employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132. Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a safety zone that will prohibit entry within 500 yards of tugs and barges used to work, inspect, survey and remove/replace cables in the Straits of Mackinac. It is categorically excluded from further review under paragraph L[60(a)] of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the ADDRESSES section of this preamble.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the FOR FURTHER INFORMATION CONTACT section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

Treatment of Regulations on Hazardous, Restricted, and Perishable Mail

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service amends certain regulations to clarify the regulatory treatment of Publication 52, Hazardous, Restricted, and Perishable Mail.

DATES: This rule is effective September 27, 2021.

FOR FURTHER INFORMATION CONTACT: Dale E. Kennedy, Director, Product Classification, at 202–268–6592.

SUPPLEMENTARY INFORMATION: The Postal Service has long maintained regulations on hazardous, restricted, and perishable mail. For many years, those regulations were located in Mailing Standards of the United States Postal Service, Domestic Mail Manual (“DDM”). The DMM is a regulation of the Postal Service, 39 CFR 211.2(a)(2). Annual editions of the DMM are incorporated by reference into 39 CFR 111.1. As explained in Postal Service regulations, interim regulations are published in the DMM pending the next volume’s incorporation into the Code of Federal Regulations, and changes to the DMM are announced in
the Federal Register. 39 CFR 111.3. As an additional reference, the Postal Service developed Publication 52, Hazardous, Restricted, and Perishable Mail.

On July 28, 2014, as part of a continuing initiative to reduce the size of the DMM, the Postal Service removed from that publication the detailed mailing standards relating to hazardous, restricted, and perishable materials. In place of these detailed provisions, revised DMM 601.8.0 advised that mailing standards specific to hazardous, restricted, and perishable mail would be incorporated into Publication 52, and could be found on the Postal Explorer website at pe.usps.com. The Postal Service subsequently promulgated new regulations incorporating an edition of Publication 52 by reference into 39 CFR 113.2. See 83 FR 1189 (2018).

The Postal Service, in consultation with the Office of the Federal Register, has determined that clarification of the status of Publication 52 would be helpful in order to ensure that changes to Publication 52 are comprehensively noticed in the Federal Register. To that end, the Postal Service hereby makes certain changes to its rules.

First, DMM section 601.8.1 is amended to clarify that the substantive mailability rules in Publication 52, as in effect and available on the Postal Service’s website at any given time, are incorporated by reference into that DMM section.

Second, 39 CFR 211.2(a) will be amended to clarify that Publication 52 contains regulations of the Postal Service. In connection with this change, language in 39 CFR 211.2(a) regarding publication in the Federal Register and Code of Federal Regulations will be moved to more clearly express the intent that any regulations of the Postal Service may, where appropriate, be published in those outlets. Moreover, 39 CFR 211.2(a)(3) is expanded somewhat to clarify that Publications and Memoranda of Policy may also qualify as regulations, and that status as regulations depends not on the formal designation of a document, but on its statement of binding rules of future effect beyond those stated elsewhere in Postal Service regulations.

Third, 39 CFR part 113, which includes the incorporation by reference of Publication 52 (39 CFR 113.2), is removed. The temporary rules in 39 CFR 113.3 regarding COVID–19 related Category B infectious substances are duplicative of rules in Publication 52, and so it is unnecessary to maintain such rules in the Code of Federal Regulations. Compare 85 FR 23745 with Postal Bulletin 22544 (Apr. 23, 2020), at 6–7 (amending Publication 52 appendix C, USPS Packaging Instruction 6C).
