DEPARTMENT OF TRANSPORTATION
Federal Transit Administration

Fiscal Year 2021 Competitive Funding Opportunity; Grants for Buses and Bus Facilities Program

AGENCY: Federal Transit Administration (FTA), Department of Transportation (DOT).

ACTION: Notice of Funding Opportunity (NOFO).

SUMMARY: The Federal Transit Administration (FTA) announces the opportunity to apply for approximately $409.59 million in fiscal year (FY) 2021 funds under the Grants for Buses and Bus Facilities Program (Federal Assistance Listing #20.326). As required by Federal public transportation law and subject to funding availability, funds will be awarded competitively to assist in the financing of capital projects to replace, rehabilitate, purchase or lease buses and related equipment, and to rehabilitate, purchase, construct or lease bus-related facilities. Projects may include costs incidental to the construction of facilities, such as the costs of related workforce development and training activities, and project administration expenses. FTA may award additional funds if they are made available to the program prior to the announcement of project selections.

DATES: Complete proposals must be submitted electronically through the GRANTS.GOV “APPLY” function by 11:59 p.m. Eastern Time on November 19, 2021. Prospective applicants should initiate the process by promptly registering on the GRANTS.GOV website to ensure completion of the application process before the submission deadline. Instructions for applying can be found on FTA’s website at http://transit.dot.gov/howtoapply and in the “FIND” module of GRANTS.GOV. The GRANTS.GOV website will be updated periodically. Grants for Buses and Bus Facilities Program funding opportunity ID is FTA 2021–008–TPM–Bus. Mail and fax submissions will not be accepted.

FOR FURTHER INFORMATION CONTACT: Thomas Wilson, FTA Office of Program Management, 202–366–5279, or thomas.wilson@dot.gov.

H. Other Information

A. Program Description

Federal public transportation law (49 U.S.C. 5339(b)) authorizes FTA to award grants for the Grants for Buses and Bus Facilities Program through a competitive process, as described in this notice. Grants under this program are for capital projects to replace, rehabilitate, purchase, or lease buses and related equipment, or to rehabilitate, purchase, construct, or lease bus-related facilities.

FTA will evaluate projects based on how they will address significant repair and maintenance needs and improve the safety of transit systems through timely and efficient investment in public transportation. FTA may prioritize projects that support FTA’s strategic goals and objectives.

This program supports President Biden’s Build Back Better initiative to mobilize American ingenuity to build a modern infrastructure and an equitable, clean energy future. In addition, this NOFO will advance the goals of the President’s January 27, 2021, Executive Order 14008, Tackling the Climate Crisis at Home and Abroad, and has the potential to enhance environmental stewardship and community partnerships, consistent with the goals of Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government.

B. Federal Award Information

Federal public transportation law (49 U.S.C. 5338(al)(2)(IM)) authorizes $289,044,179 in FY 2021 funds for the Grants for Buses and Bus Facilities Program. The Consolidated Appropriations Act, 2021, appropriated an additional $125,000,000 for the Grants for Buses and Bus Facilities Program. After the mandatory oversight takedown of $4,455,331, FTA is announcing the availability of $409,888,848 for the Grants for Buses and Bus Facilities Program through this notice. In FY 2020, the program received applications for 282 projects requesting a total of $1.8 billion. Ninety-six projects were funded at a total of $464 million.

As required by Federal public transportation law at 49 U.S.C. 5339(b)(5), a minimum of 10 percent of the amount awarded under the Grants for Buses and Bus Facilities Program will be awarded to projects located in rural areas. As required by 49 U.S.C. 5339(b)(8), no single grant recipient will be awarded more than 10 percent of the amount made available. FTA may further cap the amount a single recipient or State may receive as part of the selection process. There is no minimum grant award amount. FTA intends to fund as many meritorious projects as possible.

C. Eligibility Information

1. Eligible Applicants

Eligible applicants include designated recipients that allocate funds to fixed route bus operators, States or local governmental entities that operate fixed route bus service, and Indian tribes. Eligible subrecipients include all otherwise eligible applicants and also private nonprofit organizations engaged in public transportation.

States may submit a statewide application on behalf of public agencies or private nonprofit organizations engaged in public transportation in rural areas or for other areas to which a State allocates funds. Except for projects proposed by Indian tribes, all proposals for projects in rural (non-urbanized) areas must be submitted by a State, either individually or as a part of a statewide application. States and other eligible applicants also may submit consolidated proposals for projects in urbanized areas. The submission of a statewide or consolidated urbanized area application shall not preclude the submission and consideration of any application from other eligible recipients in an urbanized area in a State. Proposals may contain projects to be implemented by the recipient or its subrecipients.

To be considered eligible, applicants must be able to demonstrate the requisite legal, financial, and technical capabilities to receive and administer Federal funds under this program.

2. Cost Sharing or Matching

The maximum Federal share for projects selected under the Grants for Buses and Bus Facilities Program is 80 percent of the net project cost (i.e., the non-Federal amount must be at least 20 percent of the net project cost, not 20 percent of the requested grant amount), unless any of the following exceptions applies:

The maximum Federal share is 85 percent of the net project cost of
acquiring vehicles (including clean-fuel or alternative fuel vehicles) for purposes of complying with or maintaining compliance with the Clean Air Act (CAA) or the Americans with Disabilities Act (ADA) of 1990.

The maximum Federal share is 90 percent of the net project cost of acquiring, installing or constructing vehicle-related equipment or facilities (including clean fuel or alternative-fuel vehicle-related equipment or facilities) for purposes of complying with or maintaining compliance with the CAA or ADA. The award recipient must itemize the cost of specific, discrete, vehicle-related equipment associated with compliance with the CAA or ADA to be eligible for the maximum 90 percent Federal share for these costs.

Eligible sources of non-Federal match include the following: Cash from non-Government sources other than revenues from providing public transportation services; revenues derived from the sale of advertising and concessions; amounts received under a service agreement with a State or local social service agency or private social service organization; revenues generated from capturing mechanisms; or funds from an undistributed cash surplus, replacement or depreciation fund or reserve, or new capital. In addition, transportation development credits or documentation of in-kind match may substitute for cash match if identified in the application.

If an applicant proposes a Federal share greater than 80 percent, the applicant must clearly explain why the project is eligible for the proposed Federal share.

3. Eligible Projects

Eligible projects are capital projects to replace, rehabilitate, purchase, or lease buses, vans, or related equipment; or to rehabilitate, purchase, construct, or lease bus-related facilities. A single application may include both vehicle and facility components, along with associated equipment and workforce development activities.

Recipients are permitted to use up to 0.5 percent of their requested grant award for workforce development activities eligible under Federal public transportation law (49 U.S.C. 5314(b)) and an additional 0.5 percent for costs associated with training at the National Transit Institute to pay not more than 80 percent of the cost of such activities (49 U.S.C. 5314(b)(4) and 49 U.S.C. 5314(c)(4)(A)). Applicants must identify the proposed use of funds for these activities in the project proposal and identify them separately in the project budget.

D. Application and Submission Information

1. Address To Request Application Package

A complete proposal submission consists of two forms: The SF–424 Application for Federal Assistance (downloaded from GRANTS.GOV) and the supplemental form for the FY 2021 Grants for Buses and Bus Facilities Program (downloaded from GRANTS.GOV or the FTA website at www.transit.dot.gov/busprogram).

2. Content and Form of Application Submission

Application submissions must include both the SF–424 Application for Federal Assistance and the FY 2021 Grants for Buses and Bus Facilities Program supplemental form. The supplemental form and any supporting documents must be attached to the “Attachments” section of the SF–424. FTA will accept only one supplemental form per SF–424 submission. FTA encourages States and other applicants to consider submitting a single supplemental form that includes multiple activities to be evaluated as a consolidated proposal. If a State or other applicant chooses to submit separate proposals for individual consideration by FTA, each proposal must be submitted using a separate SF–424 and supplemental form.

Applicants may attach additional supporting information to the SF–424 submission, including but not limited to letters of support, project budgets, fleet status reports, or excerpts from relevant planning documents. Supporting documentation must be described and referenced by file name in the appropriate response section of the supplemental form, or it may not be reviewed.

A complete application must include responses to all sections of the SF–424 Application for Federal Assistance and the supplemental form, unless designated as optional. The information on the supplemental form will be used to determine applicant and project eligibility for the program, and to evaluate the proposal against the selection criteria described in part E of this notice. Information such as applicant name, Federal amount requested, local match amount, and description of areas served may be requested in varying degrees of detail on both the SF–424 and the supplemental form. Applicants must fill in all fields unless stated otherwise on the forms. Applicants should not place “N/A” or “refer to attachment” in lieu of typing in responses in the field sections. If information is copied into the supplemental form from another source, applicants should verify that pasted text is fully captured on the supplemental form and has not been truncated by the character limits built into the form. Applicants should use both the “Check Package for Errors” and the “Validate Form” validation buttons on both forms to check all required fields on the forms, and ensure that the Federal and non-Federal amounts specified are consistent.

The SF–424 Mandatory Form and the Supplemental Form will prompt applicants for information including:

- Applicant name
- Unique Entity Identifier/Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number
- Key contact information (including contact name, address, email address, and phone)
- A description, both quantitative and qualitative, of the area and population served by the applicant, including ridership demographic information and the type of service provided
- Congressional district(s) where project will take place
- Project information (including title, an executive summary, and type)
- A detailed description of the need for the project
- A detailed description on how the project will support the Buses and Bus Facilities Program’s objectives
- Evidence that the project is consistent with local and regional planning objectives
- Evidence that the applicant can provide the local cost share
- A description of the technical, legal and financial capacity of the applicant
- A detailed project budget
- An explanation of the scalability of the project
- Details on the local matching funds
- A detailed project timeline
- Failure to submit the information as requested can delay review or disqualify the application.

3. Unique Entity Identifier and System for Award Management (SAM)

Each applicant is required to: (1) Be registered in SAM before submitting an application; (2) provide a valid unique entity identifier in its application; and (3) continue to maintain an active SAM registration with current information at all times during which the applicant has an active Federal award or an application or plan under consideration by FTA. FTA may not make an award until the applicant has complied with all applicable unique entity identifier and SAM requirements. If an applicant
has not fully complied with the requirements by the time FTA is ready to make an award, FTA may determine that the applicant is not qualified to receive an award and use that determination as a basis for making a Federal award to another applicant. These requirements do not apply if the applicant: (1) Is an individual, per 2 CFR 25.110(b); or (2) has an exception approved by FTA or the U.S. Office of Management and Budget under 2 CFR 25.110(c) or (d). SAM registration takes approximately 3–5 business days, but FTA recommends allowing ample time, up to several weeks, for completion of all steps. For additional information on obtaining a unique entity identifier, please visit www.sam.gov.

4. Submission Dates and Times

Project proposals must be submitted electronically through GRANTS.GOV by 11:59 p.m. Eastern on November 19, 2021. Mail and fax submissions will not be accepted.

FTA urges applicants to submit applications at least 72 hours prior to the due date to allow time to correct any problems that may have caused either GRANTS.GOV or FTA systems to reject the submission. Proposals submitted after the deadline will be considered only under extraordinary circumstances not under the applicant’s control. Deadlines will not be extended due to scheduled website maintenance.

GRANTS.GOV scheduled maintenance and outage times are announced on the GRANTS.GOV website.

Within 48 hours after submitting an electronic application, the applicant should receive an email message from GRANTS.GOV with confirmation of successful transmission to GRANTS.GOV. If a notice of failed validation or incomplete materials is received, the applicant must address the reason for the failed validation, as described in the email notice, and resubmit before the submission deadline. If making a resubmission for any reason, applicants must include all original attachments regardless of which attachments were updated and check the box on the supplemental form indicating this is a resubmission.

Applicants are encouraged to begin the process of registration on the GRANTS.GOV site well in advance of the submission deadline. Registration is a multi-step process, which may take several weeks to complete before an application can be submitted. Registered applicants may still be required to take steps to keep their registration up to date before submissions can be made successfully: (1) Registration in the System for Award Management (SAM) is renewed annually; and, (2) persons making submissions on behalf of the Authorized Organization Representative (AOR) must be authorized in GRANTS.GOV by the AOR to make submissions.

5. Funding Restrictions

Refer to Section C.3., Eligible Projects, for information on activities that are allowable in this grant program. Allowable direct and indirect expenses must be consistent with the Governmentwide Uniform Administrative Requirements and Cost Principles (2 CFR part 200) and FTA Circular 5010.1E.

Funds awarded under this notice cannot be used to reimburse applicants for expenses incurred prior to the pre-award authority effective date. FTA will issue pre-award authority to incur costs for selected projects beginning on the date that project selections are announced. FTA does not provide pre-award authority for competitive funds until projects are selected, and even then there are Federal requirements that must be met before costs are incurred. FTA will issue specific guidance to awardees regarding pre-award authority at the time of selection. For more information about FTA’s policy on pre-award authority, please see the most recent Apportionment Notice on FTA’s website.

Funds awarded under this notice will remain available for obligation for three Federal fiscal years, not including the year in which the funds are allocated to projects.

6. Other Submission Requirements

All applications must be submitted via the Grants.Gov website. FTA does not accept applications on paper, by fax machine, by email, or other means. For information on application submission requirements, please see Section D.1., Address to Request Application Package.

E. Application Review Information

1. Criteria

FTA will evaluate project proposals for the Grants for Buses and Bus Facilities Program based on the criteria described in this notice. Projects will be evaluated primarily on the responses provided in the supplemental form. Additional information may be provided to support the responses; however, any additional documentation must be directly referenced on the supplemental form, including the file name where the additional information can be found.

Applicants are encouraged to identify scaled funding options in case insufficient funding is available to fund a project at the full requested amount. If an applicant indicates that a project is scalable, the applicant must provide an appropriate minimum funding amount that will fund an eligible project that achieves the objectives of the program and meets all relevant program requirements. The applicant must provide a clear explanation of how the project budget would be affected by a reduced award. FTA may award a lesser amount whether or not a scalable option is provided.

If an applicant is proposing to acquire autonomous vehicles or other innovative motor vehicle technology, the application should demonstrate that all vehicles will comply with applicable safety requirements, including those administered by the National Highway Traffic Safety Administration (NHTSA) and Federal Motor Carrier Safety Administration (FMCSA). Specifically, the application should show that vehicles acquired will comply with applicable Federal Motor Vehicle Safety Standards (FMVSS) and Federal Motor Carrier Safety Regulations (FMCSR). If the vehicles may not comply, the application should either (1) show that the vehicles and their proposed operations are within the scope of an exemption or waiver that has already been granted by NHTSA, FMCSA, or both agencies or (2) directly address whether the acquisition will require exemptions or waivers from the FMVSS, FMCSR, or any other regulation and, if the acquisition will require exemptions or waivers, present a plan for obtaining them.

a. Demonstration of Need

Applications will be evaluated based on the quality and extent to which they demonstrate how the proposed project will address an unmet need for capital investment in bus vehicles or supporting facilities. For example, an applicant may demonstrate an excessive reliance on vehicles that are beyond their intended service life, insufficient maintenance facilities due to size or condition, a vehicle fleet that is insufficient to meet current ridership demands, or passenger facilities that are insufficient for their current use. Applicants should address whether the project represents a one-time or periodic need that cannot reasonably be funded from FTA formula program allocations and State or local resources. As a part of the response for demonstration of need, applicants should provide the following information.

For bus projects (replacement, rehabilitation or expansion): Applicants must provide information on the age
and mileage, condition, and performance of the assets to be replaced or rehabilitated by the proposed project. For service expansion requests, applicants must provide information on the proposed service expansion and for the reason that transit riders and the community need the new service. For all vehicle projects, the proposal must address how the project conforms to FTA’s spare ratio guidelines.

For bus facility and equipment projects (replacement, rehabilitation, or expansion): Applicants must provide information on the age and condition of the asset to be rehabilitated or replaced relative to its useful life. For expansion requests, applicants must provide information on the proposed expansion and the reason that transit riders and the community need the expansion.

b. Demonstration of Benefits

Applications will be evaluated based on how well they describe how the proposed project will improve the condition of, or otherwise modernize, the transit system; improve the reliability of transit service for its riders; or enhance access and mobility within the service area.

System Condition: FTA will evaluate the potential for the project to improve the condition of the transit system by repairing or replacing assets that are in poor condition or have surpassed their minimum or intended useful life benchmarks, lowering the average age of vehicles in the fleet, or reducing the cost of maintaining outdated vehicles, facilities, and equipment.

Service Reliability: FTA will evaluate the potential for the project to reduce the frequency of breakdowns or other service interruptions caused by the age and condition of the agency’s bus fleet. Applicants should document their current service reliability metrics and benchmark goals, including their strategy for improving reliability with or without the award of Bus and Bus Facilities Program funds.

Enhanced Access and Mobility: FTA will evaluate the potential for the project to improve access and mobility for the transit riding public, such as through increased reliability, improved headways, creation of new transportation choices, or eliminating gaps in the current route network. Proposed benefits should be based on documented ridership demand and be well-described or documented through a study or route planning proposal.

c. Planning and Local and Regional Prioritization

Applicants must demonstrate how the proposed project will be consistent with local and regional long-range planning documents and local government priorities. This will involve assessing whether the project is consistent with the transit priorities identified in the long range plan, contingency or illustrative projects included in that plan, or the locally developed human services public transportation coordinated plan. Applicants are not required to submit copies of such plans, but should describe how the project will support regional goals.

Poplicants may also address how the proposed project will impact overall system performance, asset management performance or specific performance measures tracked and monitored by the applying entity to demonstrate how the proposed project will address local and regional planning priorities.

Evidence of additional local or regional prioritization (e.g., Statewide Transportation Improvement Plan and Long Range Transportation Plan) should include letters of support for the project from local government officials, public agencies, Metropolitan Planning Organizations, or non-profit or other private sector partners.

d. Financial Commitment

Applicants must identify the source of the non-Federal cost share and describe whether such funds are currently available for the project or will need to be secured if the project is selected for funding. FTA will consider the availability of the non-Federal cost share as evidence of financial commitment to the project. Additional consideration will be given to those projects for which non-Federal funds have already been made available or reserved. Applicants should submit evidence of the availability of funds for the project, for example by including a board resolution, letter of support from the State, a budget document highlighting the line item or section committing funds to the proposed project, or other documentation of the source of non-Federal funds.

e. Project Implementation Strategy

Projects will be evaluated based on the extent to which the project is ready to implement within a reasonable period of time and whether the applicant’s proposed implementation plans are reasonable and complete. In assessing whether the project is ready to implement within a reasonable period of time, FTA will consider whether the project qualifies for a categorical exclusion, or whether the required environmental work has been initiated or completed for projects that require an environmental assessment or environmental impact statement under the National Environmental Policy Act of 1969 (NEPA). As such, applicants should submit information describing the project’s anticipated path and timeline through the environmental review process.

The proposal must also state whether grant funds can be obligated within 12 months from time of award, and indicate the timeframe under which the Metropolitan Transportation Improvement Program or Statewide Transportation Improvement Program can be amended to include the proposed project. Additional consideration will be given to projects for which grant funds can be obligated within 12 months of the time of award.

In assessing whether the proposed implementation plans are reasonable and complete, FTA will review the proposed project implementation plan, including all necessary project milestones and the overall project timeline. For projects that will require formal coordination, approvals, or permits from other agencies or project partners, the applicant must demonstrate coordination with these organizations and their support for the project, such as through letters of support.

f. Technical, Legal, and Financial Capacity

Applicants must demonstrate that they have the technical, legal, and financial capacity to undertake the project. FTA will review relevant oversight assessments and records to determine whether there are any outstanding legal, technical or financial issues with the applicant that would affect the outcome of the proposed project. Applicants with outstanding legal, technical or financial compliance issues from an FTA compliance review or Federal Transit grant-related Single Audit finding must explain how corrective actions taken will mitigate negative impacts on the proposed project.

2. Review and Selection Process

In addition to other FTA staff that may review the proposals, a technical evaluation committee will perform an administrative and merit evaluation of proposals based on the published evaluation criteria. Members of the technical evaluation committee and other FTA staff may request additional information from applicants, if necessary.

After applying the above criteria, and in support of Executive Order 14008, FTA will give priority consideration to projects that support the government-
wide Justice40 Initiative with the goal of delivering 40 percent of the overall benefits of relevant Federal investments to disadvantaged communities. For the purposes of the Justice40 Initiative, a community is either a group of individuals living in geographic proximity to one another, or a geographically dispersed set of individuals (such as migrant workers or Native Americans), where either type of group experiences common conditions. Furthermore, to determine whether a specific community is disadvantaged, factors include, but are not limited to, the following variables: Low income, high and/or persistent poverty; high unemployment and underemployment; racial and ethnic segregation; linguistic isolation; high housing cost burden and substandard housing; distressed neighborhoods; high transportation cost burden and/or low transportation access; transit dependency associated with income, disability, or lack of access to a private automobile; disproportionate environmental burden and high cumulative impacts; limited water and sanitation access and affordability; disproportionate climate impacts; and high energy cost burden and low energy access. If a project supports the Justice40 Initiative, the applicant should state the community definition used, including ridership demographic information relevant to the Justice40 definition of disadvantaged community, the variable(s) considered, and what immediate and long-term benefits will be provided by the project request. In support of the Justice40 Initiative, the applicant also should provide evidence of strategies that the applicant has used in the planning process to seek out and consider the needs of those traditionally disadvantaged and underserved by existing transportation systems, such as low-income and minority households. Examples should include, the number of meetings held, including a description of the audience of each meeting and documentation for how the input was considered for the proposed project. Applicants are encouraged to contact FTA if they have any questions or feedback on the implementation of the Justice40 Initiative.

In further support of Executive Order 14008, FTA will give priority consideration to applications that are expected to create significant community benefits relating to the environment, including those projects that incorporate low or no emission technologies or specific elements to address greenhouse gas emissions and climate change impacts. FTA encourages applicants to demonstrate whether they have considered climate change and environmental justice in terms of the transportation planning process or anticipated design components with outcomes that address climate change (e.g., resilience or adaptation measures). The application should describe what specific climate change or environmental justice activities have been incorporated, including whether a project supports a Climate Action Plan, whether an equitable development plan has been prepared, and whether tools such as EPA’s EJSCREEN have been applied in project planning. The application should also describe specific and direct ways the project will mitigate or reduce climate change impacts including any components that reduce emissions, promote energy efficiency, incorporate electrification or low emission or zero emission vehicle infrastructure, increase resiliency, or recycle or redevelop existing infrastructure.

FTA also will give priority consideration to applications that encourage racial equity in two areas; (1) Planning and policies related to racial equity and overcoming barriers to opportunity; and (2) project investments that either proactively address racial equity and barriers to opportunity including automobile dependence as a form of barrier, or redress prior inequities and barriers to opportunity. This objective has the potential to enhance environmental stewardship and community partnerships, and reflects Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government.

FTA encourages the applicant to include sufficient information to evaluate how the applicant will advance racial equity and address barriers to opportunity. The applicant should describe any transportation plans or policies related to racial equity and barriers to opportunity they are implementing or have implemented in relation to the proposed project, along with the specific project investment details necessary for FTA to evaluate if the investments are being made either proactively to advance racial equity and address barriers to opportunity or redress prior inequities and barriers to opportunity. All project investment costs for the project that are related to racial equity and barriers to opportunity should be summarized.

In determining the allocation of program funds, FTA may consider geographic diversity, diversity in the size of the transit systems receiving funding, and the applicant’s receipt of other competitive awards. Due to funding limitations, projects that are selected for funding may receive less than the amount originally requested, even if an application did not present a scaled project option. In those cases, applicants must be able to demonstrate that the proposed projects are still viable and can be completed with the amount awarded.

3. Integrity and Performance Review

Prior to making an award, FTA is required to review and consider any information about the applicant that is in the Federal Awardee Performance and Integrity Information Systems (FAPIIS) accessible through SAM. An applicant may review and comment on information about itself that a Federal awarding agency previously entered. FTA will consider any comments by the applicant, in addition to the other information in FAPIIS, in making a judgment about the applicant’s integrity, business ethics, and record of performance under Federal awards when completing the review of risk posed by applicants as described in 2 CFR 200.206.

F. Federal Award Administration Information

1. Federal Award Notice

Final project selections will be posted on the FTA website. FTA will also publish a list of the selected projects, a summary of final ratings for selected projects, Federal award amounts, and recipients in the Federal Register. Selected recipients should contact their FTA regional offices for additional information regarding allocations for projects under the Grants for Buses and Bus Facilities Program.

2. Administrative and National Policy Requirements

a. Grant Requirements

If selected, awardees will apply for a grant through FTA’s Transit Award Management System (TrAMS). Recipients of Grants for Buses and Bus Facilities Program funding in urban areas are subject to the grant requirements of the Urbanized Area Formula Grant program (49 U.S.C. 5307), including those of FTA Circular “Urbanized Area Formula Program: Program Guidance and Application Instructions” (FTA.C.9030.1E). Recipients of funding in rural areas are subject to the grant requirements of the Formula Grants for Rural Areas Program (49 U.S.C. 5311), including those of FTA Circular “Formula Grants for Rural Areas: Program Guidance and
Application Instructions” (FTA.C.9040.1G). All recipients must accept the FTA Master Agreement and follow FTA Circular “Award Management Requirements” (FTA.C.5010.1E) and the labor protections required by Federal public transportation law (49 U.S.C. 5333(b)). Technical assistance regarding these requirements is available from each FTA regional office.

By submitting a grant application, the applicant assures that it will comply with all applicable Federal statutes, regulations, executive orders, directives, FTA circulars and other Federal administrative requirements in carrying out any project supported by the FTA grant. Further, the applicant acknowledges that it is under a continuing obligation to comply with the terms and conditions of the grant agreement issued for its project with FTA. The applicant understands that Federal laws, regulations, policies and administrative practices might be modified from time to time and may affect the implementation of the project. The applicant agrees that the most recent Federal requirements will apply to the project, unless FTA issues a written determination otherwise. The applicant must submit the Certifications and Assurances before receiving a grant, if it does not have current certifications on file.

b. Buy America and Domestic Preferences for Infrastructure Projects

All capital procurements must comply with FTA’s Buy America requirements (49 U.S.C. 5323(j)), which require that all iron, steel, and manufactured products be produced in the United States, and imposes minimum domestic content and final assembly requirements for rolling stock. The cost of components and subcomponents produced in the United States must be more than 70 percent of the cost of all components, and final assembly of rolling stock must occur in the United States. Any proposal that will require a waiver must identify the items for which a waiver will be sought in the application. Applicants should not proceed with the expectation that waivers will be granted.

c. Disadvantaged Business Enterprise

Recipients of planning, capital, or operating assistance that will award prime contracts (excluding transit vehicle purchases), the cumulative total of which exceeds $250,000 in FTA funds in a Federal fiscal year, must comply with the Disadvantaged Business Enterprise (DBE) program regulations (49 CFR part 26).

To be eligible to bid on any FTA-assisted vehicle procurement, entities that manufacture transit vehicles or perform post-production alterations or retrofitting must be certified Transit Vehicle Manufacturers (TVM). If a vehicle remanufacturer is responding to a solicitation for new or remanufactured vehicles with a vehicle to which the remanufacturer has provided post-production alterations or retrofitting (e.g., replacing major components such as engine to provide a “like new” vehicle), the vehicle remanufacturer must be a certified TVM.

The TVM rule requires that, prior to bidding on any FTA-assisted vehicle procurement, manufacturers of transit vehicles submit a DBE Program plan and annual goal methodology to FTA. FTA then will issue a TVM concurrence and certification letter. Grant recipients must verify each manufacturer’s compliance with these requirements before accepting its bid. A list of compliant, certified TVMs is posted on FTA’s website at www.transit.dot.gov/TVM. Recipients should contact FTA before accepting a bid from a manufacturer not listed on this Web posting. In lieu of using a certified TVM, a recipient may establish project-specific DBE goals for its vehicle procurement. FTA will provide additional guidance as grants are awarded. For more information on DBE requirements, please contact Monica McCallum, Office of Civil Rights, 206−220−7519, email: Monica.McCallum@dot.gov.

d. Planning

FTA encourages applicants to notify the appropriate State Departments of Transportation and Metropolitan Planning Organizations (MPOs) in areas likely to be served by the project funds made available under this program. Selected projects must be incorporated into the long-range plans and transportation improvement programs of States and metropolitan areas before they are eligible for FTA funding.

3. Reporting

Post-award reporting requirements include the electronic submission of Federal Financial Reports and Milestone Progress Reports in FTA’s electronic grants management system. Recipients of funds made available through this NOFO are also required to regularly submit data to the National Transit Database. Applicant should include any goals, targets, and indicators referenced in their application to the project in the Executive Summary of the TRAMS application.

As part of completing the annual certifications and assurances required of FTA grant recipients, a successful applicant must report on the suspension or debarment status of itself and its principals.

If the award recipient’s active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds $10,000,000 for any period of time during the period of performance of an award made pursuant to this Notice, the recipient must maintain the currency of information reported to the System for Award Management (SAM) that is made available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)) about civil, criminal, or administrative proceedings in connection with the award or performance of a grant, cooperative agreement, or procurement contract from the Federal Government. See Appendix XII to 2 CFR part 200 for more information.

G. Federal Awarding Agency Contacts

For further information concerning this notice, please contact the Grants for Buses and Bus Facilities Program manager, Thomas Wilson, via email at Thomas.wilson@dot.gov or by phone at 202−366−5279. A TDD is available for individuals who are deaf or hard of hearing at 800−877−8339. In addition, FTA will post answers to questions and requests for clarifications on FTA’s website at http://transit.dot.gov/busprogram. In support of the President’s Justice40 Initiative, FTA staff will also conduct a webinar for potential applicants to learn more about the program, provide stakeholder engagement, and review the application submittal process. All interested stakeholders with questions regarding the implementation of the Justice40 Initiative in the Grants for Buses and Bus Facilities Competitive Program are encouraged to contact Thomas Wilson.

To ensure the receipt of accurate information about eligibility or the program, applicants with questions are encouraged to contact FTA directly, rather than through intermediaries or third parties.

H. Other Information

This program is not subject to Executive Order 12372, “Intergovernmental Review of Federal Programs.”

Nuria I. Fernandez,
Administrator.
