

changed or affected as a result of this amendment. Any operational changes to fishery management measures as a result of Final Amendment 12 would be considered in future rulemakings, as appropriate.

On August 25, 2020, NMFS published a notice of availability of Draft Amendment 12 (85 FR 52329). Given that specific changes to fishery management measures are not proposed or evaluated in this amendment; NMFS does not expect any impacts. Furthermore, no extraordinary circumstances exist, and the action is not expected to be controversial. Thus, NMFS has determined that Final Amendment 12 would appropriately be categorically excluded from further analysis under the National Environmental Policy Act (NEPA).

NMFS sought public comment on Draft Amendment 12 through October 26, 2020. Additionally, NMFS conducted two public hearing conference calls/webinars for interested members of the public to submit verbal comments. NMFS received one written comment on the Draft Amendment, and received a number of additional comments and/or clarifying questions at the September 2020 Atlantic HMS Advisory Panel meeting and the two webinars. In general, commenters supported the intent of Draft Amendment 12 to address the 2006 Consolidated HMS FMP objectives, to adopt international SDC for internationally managed HMS, to update SBRM, to adopt triggers for review of allocations, and to adjust the publication date of the annual SAFE Report. Regarding reassessment of HMS

FMP objectives, some commenters indicated support or opposition to certain changes, with some suggesting specific changes to strengthen, broaden, streamline, keep, or clarify the text, including for flexibility purposes. See the response to comments in the Appendix of Final Amendment 12.

Final Amendment 12 revises 12 of the 16 baseline HMS management objectives identified in the 2006 Consolidated HMS FMP and adds three new objectives. For further information including the full set of revised HMS FMP objectives, see the Final Amendment 12 document. Table 1 summarizes the three changes to the HMS FMP objectives relative to the revisions NMFS proposed in Draft Amendment 12, based on public comment and further consideration.

TABLE 1—CHANGES TO THE HMS FMP OBJECTIVES RELATIVE TO THE REVISIONS NMFS PROPOSED IN DRAFT AMENDMENT 12

Objective #	Text of 2006 consolidated HMS FMP objective	Text of revised FMP objective	Rationale for revision
14	Optimize the social and economic benefits to the nation by reserving the Atlantic billfish resource for its traditional use, which in the United States is entirely a recreational fishery.	Optimize the social and economic benefits to the nation by reserving the Atlantic billfish resource for its traditional use, which in the United States is entirely a recreational fishery.	No change. Although Atlantic billfish are already reserved for the recreational fishery and are prohibited from being landed commercially, NMFS has decided to retain Objective 14 in the HMS FMP to maintain this important concept in managing HMS fisheries.
15	Increase understanding of the condition of HMS stocks and HMS fisheries.	Increase understanding of the condition of Atlantic HMS stocks and fisheries, including stock status, biological, social, and economic information, and how HMS stocks and fisheries interact with other federally managed fisheries and species.	Adds text to elaborate on the type of information that could help with understanding Atlantic HMS stocks and fisheries.
18	Consistent with the other objectives of this FMP, consider ecosystem-based effects to support and enhance effective HMS fishery management.	Consistent with the other objectives of this FMP, consider ecosystem-based effects and seek to understand the impacts of shifts in the environment, including climate change, on Atlantic HMS fisheries to support and enhance effective HMS fishery management.	Adds an objective to consider ecosystem-based effects and shifts in the environment, including climate change, in Atlantic HMS fishery management.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the product(s) and service(s) to the Government.

2. The action will result in authorizing small entities to furnish the product(s) and service(s) to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501-8506) in connection with the product(s) and service(s) proposed for addition to the Procurement List.
