National Defense Stockpile Market Impact Committee Request for Public Comments on the Potential Market Impact of the Proposed Fiscal Year 2023 Annual Materials Plan

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Notice of inquiry; request for comments.

SUMMARY: The purpose of this notice is to request public comments on the potential market impact of the proposed Fiscal Year 2023 National Defense Stockpile Annual Materials Plan (AMP). Potential changes to the AMP are discussed and decided by the National Defense Stockpile Market Impact Committee, co-chaired by the Departments of Commerce and State. The role of this committee is to advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions,

conversions, and disposals involving the National Defense Stockpile and related material research and development projects. Public comments are an important element of the committee's market impact review process.

DATES: To be considered, written comments must be received by October 12, 2021.

ADDRESSES: Address all comments concerning this notice to Eric Longnecker, U.S. Department of Commerce, Bureau of Industry and Security, Office of Strategic Industries and Economic Security, email: MIC@bis.doc.gov; and Matthew McManus, Deputy Director, Office of Policy Analysis and Public Diplomacy, U.S. Department of State, Bureau of Energy Resources, email: McManusMT@state.gov.

FOR FURTHER INFORMATION CONTACT: Marina Youssef, Office of Strategic Industries and Economic Security, Bureau of Industry and Security, U.S. Department of Commerce, telephone: (202) 655-1136, (Attn: Marina Youssef), email: MIC@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the authority of the Strategic and Critical Materials Stock Piling Revision Act of 1979, as amended (the Stock Piling Act) (50 U.S.C. 98 *et seq.*), the Department of Defense's Defense Logistics Agency (DLA), as National Defense Stockpile Manager, maintains a stockpile of strategic and critical materials to supply the military, industrial, and essential civilian needs of the United States for national defense. Section 9(b)(2)(G)(ii) of the Stock Piling Act (50 U.S.C. 98h(b)(2)(H)(ii)) authorizes the National Defense Stockpile Manager to fund material research and development projects to develop new materials for the stockpile.

Section 3314 of the National Defense Authorization Act for Fiscal Year 1993 (FY 1993 NDAA) (50 U.S.C. 98h-1) formally established a Market Impact Committee (the Committee) to "advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions and disposals of materials from the stockpile" The Committee must also balance market impact concerns with the statutory requirement to protect the U.S. Government against avoidable loss. See 50 U.S.C. 98e (b)(2).

The Committee is comprised of representatives from the Departments of Commerce, State, Agriculture, Defense, Energy, Interior, the Treasury, and

Homeland Security, and is co-chaired by the Departments of Commerce and State. The FY 1993 NDAA directs the Committee to consult with industry representatives that produce, process, or consume the types of materials stored in the stockpile.

As the National Defense Stockpile Manager, the DLA must produce an Annual Materials Plan (AMP) proposing the maximum quantity of each listed material that may be acquired, disposed of, upgraded, converted, recovered, or sold by the DLA in a particular fiscal year. In Attachment 1 to this notice, the DLA lists the quantities and types of activity—potential disposals, potential acquisitions, potential conversions (upgrade, rotation, reprocessing, etc.) or potential recovery (from government sources)—associated with each material in its proposed FY 2023 AMP. The quantities listed in Attachment 1 are not acquisition, disposal, upgrade, conversion, recovery, reprocessing, or sales target quantities, but rather a statement of the proposed maximum quantity of each listed material that may be acquired, disposed of, upgraded, converted, recovered, or sold in a particular fiscal year by the DLA. The quantity of each material that will actually be acquired or offered for sale will depend on the market for the material at the time of the acquisition or offering, as well as on the quantity of each material approved by Congress for acquisition, disposal, conversion, or recovery.

The Committee is seeking public comments on the potential market impact associated with the proposed FY 2023 AMP as enumerated in Attachment 1. Public comments are an important element of the Committee's market impact review process.

Submission of Comments

The Committee requests that interested parties provide written comments, supporting data and documentation, and any other relevant information on the potential market impact of the quantities associated with the proposed FY 2023 AMP. All comments must be submitted to the addresses indicated in this notice. All comments submitted through email must include the phrase "Market Impact Committee Notice of Inquiry" in the subject line.

The Committee encourages interested persons who wish to comment to do so at the earliest possible time. The period for submission of comments will close on October 12, 2021. The Committee will consider all comments received before the close of the comment period. Comments received after the comment

period closes will be considered, if possible, but their consideration cannot be assured.

All comments submitted in response to this notice will be made a matter of public record and will be available for public inspection and copying. Any person submitting business confidential information should clearly identify the business confidential portion of the submission and also provide a non-

confidential submission that can be placed in the public record. The Committee will seek to protect such information to the extent permitted by law.

The Office of Administration, Bureau of Industry and Security, U.S. Department of Commerce, displays public comments on the BIS Freedom of Information Act (FOIA) website at <https://efoia.bis.doc.gov/>. This office

does not maintain a separate public inspection facility. If you have technical difficulties accessing this website, please call BIS's Office of Administration at (202) 482-1900 for assistance.

Deputy Assistant Secretary for Export Administration.

Steel Concrete Reinforcing Bar From Mexico: Final Results of Antidumping Duty Administrative Review and Final Determination of No Shipments; 2018–2019**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.**SUMMARY:** The Department of Commerce (Commerce) determines that steel concrete reinforcing bar (rebar) from Mexico was sold in the United States at less than normal value during the period of review (POR), November 1, 2018, through October 31, 2019. In addition, Commerce determines that Ternium Mexico, S.A. de C.V. (Ternium) had no shipments of subject merchandise during the POR.**DATES:** Applicable September 9, 2021.**FOR FURTHER INFORMATION CONTACT:** David Lindgren, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1671.**SUPPLEMENTARY INFORMATION:****Background**

On March 23, 2021, Commerce published the *Preliminary Results*.¹ On April 22, 2021, Commerce received case briefs on behalf of the petitioners² and Deacero S.A.P.I. de C.V. (Deacero). On April 29, 2021, the petitioners and Deacero submitted rebuttal briefs.

Commerce extended the deadline for the final results by 58 days on June 22, 2021.³ The deadline for the final results of this review is now September 17,

2021. For a complete description of the events that occurred since the *Preliminary Results*, see the Issues and Decision Memorandum.⁴

Scope of the Order

The product covered by the order is steel concrete reinforcing bar from Mexico. For a complete description of the scope, see the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs are addressed in the Issues and Decision Memorandum. A list of the issues that parties raised and to which we responded in the Issues and Decision Memorandum is attached to this notice as an Appendix. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>.

Determination of No Shipments

As noted in the *Preliminary Results*, we received a no-shipment claim from Ternium. In the *Preliminary Results*, we preliminarily determined that Ternium had no shipments during the POR. We received no comments from interested parties with respect to this claim. Therefore, we continue to find that Ternium had no shipments during the POR.

Changes Since the Preliminary Results

Based on a review of the record and comments received from interested parties, we: (1) Corrected an error in Commerce's dumping margin programming when calculating the weighted-average dumping margin for

Deacero; (2) used a revised U.S. sales database; (3) updated the date assigned to U.S. sales without a reported payment date; and (4) updated our calculation of the cost of scrap.⁵

Rates for Companies Not Selected for Individual Examination

The statute and Commerce's regulations do not address the establishment of a rate to be applied to individual companies not selected for examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Tariff Act of 1930, as amended (the Act). Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when calculating the rate for companies which we did not examine in an administrative review. Section 735(c)(5)(A) of the Act establishes a preference to avoid using rates which are zero, *de minimis*, or based entirely on facts available (FA) in calculating an all-others rate. Accordingly, Commerce's practice in administrative reviews has been to average the weighted-average dumping margins for the companies selected for individual examination in the annual review, excluding rates that are zero, *de minimis*, or based entirely on FA.⁶ For these final results of review, we calculated a weighted-average dumping margin for Deacero that is above *de minimis* and not based entirely on FA. Therefore, consistent with our practice, we have assigned the companies not selected for individual examination the weighted-average dumping margin calculated for Deacero.

Final Results of the Review

Commerce determines that the following weighted-average dumping margins exist for the period November 1, 2018, through October 31, 2019:
