BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

Patent and Trademark Office

[Docket No. PTO–P–2021–0049]

Grant of Interim Extension of the Term of U.S. Patent No. 7,259,184; Vernakalant Hydrochloride

AGENCY: United States Patent and Trademark Office, Department of Commerce.

ACTION: Notice of interim patent term extension.

SUMMARY: The United States Patent and Trademark Office has issued an order granting a one-year interim extension of the term of U.S. Patent No. 7,259,184 ('184 patent).

FOR FURTHER INFORMATION CONTACT: Ali Salimi, Senior Legal Advisor, Office of Patent Legal Administration, by telephone at 571–272–0909 or by email to *ali.salimi@uspto.gov.*

SUPPLEMENTARY INFORMATION: 35 U.S.C. 156 generally provides that the term of a patent may be extended for a period of up to five years, if the patent claims a product, or a method of making or using a product, that has been subject to certain defined regulatory review. 35 U.S.C. 156(d)(5) generally provides that the term of such a patent may be extended for no more than five interim periods of up to one year each, if the approval phase of the regulatory review period is reasonably expected to extend beyond the expiration date of the patent.

On July 14, 2020, Correvio International Sàrl, the owner of record of the '184 patent, timely filed an application under 35 U.S.C. 156(d)(5) for an interim extension of the term of the '184 patent. The '184 patent claims a method of using the product vernakalant hydrochloride. The application for interim patent term extension indicates that New Drug Application No. 22–034 for vernakalant hydrochloride was submitted to the Food and Drug Administration (FDA) on December 19, 2006, and that the FDA's review thereof is ongoing.

Review of the interim patent term extension application indicates that, except for permission to market or use the product commercially, the '184 patent would be eligible for an extension of the patent term under 35 U.S.C. 156. Because it appears the approval phase of the regulatory review period will continue beyond the extended expiration date of the patent, *i.e.,* October 6, 2021, interim extension of the '184 patent's term under 35 U.S.C. 156(d)(5) is appropriate.

An interim extension under 35 U.S.C. 156(d)(5) of the term of U.S. Patent No. 7,259,184 is granted for a period of one year from the extended expiration date of the '184 patent.

Robert Bahr,

Deputy Commissioner for Patents, United States Patent and Trademark Office.
