

notification unless there are changes to the reported information; EPCRA section 304 notification happens only when a release occurs from a facility.

Total estimated burden: 222,856 hours (per year) (includes LEPCs (or TEPCs) and SERCs (or TERCs)). This figure will be updated to account for any changes in O&M costs, burden and number of respondents during the 60-day OMB review period. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$11.67 million (per year), including \$8,470 annual operations and maintenance (O&M) costs. This figure will be updated to account for any changes in O&M costs, burden and number of respondents during the 60-day OMB review period. There are no capital costs associated with this ICR.

Changes in estimates: The number of facilities subject to section 302 is 95,000, which is the same as in the previous ICR. The reduction in burden of approximately 25 percent (36,600 hours annually) for activities related to section 304 reporting requirements for facilities is attributable to a decrease in the number of release notifications reported to the National Response Center for the previous three years, which EPA assumes will apply to the three years of this ICR renewal. In addition, EPA corrected a few minor calculation errors. Changes in estimated costs are attributable to updated wage rates and a reduction in estimated O&M costs. Any additional change in burden or cost resulting from the 60-day OMB review period will be described and explained in this section when the updated ICR Supporting Statement is completed.

SUPPLEMENTARY INFORMATION: The information contained in records maintained in the CDX system are used to verify the identity of the individual,

inform users of the conditions and terms of using CDX, allow individual users to establish an account on CDX, provide individual users access to their CDX account for electronically filing compliance data or exchanging other forms of environmental data, allow individual users to customize, update or terminate their account with CDX, renew or revoke an individual user's account on CDX, support the CDX help desk functions, investigate possible fraud and verify compliance with program regulations, and initiate legal action against an individual involved in program fraud, abuse, or noncompliance. CDX records will be used to facilitate registering CDX system users, issuing a username and password, and subsequently, verifying an individual's identity as he/she seeks to gain routine access to his/her account. In some cases, the user verification process will require EPA to contact the employer, based on the registration information provided by the user. The system has secondary uses that include using the established username to facilitate tracking service calls or emails from the user in the event that there is a change in registration status or the user has a problem with CDX; offering the user new CDX service options, and facilitating the retrieval of user actions (e.g., historical submissions and help tickets); and events while on the CDX system.

The records may also be subsequently used for auditing or other internal purposes of the EPA, including but not limited to instances where enforcement of the conditions of using CDX are necessary; investigation of possible fraud involving a registered user; litigation purposes related to information reported to the agency; contacting the individual in the event of a system modification; a change to CDX; or modification, revocation or termination of user's access privileges to CDX.

SYSTEM NAME AND NUMBER:

Central Data Exchange (CDX), EPA-52.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

The CDX system is located at U.S. EPA National Computer Center, 109 T.W. Alexander Drive, Research Triangle Park, NC 27711; additional locations include cloud environments located in Microsoft Azure East US 1, East US 2 and Central US along with other partner sites in Virginia.

SYSTEM MANAGER(S):

Joe Carioti, Branch Chief, U.S. EPA, Information Exchange Services Branch, 1200 Pennsylvania Ave. NW (Mail Code 2824T), Washington, DC 20460. Tel: 202-564-6413, Email: carioti.joe@epa.gov.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

In accordance with the Government Paperwork Elimination Act (44 U.S.C. 3504), EPA's electronic compliance filing and environmental data exchange system will enable the "acquisition and use of information technology, including alternative information technologies that provide for electronic submission, maintenance, or disclosure of information as a substitute for paper and for the use and acceptance of electronic signatures." Section 3504(a)(1)(B)(vi) of Title 44, United States Code. Authority is additionally regulated by the CROss-Media Electronic Reporting Rule (40 CFR part 3), as a regulatory alternative to paper reporting.

PURPOSE(S) OF THE SYSTEM:

CDX is EPA's portal for electronically exchanging environmental data with external customers. Users with CDX accounts may choose to engage in secure, electronic filing of environmental documents as permitted under the Government Paperwork Elimination Act (GPEA). The information is also used to provide authenticated, protected access to the CDX system, thereby protecting CDX and CDX users from potential harm caused by individuals with malicious intentions gaining unauthorized access to the system.

CATEGORIES OF INDIVIDUALS COVERED BY SYSTEM:

This system contains records on all individuals that have either attempted to register or have registered to obtain an account to use CDX for electronically exchanging data with EPA. Registered users of CDX may include representatives of industry, government or laboratories exchanging information with EPA through CDX.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains records for individuals' name, self-assigned username and security question, work title, work address and related work contact information (e.g., phone numbers, email address), supervisors' name and related contact information, information related to the EPA reporting program the individual is planning to electronically file or report under (e.g., EPA program ID # and EPA program

role), and the method of reporting (e.g., web browser, file exchange). In cases where individuals are asked to electronically "sign" certain EPA forms, CDX may request additional information items from an individual in order to safeguard their account and create secret questions/answers that only the individual should know.

RECORD SOURCE CATEGORIES:

Information is obtained from individuals who have had or seek to have their identity authenticated.

1. Administrative Safeguards: The system will be operated and maintained by EPA or organizations under contract with the EPA (henceforth referred to as "EPA"). EPA has minimized the risk of unauthorized access to the system by establishing a secure environment for exchanging electronic information.

3. Physical Safeguards: Physical access to the data system housed within the facility is controlled by a

computerized badge reading system, and the entire complex is patrolled by security during non-business hours. The computer system offers a high degree of resistance to tampering and circumvention. Multiple levels of security are maintained with the computer system control program.

4. *Logical Access Safeguards (Technical)*: The individual registering for CDX will generate a self-assigned passwords that will be stored in CDX, but it will only be accessible to the registering individual. To restore passwords additional secrets will be provided by individual and validated along with email or other out-of-band factor such as registered mobile phone using a 1-time passphrase.

Electronic Option for Submitting Foreign Purchaser Acknowledgement Statement of Unregistered Pesticides Under the Federal Insecticide, Fungicide and Rodenticide Act; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is announcing the availability of an electronic option for submitting the Foreign Purchaser Acknowledgement Statement (FPAS) for unregistered pesticides as required under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). As an alternative to the hardcopy approach, which is still available, EPA is also now accepting the required notifications electronically using EPA's electronic document submission system, the Central Data Exchange (CDX). Use of CDX to prepare and submit the required notifications to EPA will help streamline and reduce the administrative costs and burdens associated with submitting paper-based statements for both the submitters and the Agency.

DATES: An FPAS may be submitted electronically using CDX as of August 18, 2021.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2021-0424, is available online at <http://www.regulations.gov> or in-person at the Office of Pesticide Program Docket (OPP Docket), Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744.

Please note that due to the public health concerns related to COVID-19, the EPA/DC and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on the EPA/DC and docket access, visit <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: For technical information contact: Zoe Emdur, Office of Program Support, Environmental Protection Agency, 1200

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you manufacture, process, import, or distribute in commerce chemical substances and mixtures. The following North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. Potentially affected entities may include, but are not limited to the following:

- Basic Chemical Manufacturing (NAICS 3251);
- Resin, Synthetic Rubber, and Artificial and Synthetic Fibers and Filaments Manufacturing (NAICS 3252);
- Pesticide, Fertilizer, and Other Agricultural Chemical Manufacturing (NAICS 3253); and
- Other Chemical Product and Preparation Manufacturing (NAICS 3251).

If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What action is the Agency taking?

The Agency is announcing the availability of an electronic option for use by those who must submit an FPAS under FIFRA 17(a)(2). EPA is providing an electronic option as part of the broader Federal government efforts to move to modern, electronic methods of information collection, which streamline processes and reduce overall burdens for all involved.

Currently, an FPAS can only be submitted to the Agency in hardcopy using regular mail, requiring the Agency to manually scan and process submissions. The modernization of the FPAS process will allow the option for users to prepare and submit their notifications to the Agency electronically using a web-based application. To file electronically, submitters must use the EPA provided application. To access the application, users must complete a one-time registration with EPA's CDX (<https://cdx.epa.gov/>). CDX is the Agency's portal for submitting information to EPA in a secure online manner. Electronic submissions of an FPAS will be done via the Pesticide Submission Portal ("PSP" or "Pesticide Portal") which is
