FOR FURTHER INFORMATION CONTACT: Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit: <http://www.epa.gov/dockets>.

Abstract: This rule applies to Basic Oxygen Process Furnaces (BOPFs) in iron and steel plants commencing construction, modification or reconstruction after June 11, 1973 and top-blown BOPFs, hot metal transfer stations or skimming stations for which construction, reconstruction, or modification commenced after January 20, 1983. Respondents are required to submit initial notifications, conduct performance tests and report test results for the primary emission control devices, and submit periodic reports. Sources also must develop and implement a startup, shutdown, and malfunction plan (SSMP) and submit semiannual reports of any event where the procedures in the plan were not followed. This information is being collected to assure compliance with 40 CFR part 60, subparts N and Na.

Form Numbers: None.

Respondents/affected entities: Basic oxygen process furnaces (BOPF).

Respondent’s obligation to respond: Mandatory (40 CFR part 60, subparts N and Na).

Estimated number of respondents: 13 (total).

Frequency of response: Semiannually.

Total estimated burden: 4,560 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$562,000 (per year), which includes \$21,600 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is decrease in burden from the most-recently approved ICR. This decrease is due to a decrease in the number of sources. The estimate of 13 respondents in this ICR reflects a decrease in the number of respondents from the prior ICR due to the closing or merger of existing facilities, as confirmed through Agency review of iron and steel facilities in related rulemaking activities. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.

Courtney Kerwin,

Director, Regulatory Support Division.
