

Notices

Federal Register

Vol. 86, No. 172

Thursday, September 9, 2021

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2021–0016]

Notification of Availability of a Pest Risk Analysis for the Importation of Fresh Mango (*Mangifera indica* L.) Fruit From Grenada Into the United States

AGENCY: Animal and Plant Health Inspection Service, Agriculture (USDA).

ACTION: Notice of availability.

SUMMARY: We are advising the public that we have prepared a pest risk analysis that evaluates the risks associated with the importation of fresh mango fruit from Grenada into the United States. Based on the analysis, we have determined that the application of one or more phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh mango fruit from Grenada. We are making the pest risk analysis available to the public for review and comment.

DATES: We will consider all comments that we receive on or before November 8, 2021.

ADDRESSES: We will submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Enter APHIS–2021–0016 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2021–0016, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at www.regulations.gov or in our reading room, which is located

in Room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Mr. Marc E. Phillips, Senior Regulatory Policy Specialist, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737–1236; (301) 851–2114; Marc.Phillips@usda.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of fruits and vegetables that, based on the findings of a pest risk analysis, can safely be imported subject to one or more of the five designated phytosanitary measures listed in paragraph (b) of that section.

APHIS received a request from the national plant protection organization (NPPO) of Grenada to allow the importation of fresh mango fruit (*Mangifera indica* L.) from Grenada into the United States. As part of our evaluation of Grenada’s request, we have prepared a pest risk assessment (PRA) to identify the pests of quarantine significance that could follow the pathway of the importation of fresh mango fruit into the United States from Grenada. Based on the PRA, a commodity import evaluation document (CIED) was prepared to identify phytosanitary measures that could be applied to the fresh mango fruit to mitigate the pest risk.

Therefore, in accordance with § 319.56–4(c)(3), we are announcing the availability of our PRA and CIED for public review and comment. Those documents, as well as a description of the economic considerations associated with the importation of fresh mango fruit from Grenada, may be viewed on

the *Regulations.gov* website or in our reading room (see **ADDRESSES** above for a link to the *Regulations.gov* and information on the location and hours of the reading room). You may request paper copies of the PRA and CIED by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding the import status of fresh mango fruit from Grenada in a subsequent notice. If the overall conclusions of our analysis and the Administrator’s determination of risk remain unchanged following our consideration of the comments, then we will authorize the importation of fresh mango fruit from Grenada into the United States subject to the requirements specified in the CIED.

Authority: 7 U.S.C. 1633, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 2nd day of September, 2021.

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.

Foreign-Trade Zones Board

[S–133–2021]

Foreign-Trade Zone 49—Newark, New Jersey; Application for Subzone; Getinge Group Logistics Americas LLC; Dayton, New Jersey

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the Port Authority of New York and New Jersey, grantee of FTZ 49, requesting subzone status for the facility of Getinge Group Logistics Americas LLC (GGLA), located in Dayton, New Jersey. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on September 2, 2021.

The proposed subzone (3.55 acres) is located at 2349 Route 130, Suite A,

Dayton, New Jersey. No authorization for production activity has been requested at this time. The proposed subzone would be subject to the existing activation limit of FTZ 49.

In accordance with the FTZ Board's regulations, Christopher Kemp of the FTZ Staff is designated examiner to review the application and make recommendations to the Executive Secretary.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is October 19, 2021. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to November 3, 2021.

A copy of the application will be available for public inspection in the "Online FTZ Information Section" section of the FTZ Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Christopher Kemp at Christopher.Kemp@trade.gov.

Dated: September 2, 2021.

Andrew McGilvray,
Executive Secretary.

RIN 0694-XC082

National Defense Stockpile Market Impact Committee Request for Public Comments on the Potential Market Impact of the Proposed Fiscal Year 2023 Annual Materials Plan

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Notice of inquiry; request for comments.

SUMMARY: The purpose of this notice is to request public comments on the potential market impact of the proposed Fiscal Year 2023 National Defense Stockpile Annual Materials Plan (AMP). Potential changes to the AMP are discussed and decided by the National Defense Stockpile Market Impact Committee, co-chaired by the Departments of Commerce and State. The role of this committee is to advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions,

conversions, and disposals involving the National Defense Stockpile and related material research and development projects. Public comments are an important element of the committee's market impact review process.

DATES: To be considered, written comments must be received by October 12, 2021.

ADDRESSES: Address all comments concerning this notice to Eric Longnecker, U.S. Department of Commerce, Bureau of Industry and Security, Office of Strategic Industries and Economic Security, email: MIC@bis.doc.gov; and Matthew McManus, Deputy Director, Office of Policy Analysis and Public Diplomacy, U.S. Department of State, Bureau of Energy Resources, email: McManusMT@state.gov.

FOR FURTHER INFORMATION CONTACT: Marina Youssef, Office of Strategic Industries and Economic Security, Bureau of Industry and Security, U.S. Department of Commerce, telephone: (202) 655-1136, (Attn: Marina Youssef), email: MIC@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the authority of the Strategic and Critical Materials Stock Piling Revision Act of 1979, as amended (the Stock Piling Act) (50 U.S.C. 98 *et seq.*), the Department of Defense's Defense Logistics Agency (DLA), as National Defense Stockpile Manager, maintains a stockpile of strategic and critical materials to supply the military, industrial, and essential civilian needs of the United States for national defense. Section 9(b)(2)(G)(ii) of the Stock Piling Act (50 U.S.C. 98h(b)(2)(H)(ii)) authorizes the National Defense Stockpile Manager to fund material research and development projects to develop new materials for the stockpile.

Section 3314 of the National Defense Authorization Act for Fiscal Year 1993 (FY 1993 NDAA) (50 U.S.C. 98h-1) formally established a Market Impact Committee (the Committee) to "advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions and disposals of materials from the stockpile" The Committee must also balance market impact concerns with the statutory requirement to protect the U.S. Government against avoidable loss. See 50 U.S.C. 98e (b)(2).

The Committee is comprised of representatives from the Departments of Commerce, State, Agriculture, Defense, Energy, Interior, the Treasury, and

Homeland Security, and is co-chaired by the Departments of Commerce and State. The FY 1993 NDAA directs the Committee to consult with industry representatives that produce, process, or consume the types of materials stored in the stockpile.

As the National Defense Stockpile Manager, the DLA must produce an Annual Materials Plan (AMP) proposing the maximum quantity of each listed material that may be acquired, disposed of, upgraded, converted, recovered, or sold by the DLA in a particular fiscal year. In Attachment 1 to this notice, the DLA lists the quantities and types of activity—potential disposals, potential acquisitions, potential conversions (upgrade, rotation, reprocessing, etc.) or potential recovery (from government sources)—associated with each material in its proposed FY 2023 AMP. The quantities listed in Attachment 1 are not acquisition, disposal, upgrade, conversion, recovery, reprocessing, or sales target quantities, but rather a statement of the proposed maximum quantity of each listed material that may be acquired, disposed of, upgraded, converted, recovered, or sold in a particular fiscal year by the DLA. The quantity of each material that will actually be acquired or offered for sale will depend on the market for the material at the time of the acquisition or offering, as well as on the quantity of each material approved by Congress for acquisition, disposal, conversion, or recovery.

The Committee is seeking public comments on the potential market impact associated with the proposed FY 2023 AMP as enumerated in Attachment 1. Public comments are an important element of the Committee's market impact review process.

Submission of Comments

The Committee requests that interested parties provide written comments, supporting data and documentation, and any other relevant information on the potential market impact of the quantities associated with the proposed FY 2023 AMP. All comments must be submitted to the addresses indicated in this notice. All comments submitted through email must include the phrase "Market Impact Committee Notice of Inquiry" in the subject line.

The Committee encourages interested persons who wish to comment to do so at the earliest possible time. The period for submission of comments will close on October 12, 2021. The Committee will consider all comments received before the close of the comment period. Comments received after the comment
