

or may not also include blocks that allow sliding of end sections in relation to frame and platform, hydraulic hoses, electrical cables, and/or other components;

- boom assemblies, or boom sections, for connection to the boom turntable, or to the chassis assembly, or to a platform assembly or to a lifting device. Boom assemblies include telescoping sections where the smallest section (or tube) can be nested in the next larger section (or tube) and can slide out for extension and/or articulated sections joined by pins. These assemblies may or may not include pins, hydraulic cylinders, hydraulic hoses, electrical cables, and/or other components;

- chassis assemblies, for connection to scissor arm assemblies, or to boom assemblies, or to boom turntable assemblies. Chassis assemblies include: (1) Chassis frames, and (2) frame sections. Chassis assemblies may or may not include axles, wheel end components, steering cylinders, engine assembly, transmission, drive shafts, tires and wheels, crawler tracks and wheels, fuel tank, hydraulic oil tanks, battery assemblies, and/or other components;

- boom turntable assemblies, for connection to chassis assemblies, or to boom assemblies. Boom turntable assemblies include turntable frames. Boom turntable assemblies may or may not include engine assembly, slewing rings, fuel tank, hydraulic oil tank, battery assemblies, counterweights, hoods (enclosures), and/or other components.

Importation of any of these subassemblies, whether assembled or unassembled, constitutes unfinished mobile access equipment for purposes of this investigation.

Processing of finished and unfinished mobile access equipment and subassemblies such as trimming, cutting, grinding, notching, punching, slitting, drilling, welding, joining, bolting, bending, beveling, riveting, minor fabrication, galvanizing, painting, coating, finishing, assembly, or any other processing either in the country of manufacture of the in-scope product or in a third country does not remove the product from the scope. Inclusion of other components not identified as comprising the finished or unfinished mobile access equipment does not remove the product from the scope.

The scope excludes forklifts, vertical mast lifts, mobile self-propelled cranes and motor vehicles that incorporate a scissor arm assembly or boom assembly. Forklifts are material handling vehicles with a working attachment, usually a fork, lifted along a vertical guide rail with the operator seated or standing on the chassis behind the vertical mast. Vertical mast lifts are person and material lifting vehicles with a working attachment, usually a platform, lifted along a vertical guide rail with an operator standing on the platform. Mobile self-propelled cranes are material handling vehicles with a boom attachment for lifting loads of tools or materials that are suspended on ropes, cables, and/or chains, and which contain winches mounted on or near the base of the boom with ropes, cables, and/or chains managed along the boom structure. The scope also excludes motor vehicles (defined

as a vehicle driven or drawn by mechanical power and manufactured primarily for use on public streets, roads, and highways, but does not include a vehicle operated only on a rail line pursuant to 49 U.S.C. 30102(a)(7)) that incorporate a scissor arm assembly or boom assembly. The scope further excludes vehicles driven or drawn by mechanical power operated only on a rail line that incorporate a scissor arm assembly or boom assembly. The scope also excludes (1) rail line vehicles, defined as vehicles with hi-rail gear or track wheels, and a fixed (non-telescopic) main boom, which perform operations on rail lines, such as laying rails, setting ties, or other rail maintenance jobs; and (2) certain rail line vehicle subassemblies, defined as chassis subassemblies and boom turntable subassemblies for rail line vehicles with a fixed (non-telescopic) main boom.

Certain mobile access equipment subject to this investigation is typically classifiable under subheadings 8427.10.8020, 8427.10.8030, 8427.10.8070, 8427.10.8095, 8427.20.8020, 8427.20.8090, 8427.90.0020 and 8427.90.0090 of the Harmonized Tariff Schedule of the United States (HTSUS). Parts of certain mobile access equipment are typically classifiable under subheading 8431.20.0000 of the HTSUS. While the HTSUS subheadings are provided for convenience and customs purposes only, the written description of the merchandise under investigation is dispositive.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; National Voluntary Laboratory Accreditation Program (NVLAP) Information Collection System

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice of Information Collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the

Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before November 29, 2021.

ADDRESSES: Interested persons are invited to submit written comments by mail to Maureen O'Reilly, Management Analyst, NIST by email to PRAComments@doc.gov. Please reference OMB Control Number 0693–0003 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Bethany Hackett, National Voluntary Laboratory Accreditation Program, National Institute of Standards and Technology, 100 Bureau Drive, Stop 2140, Gaithersburg, MD 20899–2140; phone: (301) 975–6113; email: bethany.hackett@nist.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request to revise and extend this currently approved information collection. This information is collected from all testing or calibration laboratories that apply for NVLAP accreditation. Applicants provide the minimum information necessary for NVLAP to evaluate the competency of laboratories to carry out specific tests or calibrations or types of tests or calibrations. The collection is mandated by 15 CFR 285.

II. Method of Collection

Each new or renewal applicant laboratory electronically submits its application for NVLAP accreditation through a self-service, web-based portal called the “NVLAP Interactive Web System” (NIWS). This method of collection also gives applicant laboratories the ability to upload document files needed to support the application process and to maintain their own profile information.

III. Data

OMB Control Number: 0693–0003.
Form Number(s): None.

Type of Review: Regular submission, revision of a current information collection.

Affected Public: Business or other for-profit organizations; not-for-profit institutions; and Federal, State or local government.

Estimated Number of Respondents: 650.

Estimated Time per Response: 3 hours.

Estimated Total Annual Burden Hours: 1,950 hours.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Required to obtain benefits.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

SUPPLEMENTARY INFORMATION:

I. Abstract

In order to fulfill its core mission, the National Cybersecurity Center of Excellence (NCCoE) publishes announcements in the **Federal Register** of new collaborative projects to address cybersecurity challenges. In response to these announcements, technology vendors are invited to submit Letters of Interest (LoI) for technologies relevant to the challenge. These letters specify the product(s) that the potential collaborator is submitting for consideration, how the product(s) address(es) one or more of the requirements of the project, and

contact information for the company's representative. Subsequent to the submission of LoIs, NIST invites companies with relevant technology to enter into a Collaborative Research and Development Agreement (CRADA) with NIST.

II. Method of Collection

Upon request, submitters are provided with questions in an electronic document that can be filled in, signed, and submitted via mail or electronic mail.
