Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

The filings are accessible in the Commission's eLibrary system (<https://elibrary.ferc.gov/idmws/search/fercgensearch.asp>) by querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: September 1, 2021.

Debbie-Anne A. Reese,
Deputy Secretary.

Federal Energy Regulatory Commission

[Docket No. EL21–99–000]

Complaint of Michael Mabee and Petition To Order Mandatory Reliability Standards for Equipment and Monitoring Systems Marketed From the People's Republic of China; Notice of Complaint

Take notice that on August 26, 2021, pursuant to section 215(d) of the Federal Power Act, 16 U.S.C. 824o(d) and Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206 (2020), Michael Mabee, (Complainant) filed a formal complaint alleging: (1) Entities in the U.S. Bulk Power System as well as the overall U.S. electric grid are buying critical equipment from the People's Republic of China to install

into our critical electric infrastructure that the Communist regime's state sponsored, and state supported hackers are already probing and attacking; (2) there is no requirement that existing Chinese equipment or systems already installed in the electric grid be checked and tested for risks and vulnerabilities; and (3) there is no requirement that newly imported Chinese equipment or systems be checked and tested for risks and vulnerabilities before being installed on the electric grid., as more fully explained in the complaint.

Complainant certifies that copies of the complaint were served on the contacts as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. All interventions, or protests must be filed on or before the comment date.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact the Federal Energy Regulatory Commission at FERCOnlineSupport@ferc.gov or call

toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Comment Date: 5:00 Eastern Time on September 15, 2021.

Dated: August 31, 2021.

Debbie-Anne A. Reese,

Deputy Secretary.

DEPARTMENT OF ENERGY

Southwestern Power Administration

2021 Continuation of Temporary Power Sales Program

AGENCY: Southwestern Power Administration, DOE.

ACTION: Notice that new applications will be accepted for the Southwestern Power Administration Temporary Power Sales Program for 2021.

SUMMARY: Southwestern Power Administration (Southwestern) is accepting new applications under its Temporary Power Sales Program for 2021. Electric utility organizations interested in participating in the Temporary Power Sales Program should notify Southwestern of their interest by providing the information requested in the enclosed Resource Data Form B-2 and/or Resource Data Form L-2 to Southwestern.

DATES: Completed forms (Resource Data Form B-2 and/or Resource Data Form L-2) will be accepted beginning on September 7, 2021 and ending on October 22, 2021.

ADDRESSES: Completed forms and any questions or comments should be submitted to Ms. Fritha Ohlson, Senior Vice President and Chief Operating Officer (COO), Southwestern Power Administration, U.S. Department of Energy, 1 W 3rd St., Suite 1600, Tulsa, Oklahoma 74103.

FOR FURTHER INFORMATION CONTACT: Ms. Fritha Ohlson, Senior Vice President/COO, 918-595-6684 or email: fritha.ohlson@swpa.gov.

SUPPLEMENTARY INFORMATION: Southwestern markets hydroelectric power pursuant to section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s) from 24 multi-purpose reservoir projects operated by the U.S. Army Corps of Engineers. These projects are located in Arkansas, Missouri, Oklahoma, and Texas. The Southwestern marketing area includes these states, plus Kansas and Louisiana.

Program Background

On June 18, 1987, Southwestern implemented its Temporary Power Sales Program, hereinafter referred to as "the Program" (52 FR 23206). The notice implementing the Program is hereinafter referred to as "the 1987 FRN." The Program allows existing Southwestern customers to make all or a portion of their allocated federal hydroelectric power and energy from Southwestern (allocation) available to Southwestern for temporary sale to others in the following priority: (1) Public body and cooperative electric utility systems that are present or potential customers (including joint action agencies and any other public body and/or cooperative electric utility organizations that may be able to distribute the benefits of federal hydroelectric power and energy to said public body and cooperative electric utility systems), and (2) electric utilities other than public body and/or cooperative electric utility systems to be selected if no public body or cooperative electric utility systems are available to purchase such federal hydroelectric power and energy. See 52 FR at 23206 at 23207. Entities participating in the Program are referred to as "loaners" and "borrowers."

In response to the 1987 FRN, Southwestern received nine borrower applications and two loaner applications within the period of notice of the 1987 FRN, which began June 18, 1987 and ended August 31, 1987. Of the applications received, Southwestern made one match between two loaners and one borrower for a total of 0.7 megawatts (MW) for a term to continue on a year-to-year basis until terminated by the loaner, the borrower, or Southwestern. (The match was ultimately dissolved on August 17, 2005.)

On October 14, 1988, Southwestern sent a letter to its customers soliciting additional interest in the Program and indicating Southwestern's intention to maintain electric utility data on a biennial basis, with the lists of loaners and borrowers to be renewed every two years.

In response to the October 14, 1988 letter, Southwestern received two additional borrower applications and no additional loaner applications. Implementation of the Program continued with two internal memoranda to the file, the first dated August 9, 1989, and the second dated January 17, 1992. These memoranda summarized the results of two separate reviews. Both reviews acknowledged minimal interest in the Program but recommended continuing the Program pending the
