BILLING CODE 8320–01–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R07–OAR–2021–0378; FRL–8704–02–R7]

Air Plan Approval; Iowa; Infrastructure State Implementation Plan Requirements for the 2015 Ozone National Ambient Air Quality Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve certain elements of a State Implementation Plan (SIP) submission from the State of Iowa addressing the applicable requirements of section 110 of the Clean Air Act (CAA) for the 2015 Ozone (O₃) National Ambient Air Quality Standard (NAAQS). Section 110 requires that each state adopt and submit a SIP revision to support the implementation, maintenance, and enforcement of each new or revised NAAQS promulgated by the EPA. These SIPs are commonly referred to as “infrastructure” SIPs. The infrastructure requirements are designed to ensure that the structural components of each state’s air quality management program are adequate to meet the state’s responsibilities under the CAA.

DATES: This final rule is effective on September 22, 2021.

ADDRESSES: The EPA has established a docket for this action under Docket ID

No. EPA–R07–OAR–2021–0378. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <https://www.regulations.gov> or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional information.

FOR FURTHER INFORMATION CONTACT:

Jason Heitman, Environmental Protection Agency, Region 7 Office, Air Quality Planning Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219; telephone number: (913) 551–7664; email address: heitman.jason@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document “we,” “us,” and “our” refer to the EPA. A technical support document (TSD) is included in the rulemaking docket.

Table of Contents

- I. Background
- II. What is being addressed in this document?
- III. Have the requirements for approval of a sip revision been met?
- IV. What action is the EPA taking?
- V. Statutory and Executive Order Reviews

I. Background

On June 29, 2021, the EPA proposed to approve Iowa’s infrastructure SIP submission for the 2015 O₃ NAAQS in the **Federal Register** (86 FR 34175). The EPA solicited comments on the proposed approval of the infrastructure SIP submission and received no comments.

II. What is being addressed in this document?

The EPA is approving the infrastructure SIP submission received from the state on November 30, 2018 in accordance with section 110(a)(1) of the CAA. Specifically, the EPA is approving Iowa’s SIP as meeting the following infrastructure elements of section 110(a)(2) of the CAA: (A) through (C), (D)(i)(II)—prevention of significant deterioration of air quality (prong 3) and protection of visibility (prong 4), (D)(ii), (E) through (H), and (J) through (M). Elements of section 110(a)(2)(D)(i)(I)—significant contribution to nonattainment (prong 1) and interfering with maintenance of the NAAQS (prong 2) will be addressed in a separate action.

Section 110(a)(2)(I) was discussed in the submission; however, the EPA does

not expect infrastructure SIP submissions to address element (I). Section 110(a)(2)(I) requires states to meet the applicable SIP requirements of part D of the CAA relating to designated nonattainment areas. The specific part D submissions for designated nonattainment areas are subject to different submission schedules than those for section 110 infrastructure elements. The EPA will act on part D attainment plan SIP submissions through a separate rulemaking governed by the requirements for nonattainment areas, as described in part D.

A Technical Support Document (TSD) in the docket provides additional details of this action, including an analysis of how the SIP meets the applicable CAA section 110 requirements for infrastructure SIPs.

III. Have the requirements for approval of a SIP revision been met?

The State met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The EPA determined that the submission satisfied the completeness criteria of 40 CFR part 51, appendix V. The State provided a public comment period for this SIP revision from September 18, 2018 to October 19, 2018 and received two comments related to a request for more stringent ozone requirements and an increase in ozone monitors. The state provided an adequate response to these comments. In addition, as explained in more detail in the TSD which is part of this docket, the infrastructure SIP submission meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations. The public comment period on the EPA’s proposed rule opened June 29, 2021, the date of its publication in the **Federal Register** and closed on July 29, 2021. During this period, the EPA received no comments.

IV. What action is the EPA taking?

The EPA is approving elements of the November 30, 2018, submission from the State of Iowa addressing the infrastructure elements for the 2015 O₃ NAAQS. Specifically, the EPA is approving Iowa’s SIP as meeting the following infrastructure elements of section 110(a)(2): (A) through (C), (D)(i)(II) prong 3 and prong 4, (D)(ii), (E) through (H), (J) through (M). The EPA intends to act on the elements of section 110(a)(2)(D)(i)(I)—prong 1 and prong 2 in a subsequent rulemaking. The EPA is not addressing Section 110(a)(2)(I) as it is the EPA’s interpretation of the CAA that these elements do not need to be addressed in the context of an infrastructure SIP submission.

Based upon review of the State’s infrastructure SIP submissions and relevant statutory and regulatory authorities and provisions referenced in those submissions or referenced in Iowa’s SIP, the EPA finds that Iowa’s SIP meets all applicable required elements of sections 110(a)(1) and (2) (except as otherwise noted) with respect to the 2015 O₃ NAAQS.

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive

Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of the National Technology Transfer and Advancement Act (NTTA) because this rulemaking does not involve technical standards; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**.

This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 22, 2021. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (See section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Infrastructure, Intergovernmental relations, Ozone.

Dated: August 12, 2021.

Edward H. Chu,

Acting Regional Administrator, Region 7.

For the reasons stated in the preamble, the EPA amends 40 CFR part 52 as set forth below:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart Q—Iowa

- 2. In § 52.820, the table in paragraph (e) is amended by adding the entry “(54)” in numerical order to read as follows:

§ 52.820 Identification of plan.

* * * * *
(e) * * *

EPA-APPROVED IOWA NONREGULATORY PROVISIONS

Name of nonregulatory SIP provision	Applicable geographic or nonattainment area	State submittal date	EPA approval date	Explanation
(54)Section 110(a)(2) Infrastructure Requirements for the 2015 O ₃ NAAQS.	Statewide	11/30/18	8/23/21, [Insert Federal Register citation].	[EPA–R07–OAR–2021–0378; FRL–8704–02–Region 7]. This action addresses the following CAA elements: 110(a)(2)(A), (B), (C), (D)(i)(II)—prongs 3 and 4, (D)(ii), (E), (F), (G), (H), (J), (K), (L), and (M). 110(a)(2)(D)(i)(I)—prongs 1 and 2 will be addressed in a separate action. 110(a)(2)(I) is not applicable.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R09-OAR-2021-0134; FRL-8760-02-R9]

Air Plan Approval; Arizona; Pinal County Air Quality Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve revisions to the Pinal County Air Quality Control District (PCAQCD) portion of the Arizona State Implementation Plan (SIP). These revisions concern the District’s negative declarations for the 2008 8-hour ozone National Ambient Air Quality Standards (NAAQS or “standards”) in the portion of the Phoenix-Mesa ozone nonattainment area under the jurisdiction of the PCAQCD and two volatile organic compound (VOC) rules covering gasoline dispensing and surface coating operations. We are approving local rules that regulate these emission sources under the Clean Air

Act (CAA or the Act). This approval stops all sanction and federal implementation plan clocks started by our August 9, 2019 partial and limited disapproval actions.¹

DATES: This rule is effective September 22, 2021.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R09-OAR-2021-0134. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <https://www.regulations.gov>, or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information. If you need assistance in a language other than English or if you are a person with disabilities who needs a reasonable accommodation at no cost to you, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT: Nicole Law, EPA Region IX, 75

Hawthorne St., San Francisco, CA 94105. By phone: (415) 947-4126 or by email at Law.Nicole@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us” and “our” refer to the EPA.

Table of Contents

- I. Proposed Action
- II. Public Comments and EPA Responses
- III. EPA Action
- IV. Incorporation by Reference
- V. Statutory and Executive Order Reviews

I. Proposed Action

On March 5, 2021,² the EPA proposed to approve negative declarations for the 2008 8-hour ozone NAAQS in the portion of the Phoenix-Mesa ozone nonattainment area under the jurisdiction of the PCAQCD and the following two PCAQCD rules: Chapter 5, Article 13, Surface Coating Operations, and Chapter 5, Article 20, Storage and Loading of Gasoline at Gasoline Dispensing Facilities. The following table lists the documents that were submitted by the Arizona Department of Environmental Quality (AQED) for incorporation into the Arizona SIP; these documents were the subject of our March 5, 2021 proposed rulemaking action and submitted in response to our August 9, 2019 partial and limited disapproval actions.³

Local agency	Rule title	Amended	Submitted
PCAQCD	Reasonably Available Control Technology (RACT) Analysis, Negative Declaration and Rules Adoption—Appendix B: Additional Negative Declarations.	8/5/2020	8/20/2020
PCAQCD	Chapter 5, Article 13 Surface Coating Operations	8/5/2020	8/20/2020
	5-13-100, “General”.		
	5-13-200, “Definitions”.		
	5-13-300, “Standards”.		
	5-13-400, “Administrative Requirements”.		
	5-13-500, “Monitoring and Records”.		
PCAQCD	Chapter 5, Article 20 Storage and Loading of Gasoline at Gasoline Dispensing Facilities	8/5/2020	8/20/2020
	5-20-100 “General”.		
	5-20-200 “Definitions”.		
	5-20-300 “Standards”.		
	5-20-400 “Administrative Requirements”.		
	5-20-500 “Monitoring and Records”.		

We proposed to approve the negative declarations and two rules because we determined that they comply with the relevant CAA requirements. Our proposed action contains more information on the negative declarations and rules as well as on our evaluation.

II. Public Comments and EPA Responses

The EPA’s proposed action provided a 30-day public comment period. During this period, we received no comments.

III. EPA Action

No comments were submitted. Therefore, as authorized in section 110(k)(3) of the Act, the EPA is fully approving these negative declarations and rules into the Arizona SIP.

The August 5, 2020 versions of Chapter 5, Article 13 and Chapter 5, Article 20 will replace the previously approved version of these rules in the SIP. This approval stops all sanction and federal implementation plan clocks started by our August 9, 2019 partial and limited disapproval actions on the PCAQCD RACT SIP.⁴
