[Docket Nos. RM20–10–000; AD19–19–000]
Electric Transmission Incentives Policy Under Section 219 of the Federal Power Act; Supplemental Notice of Workshop

As announced in the Notice of Workshop issued in the above-captioned proceedings on April 15, 2021, Federal Energy Regulatory Commission (Commission) staff will convene a workshop to discuss certain shared savings incentive approaches that may foster deployment of transmission technologies. The workshop will be held on Friday, September 10, 2021, from approximately 8:30 a.m. to 5:30 p.m. Eastern Time. The workshop will be held virtually via WebEx.

Commissioners may attend and participate.

Transmission technologies, as deployed in certain circumstances, may enhance reliability, efficiency, and capacity, and improve the operation of new or existing transmission facilities. The workshop will discuss issues related to shared savings approaches 1 for transmission technologies seeking incentives under Federal Power Act section 219. 2 The workshop will focus on how to calculate ex ante and ex post benefit analyses for transmission technologies seeking incentives. Specifically, the workshop will explore the maturity of the modeling approaches for various transmission technologies; the data needed to study the benefits/ costs of such technologies; issues pertaining to access to or confidentiality of this data; the time horizons that should be considered for such studies; and other issues related to verifying forecasted benefits. The workshop may also discuss other issues, including whether and how to account for circumstances in which benefits do not materialize as anticipated.

Attached to this Supplemental Notice is an agenda for the workshop, which includes the final workshop program and expected speakers. The workshop will be open for the public to attend virtually. Information on the workshop will also be posted on the Calendar of Events on the Commission’s website, http://www.ferc.gov, prior to the event. The workshop will be transcribed. Transcripts of the workshop will be available for a fee from Ace-Federal Reporters, Inc. (202–347–3700).

[Project No. 15229–000]
Alabama Power Company: Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 27, 2021, Alabama Power Company filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Chandler Mountain Pumped Storage Project No. 15229–000 (Chandler Mountain Project, or project), a closed-loop pumped storage project to be located in Etowah and St. Clair Counties, Alabama. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners’ express permission.

The proposed pumped storage project would consist of the following: (1) An upper reservoir with a maximum water surface elevation of 1,364 feet mean sea level (msl); (2) four dam sections and one spillway section at a crest elevation of 895 feet, each; (3) an upper reservoir intake structure; (4) an underground powerhouse containing reversible pump-turbine unit(s) for a maximum installed capacity of 1,600 megawatts; (5) a lower reservoir discharge structure; (6) a lower reservoir with a maximum water surface elevation of 889 feet msl; (7) a transmission line(s) and switchyard(s) connecting the project to the grid; and (8) appurtenant facilities.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission’s eFiling system at http://www.ferc.gov/docs-filing/efiling.asp. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at http://www.ferc.gov/docs-filing/ecomment.asp. You must include your name and contact information at the end of your comments. In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket number P–15229–000.

More information about this project, including a copy of the application, can be viewed or printed on the “Library” link of Commission’s website at http://www.ferc.gov/docs-filing/elibrary.asp. Enter the docket number (P–15229) in the docket field to access the document. For assistance, contact FERC Online Support.
