SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Background: A Federal employee who sustains a work-related injury is entitled to receive compensation under the Federal Employees’ Compensation Act (FECA). If that injury is caused under circumstances that create a legal liability in a third party to pay damages, the FECA authorizes the Secretary of Labor to require the employee to assign his or her right of action to the United States or to prosecute the action in his or her own name. See 5 U.S.C. 8131.

When the employee receives a payment for his or her damages, whether from a final court judgment on or a settlement of the action, section 8132 of the FECA (5 U.S.C. 8132) provides that the employee “shall refund to the United States that amount of compensation paid by the United States. . .” To enforce the United States’ statutory right of reimbursement, the Office of Workers’ Compensation Programs (OWCP) has promulgated regulations. The regulations require a FECA beneficiary to report these types of payments (20 CFR 10.710) and submit the detailed information necessary to calculate the amount of the refund and surplus, if any, according to the formula in the statute (20 CFR 10.707(e)). The information collected by Form CA–1108 and Form CA–1122 from the FECA beneficiary includes this information and is necessary to calculate the amount of the refund and surplus owed to the United States from the FECA beneficiary’s settlement or judgment, as required in the statute and the regulations. This information collection is currently approved for use through February 23, 2022. This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the ADDRESSES section. Written comments will receive consideration, and summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB Number 1240–0001. Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

• Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

• Enhance the quality, utility, and clarity of the information to be collected; and

• Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
