SUPPLEMENTARY INFORMATION:

I. Abstract

Under section 10(b) of the Leahy-Smith America Invents Act (“Act”) (See Pub. L. 112–29, 125 Stat. 283 (2011)), eligible small entities shall receive a 50 percent fee reduction from the undiscounted fees for filing, searching, examining, issuing, appealing, and maintaining patent applications and patents. The Act further provides that micro entities shall receive a 75 percent fee reduction from the undiscounted fees for filing, searching, examining,

issuing, appealing, and maintaining patent applications and patents.

This information collection covers the submissions made by patent applicants and patentees to excuse small and micro entity fee payment errors, in accordance with the procedures set forth in 37 CFR 1.28(c) and 1.29(k). Specifically, 37 CFR 1.28(c) provides a procedure by which patent applicants and patentees may be excused for erroneous payments of fees in the small entity amount. 37 CFR 1.29(k) provides a procedure by which patent applicants and patentees may be excused for erroneous payments of fees in the micro entity amount.

Patent applicants and patentees who change their entity status may need to submit additional payments in order to have their applications associated with the correct category. It is possible for small or micro entity status to be established in good faith, and for a patent applicant or patentee to pay a fee as a small or micro entity in good faith, only to later discover that the entity status was established in error, or to later discover that, through error, the USPTO was not notified of a loss of status entitlement. The USPTO will excuse the error if a deficiency payment and other requirements are submitted in compliance with 37 CFR 1.28(c) or 1.29(k). Thus, this information collection is necessary so that patent applicants and patentees may pay the balance of fees due (*i.e.*, fee deficiency payment) when a fee was previously paid in error in a micro or small entity amount. The USPTO needs the

information to be able to process and properly record a fee deficiency payment to avoid questions arising later, either for the USPTO or for the applicant or patentee, as to whether the proper fees have been paid in the application or patent.

II. Method of Collection
