Abstract: The BLM’s royalty-free standards contained in 43 CFR parts 3160 and 3170 apply to Federal and Indian (except Osage Tribe) oil and gas leases. The information collection requirements contained in standards are designed to address circumstances under which oil or gas produced from onshore wells may be used royalty-free in operations. OMB Control Number 1004-0211 is scheduled to expire on November 30, 2021. This request is for OMB to renew this OMB Control Number for an additional three (3) years.

There are currently no policy revisions proposed in this request to OMB. The BLM is requesting, however, that OMB revise the burden estimates as a result of a court decision, *State of Wyoming v. DOI*, where the requirements of certain portions of Subsection 3179 were vacated resulting in a reduction of 1,025 responses and 3,610 burden hours for this OMB control number. Currently, there are 1,075 responses and 4,010 annual burden hours approved under this OMB Control Number, and the BLM is requesting that these burden numbers be revised downward to 50 responses and 400 hours.
