding and liquidity removing on the Exchange by offering them an opportunity to receive a reduced fee on qualifying orders. The Exchange believes that the proposed tier will generally benefit all market participants by incentivizing continuous liquidity and thus, deeper more liquid markets as well as increased execution opportunities. This overall increase in activity deepens the Exchange's liquidity pool, offers additional cost savings, supports the quality of price discovery, promotes market transparency and improves market quality, for all investors.

Further, the Exchange believes that the amended Remove Volume Tier 2 is reasonable as it does not represent a significant departure from the criteria or corresponding rates currently offered in the Fee Schedule, and that the proposed reduced fee is commensurate with the criteria. The Exchange also believes that the proposal represents an equitable allocation of fees and rebates and is not unfairly discriminatory because all Members are and will continue to be eligible for Remove Volume Tiers and have the opportunity to meet the tiers' criteria and receive the applicable reduced fee if such criteria is met. The Exchange also notes that amended tier will not adversely impact any Member's ability to qualify for reduced fees or enhanced rebate offered under other tiers. Should a Member not meet the proposed new criteria, the Member will merely not receive that corresponding reduced fee.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule changes will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Rather, as discussed above, the Exchange believes that the proposed amendment to the Remove Volume Tier 2 would

encourage the submission of additional order flow to a public exchange, thereby promoting market depth, execution incentives and enhanced execution opportunities, as well as price discovery and transparency for all Members. As a result, the Exchange believes that the proposed change furthers the Commission's goal in adopting Regulation NMS of fostering competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."

The Exchange believes the proposed rule change does not impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. Particularly, the Remove Volume Tiers will continue to apply to all Members equally in that all Members are eligible for these tiers, have a reasonable opportunity to meet the tiers' criteria and will receive the reduced fee on their qualifying orders if such criteria is met. Additionally, the Remove Volume Tiers are designed to attract additional order flow to the Exchange. Greater overall order flow, trading opportunities, and pricing transparency benefits all market participants on the Exchange by enhancing market quality and continuing to encourage Members to send orders, thereby contributing towards a robust and well-balanced market ecosystem.

Next, the Exchange believes the proposed rule change does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market. Members have numerous alternative venues that they may participate on and direct their order flow, including other equities exchanges, off-exchange venues, and alternative trading systems. Additionally, the Exchange represents a small percentage of the overall market. Based on publicly available information, no single equities exchange has more than 17% of the market share.¹⁷ Therefore, no exchange possesses significant pricing power in the execution of order flow. Indeed, participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation

¹⁷ *Supra* note 4.

NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”¹⁸ The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’”¹⁹ Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act²⁰ and paragraph (f) of Rule 19b-4²¹ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule

change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission’s internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-CboeEDGX-2021-036 on the subject line.

Proposed Collection; Comment Request

Upon Written Request Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Extension:
Form 1-Z

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (“Commission”) is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Form 1-Z (17 CFR 239.94) is used to report terminated or completed offerings or to suspend the duty to file ongoing reports under Regulation A, an exemption from registration under the Securities Act of 1933 (15 U.S.C 77a *et seq.*). The purpose of the Form 1-Z is to collect empirical data for the Commission on offerings conducted under Regulation A that have terminated or completed, to indicate to the Commission that issuers that have conducted Tier 2 offering are suspending their duty to file reports under Regulation A and to provide such information to the investing public. We estimate that approximately 17 issuers file Form 1-Z annually. We estimate that Form 1-Z takes approximately 1.5 hours to prepare. We estimate that 100% of the 1.5 hours per response is prepared by the company for a total annual burden of 26 hours (1.5 hours per response × 17 responses).

Written comments are invited on: (a) Whether this proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate
