other means, such as email, fax, or telephone. AMOC proposals received by telephone must be documented.

An AMOC Response Letter is written by an internal FAA user and sent to the AMOC Requester. The template may be generated from the ADD Dashboard and follows the latest Order. There is not an FAA or OMB number on this template.

A member of the public may submit an AMOC request to the FAA by using the AMOC external website. Registration is not needed to use this website. External users must consent to the “Terms of Use” statement before proceeding to the AMOC proposal web page. An AMOC is required if an owner/operator of aircraft cannot comply with an AD or finds a different method to comply with the actions specified in an AD, as mandated by FAA Order 8110.103B.

Respondents: The respondents are a member of the public who may submit an AMOC request to FAA by using the AMOC external website. We estimate that 25 ADs yearly will require reports of information and findings. The average AD affects about 1,120 owners/operators. Therefore, 25 ADs times 1,120 owners/operators per year equal 28,000 reports.

Frequency: As needed.

Estimated Average Burden per Response: These reports, requiring an average of 1 hour each to prepare, consume 28,000 reporting hours.

Estimated Total Annual Burden: The total annualized cost to respondents is $2,380,000. We base this on the 28,000 reporting hours times an estimated hourly rate of $85/hour per respondent. The average cost to the respondents per AD per year is $85.00 ($2,380,000 divided by 28,000).

Issued in Washington, DC, on July 9, 2021.

Patrick Idlett, 
ASKME Program Manager, Office of Enterprise Program Management (AEM), Project Portfolio Performance Division.

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its regulatory process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.transportation.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the 5-year period. FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver's medical certification.

The physical qualification standard for drivers regarding epilepsy found in 49 CFR 391.41(b)(8) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any loss of ability to control a CMV.

In addition to the regulations, FMCSA has published advisory criteria to assist Medical Examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce.

The two individuals listed in this notice have requested renewal of their exemptions from the epilepsy and seizure disorders prohibition in § 391.41(b)(8). In accordance with 49 U.S.C. 31136(e), the following two individuals have satisfied the renewal conditions for obtaining an exemption from the epilepsy and seizure disorders prohibition.

III. Request for Comments

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b), FMCSA will take immediate steps to revoke the exemption of a driver.

IV. Basis for Renewing Exemptions

In accordance with 49 U.S.C. 31136(e) and 31315(b), each of the two applicants has satisfied the renewal conditions for obtaining an exemption from the epilepsy and seizure disorders prohibition. The two drivers in this notice remain in good standing with the Agency, have maintained their medical monitoring and have not exhibited any medical issues that would compromise their ability to safely operate a CMV during the previous 2-year exemption period. In addition, for Commercial Driver's License (CDL) holders, the Commercial Driver's License Information System and the Motor Carrier Management Information System are searched for crash and violation data. For non-CDL holders, the Agency reviews the driving records from the State Driver's Licensing Agency. These factors provide an adequate basis for predicting each driver's ability to continue to safely operate a CMV in interstate commerce.

As of August 13, 2021, and in accordance with 49 U.S.C. 31136(e) and 31315(b), the following two individuals have satisfied the renewal conditions for obtaining an exemption from the epilepsy and seizure disorders prohibition in the FMCSRs for interstate CMV drivers:

- Dennis Klamm (MN) and Stephen Root (NY)

The drivers were included in docket number FMCSA–2015–0116 or FMCSA–2019–0027. Their exemptions are applicable as of August 13, 2021 and will expire on August 13, 2023.

V. Conditions and Requirements

The exemptions are extended subject to the following conditions: (1) Each driver must remain seizure-free and maintain a stable treatment during the 2-year exemption period; (2) each driver must submit annual reports from their treating physicians attesting to the stability of treatment and that the driver has remained seizure-free; (3) each driver must undergo an annual medical examination by a certified ME, as defined by § 390.5; and (4) each driver must provide a copy of the annual medical certification to the employer for retention in the driver's qualification file, or keep a copy of his/her driver's qualification file if he/she is self-employed. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b).

VI. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

VII. Conclusion

Based on its evaluation of the two exemption applications, FMCSA renews the exemptions of the aforementioned drivers from the epilepsy and seizure disorders prohibition in § 391.41(b)(8). In accordance with 49 U.S.C. 31136(e) and 31315(b), each exemption will be valid for 2 years unless revoked earlier by FMCSA.
