

functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Labeling Requirements for Certain Minimum Risk Pesticides under FIFRA Section 25(b).

ICR number: EPA ICR No. 2475.04.

OMB control number: OMB Control No. 2070-0187.

ICR status: This ICR is currently scheduled to expire on April 30, 2022. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Minimum risk pesticide products are not registered by EPA, therefore the product information associated with the pesticide registration process under section 3 of FIFRA are never submitted to EPA. Labeling requirements are the key component of the minimum risk exemption since this is the only information that enforcement authorities have to assess whether or not the product meets the exemption requirements. While EPA does not review these products, and therefore a Federal label review is not conducted, to maintain exemption status, an

exempt product's label must meet certain criteria. The Agency will reach out as required under 5 CFR 1320.8(d)(1), to representatives from producers of minimum risk pesticide products that would be subjected to the labeling requirements under 40 CFR 152.25(f).

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 5.5 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are individuals or entities engaged in activities related to the registration of pesticide products including manufacturers, distributors, retailers, and users of minimum risk pesticides.

Respondent's obligation to respond: Voluntary.

Estimated total number of potential respondents: 7.

Frequency of response: One time.

Estimated total average number of responses for each respondent: 87.

Estimated total annual burden hours: 478.5 hours.

Estimated total annual costs: \$61,018.45. This includes an estimated burden cost of \$50,576.67 and an estimated cost of \$9,963.28 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is an increase of \$26,448.82 labor costs in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects the updated wage rates, the total labor costs increased from \$156,606.53 to \$183,055.35.

In addition, OMB has requested that EPA move towards using the 18-question format for ICR Supporting Statements used by other federal agencies and departments and that is based on the submission instructions established by OMB in 1995, replacing the alternate format developed by EPA and OMB prior to 1995. The Agency does not expect this change in format to result in substantive changes to the information collection activities or related estimated burden and costs.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Cancellation Order for Certain Pesticide Registrations and Amendments To Terminate Uses; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; correction.

SUMMARY: EPA issued a notice in the **Federal Register** of April 2, 2021, concerning the cancellations and amendments to terminate uses voluntarily requested by the registrants and accepted by the Agency. This document is being issued to correct the cancellation order in Table 1 of Unit I, by removing the registration number 66570-2 and Table 3 of Unit I, by removing EPA company number 66570, as these entries were made in error.

FOR FURTHER INFORMATION CONTACT: Christopher Green, Registration Division (7502P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (703) 347-0367; email address: green.christopher@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including

environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2020-0060, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. Product Cancellation Order for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).
ACTION: Notice.

SUMMARY: This notice announces EPA’s order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1 of Unit II, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows a February 17, 2021 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 2 of Unit II to voluntarily cancel these product registrations. In the February 17, 2021 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency did not receive any comments on the notice. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are applicable September 7, 2021.
