

authorized by the U.S. Department of Education.

(e) If you are a third party representing an authorized user under paragraph (b) of the "Acceptable Use of Systems," you must be issued your own unique User ID, password, or credentials; at no time is a third party authorized to use another individual's unique User ID, password, or credentials. A user may not authorize a third party to use their User ID, password, or credentials, including through a power of attorney.

(f) You are individually responsible for ensuring that data/information obtained from the Department's information systems is not used improperly. A legitimate reason must be present to view data/information contained within the Department's information systems.

(g) You must change your password immediately and notify the appropriate security personnel if your password is compromised, or someone else knows your password.

(h) You must properly encrypt (or password protect) all electronic files when transmitting data via email. Passwords must be sent separately (not in the same transmission or transmission channel).

(i) All paper documents containing PII or Controlled Unclassified Information must be labeled and stored in a secure environment, to which only authorized personnel have access.

(j) You must inform or contact the organization that granted initial access when access to an FSA system is no longer required or access changes because of changes in job responsibilities or termination of employment.

(k) You must remain current on all required training, including security training (at least annually).

(l) You must not download or store the Department's information systems information or data on unsecure/public computers or portable devices.

(m) If you have Title IV loans, they must be in good standing. If you have a loan that goes into default, your access to the Department's information systems will be revoked."

Information Security Standards

In addition to requirements identified in the Terms of Service and Code of Conduct, individuals accessing Department of Education information systems must comply with the following requirements:

(a) A third party accessing the Department's information systems, on behalf of an authorized user, must ensure proper control and handling of

Controlled Unclassified Information (CUI), which includes data commonly known as PII, Sensitive Personally Identifiable Information (SPII) and CUI, residing on their computer, on removable media, and on paper documents.

(b) A third party that handles CUI must do so in accordance with Executive Order 13556, 32 CFR 2002—Controlled Unclassified Information, and the CUI Registry.

(c) The third party must ensure data at rest that contains CUI is encrypted using validated FIPS 140–2 encryption in any and all third-party computing environments where data is housed and/or stored.

(d) The third party must consider data at rest to include data that reside in databases, file systems, information technology systems, applications, personal computers (desktops and laptops and portable electronic devices [PEDs] and mobile electronic devices and personal data assistants [PDAs]) and other structured storage devices (USB flash drives, memory cards, external hard drives, writable CDs, and DVDs) that are not in transit.

(e) The third party must ensure the integrity and confidentiality of the information and protect against any reasonably anticipated security threats or unauthorized uses or disclosures of the information.

If, at any time, CUI is provided to or viewed by unauthorized individual(s), a breach report is required by the third party. A breach report must be submitted to the Department of Education Security Operations Center (EDSOC), email to EDSOC@ed.gov. EDSOC may also be contacted by phone at (202) 245–6550.

A Breach or Data Breach is an incident that includes the loss of control, compromise, unauthorized disclosure, unauthorized acquisition, or any similar occurrence where (1) a person other than an authorized user accesses or potentially accesses PII or (2) an authorized user accesses or potentially accesses PII for an unauthorized purpose OMB M–17–12, p. 9. An occurrence may be first identified as an incident, but later identified as a breach once it is determined that the incident involves PII. Breaches include cyber incidents, as well as the loss or theft of physical documents or portable electronic storage media, inadvertent disclosure of PII on a public website, an oral disclosure to a person not authorized to receive that information, or an authorized user accessing PII for an unauthorized purpose, etc.
