App. 2, to provide advice and recommendations to EPA on innovative approaches to funding environmental programs, projects, and activities. Pursuant to FACA and EPA policy, notice is hereby given that the EFAB

will hold a virtual public meeting via webcast for the following purposes:

(1) Provide EFAB workgroup updates to the Board regarding work products related to the Opportunity Zones charge the Board accepted during its October 2020 meeting;

(2) Discuss potential future EFAB charges including Stormwater Credit Trading, Environmental Risk and Cost of Capital, Financing Small Manufacturer Pollution Prevention Projects, and others; and

(3) Receive briefings from invited EPA speakers on environmental finance topics.

Registration for the Meeting: To register for the meeting, please visit <https://www.epa.gov/waterfinancecenter/efab#meeting>. Interested persons who wish to attend the meeting via webcast must register by October 5, 2021. Pre-registration is strongly encouraged.

Availability of Meeting Materials: Meeting materials, including the meeting agenda and briefing materials, will be available on EPA's website at <https://www.epa.gov/waterfinancecenter/efab>.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees provide independent advice to EPA. Members of the public may submit comments on matters being considered by the EFAB for consideration as the Board develops its advice and recommendations to EPA.

Oral Statements: In general, individuals or groups requesting an oral presentation at a virtual public meeting will be limited to three minutes each. Written statements should be sent via email to efab@epa.gov. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the EFAB website.

Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities or to request accommodations for a disability, please register for the meeting and list any special requirements or accommodations needed on the registration form at least 10 business days prior to the meeting to allow as much time as possible to process your request.

Abstract: The Resource Conservation and Recovery Act (RCRA) requires EPA to establish a national regulatory program to ensure that hazardous wastes are managed in a manner protective of human health and the environment. Under this program, EPA regulates newly generated hazardous wastes, as well as hazardous remediation wastes (i.e., hazardous wastes managed during cleanup). Hazardous remediation waste management sites must comply with all parts of 40 CFR part 264 except subparts B, C, and D. In place of these requirements, they need to comply with performance standards based on the general requirement goals in these sections, which are codified at 40 CFR 264.1(j).

Under 40 CFR 264.1(j), owners/operators of remediation waste management sites must develop and maintain procedures to prevent accidents. These procedures must address proper design, construction, maintenance, and operation of hazardous remediation waste management units at the site. In addition, owners/operators must develop and maintain a contingency and emergency plan to control accidents that occur. The plan must explain specifically how to treat, store, and dispose of the hazardous remediation waste in question, and must be implemented immediately whenever fire, explosion, or release of hazardous waste or hazardous waste constituents that could threaten human health or the environment. In addition, the Remedial Action Plan streamlines the permitting process for remediation waste management sites to allow cleanups to take place more quickly.
