C. Purpose of the Public Meeting

The EPA will host virtual public meetings to discuss how to increase adoption of electronic manifests and solicit feedback from stakeholders.

EPA launched the e-Manifest system on June 30, 2018. e-Manifest provides those persons required to use a Resource Conservation and Recovery Act (RCRA) manifest under either federal or state law the option of using electronic manifests to track shipments of hazardous waste and to meet certain RCRA requirements. By enabling the transition from a paper-intensive process to an electronic system, EPA estimates e-Manifest will ultimately save state and industry users more than \$50 million annually, once electronic manifests are widely adopted.

Since system inception through August 31, 2021, EPA has received

roughly eighteen thousand electronic manifests (both fully electronic and hybrid manifests) out of a total of approximately six million manifests. Electronic manifests thus represent less than a half of a percent of manifests received by EPA. EPA seeks to dramatically increase this percentage. In June 2019, EPA consulted the Hazardous Waste Electronic Manifest System Advisory Board (e-Manifest Advisory Board) to better understand the barriers to using electronic manifests and to identify actions the Agency can take to improve implementation.¹ The e-Manifest Advisory Board, in their meeting minutes issued to the Agency on September 23, 2019, identified numerous challenges for generators and transporters in using the current electronic manifest process and made several recommendations to the Agency on overcoming these challenges.²

In April 2020, EPA consulted the e-Manifest Advisory Board on options for increasing use of electronic manifests, specifically regarding the Agency's proposal to reengineer electronic signatures for generators and transporters. This also included the Agency's proposed position that requirements under EPA's Cross-Media Electronic Reporting Rule (CROMERR) would only apply to electronic signatures for receiving facilities when submitting the final, signed manifest to EPA. Based on the e-Manifest Advisory Board's feedback, the Agency confirmed its position in its response to the e-Manifest Advisory Board issued in October 2020.³ The Agency subsequently implemented a new "Quick Sign" feature in e-Manifest for generators, transporters, and initial electronic signatures by the receiving facility.

In its October 2020 response to the e-Manifest Advisory Board, the Agency acknowledged that the new "Quick Sign" feature was not expected to significantly increase adoption of electronic manifests. Therefore, EPA committed to hold additional public meetings with stakeholders to discuss the feasibility of further options for

¹ The Hazardous Waste Electronic Manifest System Advisory Board is established in accordance with the provisions of the Hazardous Waste Electronic Manifest Establishment Act, 42 U.S.C. 6939g, and the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2.

² Background materials, final meeting minutes, and the Agency response for the June 2019 e-Manifest Advisory Board public meeting can be located at <http://www.regulations.gov> Docket no. EPA-HQ-OLEM-2019-0194.

³ Background materials, final meeting minutes, and the Agency response for the April 2020 e-Manifest Advisory Board public meeting can be located at <http://www.regulations.gov> Docket no. EPA-HQ-OLEM-2020-0075.

subsequent consultation by the e-Manifest Advisory Board.

Therefore, the purpose of the public meetings announced today is to engage stakeholders in discussion regarding how to increase industry adoption of electronic manifests. The agenda for both meetings will be identical and all stakeholders are encouraged to attend one of the meetings. These meetings are expected to include discussion regarding:

- (1) Current electronic manifest functionality and workflow;
- (2) Potential option to allow receiving facilities to upload electronic signatures to EPA;
- (3) Other potential options, including options that may require policy or regulatory change.

EPA intends to use information obtained from these public meetings to inform future options for consideration by the e-Manifest Advisory Board.

Dated: September 24, 2021.

Elizabeth Shaw,

Acting Director, Office of Resource Conservation and Recovery, Office of Land and Emergency Management.
