Total estimated annual burden: 1,168 hours.

General description of collection:
Section 19 of the Federal Deposit Insurance Act (FDI), 12 U.S.C. Section 1829, requires the FDIC’s consent prior to any participation in the affairs of an insured depository institution by an individual who has been convicted of crimes involving dishonesty or breach of trust, and included drug-related convictions. To obtain that consent, certain individuals and insured depository institutions must submit an application to the FDIC for approval on Form FDIC 6710/07.

Total estimated annual burden: 420 hours.

General description of collection:
There has been no change in the method or substance of this information collection. The number of institutions subject to the record keeping requirements has decreased from eight (8) to two (2). In 2008 the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System and the FDIC issued a supervisory guidance document related to the supervisory review process of capital adequacy (Pillar 2) in connection with the implementation of the Basel II Advanced Capital Framework. Section 37, 41, 43 and 46 of the guidance include possible information collections. Section 37 provides that banks should state clearly the definition of capital used in any aspect of its internal capital adequacy assessment process (ICAAP), and document any changes in the internal definition of capital. Section 41 provides that banks should maintain thorough documentation of its ICAAP. Section 43 specifies that the board of directors should approve the bank’s ICAAP, review it on a regular basis and approve any changes. Section 46 recommends that boards of directors periodically review the assessment of overall capital adequacy and analyze how measures of internal capital adequacy compare with other capital measures such as regulatory or accounting.

Request for comment:
Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
