BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. AD21-8-00]

Technical Conference on Reassessment of the Electric Quarterly Report Requirements; Notice of Technical Conference

Take notice that on October 14, 2021, the Federal Energy Regulatory Commission (Commission) will convene a staff-led technical conference via webcast as part of a reassessment of the Electric Quarterly Report (EQR) requirements. A supplemental notice will be issued prior to the conference with further details regarding the agenda, meeting registration information, and electronic log-in information.

The purpose of this technical conference is to provide a forum for Commission staff, filers, and data users to discuss potential changes to the current EQR data fields. This technical conference is the third in a series of conferences related to a reassessment of the EQR requirements.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov or call toll free 1-866-208-3372 (voice) or 202-502-8659 (TTY), or send a FAX to 202-208-2106 with the required accommodations.

For more information about the EQR technical conference, please contact Jeff Sanders of the Commission's Office of Enforcement at (202) 502-6455, or send an email to EQR@ferc.gov. Additional information will also be provided on the EQR web page.

Dated: August 12, 2021.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2021-0146; FRL-8682-03-OCSPPT]

Certain New Chemicals or Significant New Uses; Statements of Findings for June 2021

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Toxic Substances Control Act (TSCA) requires EPA to publish in the **Federal Register** a statement of its findings after its review of certain TSCA notices when EPA makes a finding that a new chemical substance or significant new use is not likely to present an unreasonable risk of injury to health or the environment. Such statements apply to premanufacture notices (PMNs), microbial commercial activity notices (MCANs), and significant new use notices (SNUNs) submitted to EPA under TSCA. This document presents statements of findings made by EPA on such submissions during the period from June 1, 2021 to June 30, 2021.

FOR FURTHER INFORMATION CONTACT:

For technical information contact: Rebecca Edelstein, New Chemicals Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: 202-564-1667; email address: Edelstein.rebecca@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitters of the PMNs addressed in this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2021-0146, is available at <http://www.regulations.gov> or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPPT Docket is (202) 566-0280.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit <https://www.epa.gov/dockets>.

II. What action is the Agency taking?

This document lists the statements of findings made by EPA after review of notices submitted under TSCA section 5(a) that certain new chemical substances or significant new uses are not likely to present an unreasonable risk of injury to health or the environment. This document presents statements of findings made by EPA during the period from June 1, 2021 to June 30, 2021.

III. What is the Agency's authority for taking this action?

TSCA section 5(a)(3) requires EPA to review a TSCA section 5(a) notice and

make one of the following specific findings:

- The chemical substance or significant new use presents an unreasonable risk of injury to health or the environment;
- The information available to EPA is insufficient to permit a reasoned evaluation of the health and environmental effects of the chemical substance or significant new use;
- The information available to EPA is insufficient to permit a reasoned evaluation of the health and environmental effects and the chemical substance or significant new use may present an unreasonable risk of injury to health or the environment;
- The chemical substance is or will be produced in substantial quantities, and such substance either enters or may reasonably be anticipated to enter the environment in substantial quantities or there is or may be significant or substantial human exposure to the substance; or
- The chemical substance or significant new use is not likely to present an unreasonable risk of injury to health or the environment.

Unreasonable risk findings must be made without consideration of costs or other non-risk factors, including an unreasonable risk to a potentially

exposed or susceptible subpopulation identified as relevant under the conditions of use. The term “conditions of use” is defined in TSCA section 3 to mean “the circumstances, as determined by the Administrator, under which a chemical substance is intended, known, or reasonably foreseen to be manufactured, processed, distributed in commerce, used, or disposed of.”

EPA is required under TSCA section 5(g) to publish in the **Federal Register** a statement of its findings after its review of a TSCA section 5(a) notice when EPA makes a finding that a new chemical substance or significant new use is not likely to present an unreasonable risk of injury to health or the environment. Such statements apply to PMNs, MCANs, and SNUNs submitted to EPA under TSCA section 5.

Anyone who plans to manufacture (which includes import) a new chemical substance for a non-exempt commercial purpose and any manufacturer or processor wishing to engage in a use of a chemical substance designated by EPA as a significant new use must submit a notice to EPA at least 90 days before commencing manufacture of the new chemical substance or before engaging in the significant new use.

The submitter of a notice to EPA for which EPA has made a finding of “not likely to present an unreasonable risk of injury to health or the environment” may commence manufacture of the chemical substance or manufacture or processing for the significant new use notwithstanding any remaining portion of the applicable review period.

IV. Statements of Administrator Findings Under TSCA Section 5(a)(3)(C)

In this unit, EPA provides the following information (to the extent that such information is not claimed as Confidential Business Information (CBI)) on the PMNs, MCANs and SNUNs for which, during this period, EPA has made findings under TSCA section 5(a)(3)(C) that the new chemical substances or significant new uses are not likely to present an unreasonable risk of injury to health or the environment:

- EPA case number assigned to the TSCA section 5(a) notice.
- Chemical identity (generic name if the specific name is claimed as CBI).
- Website link to EPA’s decision document describing the basis of the “not likely to present an unreasonable risk” finding made by EPA under TSCA section 5(a)(3)(C).

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-SFUND-2005-0008; FRL-8827-01-OLEM]

Proposed Information Collection Request; Comment Request: Emergency Planning and Release Notification Requirements (EPCRA Sections 302, 303, and 304), EPA ICR Number 1395.11, OMB Control Number 2050-0092**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), “Emergency Planning and Release Notification Requirements,” (EPA ICR No. 1395.11, OMB Control No. 2050-0092) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described in

SUPPLEMENTARY INFORMATION. This is a proposed extension of the ICR, which is currently approved through April 30, 2022. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before October 18, 2021.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-SFUND-2005-0008, to (1) EPA online using www.regulations.gov (our preferred method), by email to superfund.docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Wendy Hoffman, Office of Emergency Management, Mail Code 5104A, Environmental Protection Agency, 1200

Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-8794; email address: hoffman.wendy@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at <http://www.regulations.gov>. Out of an abundance of caution for members of the public and our staff, the EPA Docket Center and Reading Room is closed to the public, with limited exceptions, to reduce the risk of transmitting COVID-19. Our Docket Center staff will continue to provide remote customer service via email, phone, and webform. For further information about the EPA’s public docket, Docket Center services and the current status, please visit us online at <https://www.epa.gov/dockets>. The telephone number for the Docket Center is 202-566-1744.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The authority for the emergency planning and emergency release notification requirements is sections 302, 303, and 304 of the Emergency Planning and Community Right-to-Know Act (EPCRA) of 1986 (42 U.S.C. 11002, 11003, and 11004). EPCRA established broad emergency planning and facility reporting requirements. Section 302 requires

facilities to notify their State Emergency Response Commission (SERC) or Tribal Emergency Response Commission (TERC), Local Emergency Planning Committee (LEPC) or Tribal Emergency Planning Committee (TEPC) with jurisdiction over their facility, of the presence of a threshold planning quantity of a listed extremely hazardous substance (EHS) at the facility. This activity was completed by existing facilities soon after the law was passed. Only new facilities that may become subject to these requirements must notify the SERC (or TERC) and the LEPC (or TEPC). Currently covered facilities are required to notify the LEPC (or TEPC) of any changes that occur at the facility which would be relevant to emergency planning. Section 303 requires the LEPC (or TEPC) to prepare local emergency response plans for their planning district using the information provided by facilities under Section 302. An LEPC (or TEPC) may request any information from facilities necessary to develop emergency response plans. Initial emergency response plans were developed within a few months after the law was passed. LEPCs (or TEPCs) are required to review and update the plan at least annually or more frequently as changes occur in the community. Section 304 requires facilities to report to SERCs (or TERCs) and LEPCs (or TEPCs) releases in excess of the reportable quantities listed for each EHS. This ICR also covers the notification and the written follow-up required under Section 304. The implementing regulations are codified in 40 CFR part 355.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are those which have a threshold planning quantity of an EHS listed in 40 CFR part 355, Appendix A and those which have a release of any of the EHSs above a reportable quantity. Entities more likely to be affected by this action may include chemical manufacturers, retailers, petroleum refineries, utilities, etc.

Respondent’s obligation to respond: Mandatory (Sections 302, 303 and 304 of EPCRA).

Estimated number of respondents: 108,556. This figure includes 3,556 LEPCs (or TEPCs) and SERCs (or TERCs) and will be updated, as needed, during the 60-day OMB review period.

Frequency of response: EPCRA section 302 reporting is a one-time
