of the revised Fishery Ecosystem Plan (FEP) for review by the Council at its September 2021 meeting. The EWG will submit the final draft in the advance briefing book for the September meeting. As part of this online meeting the EWG Chair will provide a briefing for other advisory body members and members of the public to learn about updated sections in the final draft document. This should help to focus recommendations and comments on the revised FEP for Council consideration in providing further guidance to the EWG.

The EWG will then discuss potential recommendations for the FEP Climate and Communities Initiative, which the Council is scheduled to discuss at its September meeting.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
