Federal Railroad Administration

[Docket Number FRA-2016-0126]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on September 14, 2021, the Capital Metropolitan Transportation Authority (CMTY) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 238.309, *Periodic brake equipment maintenance*. The relevant FRA Docket Number is FRA-2016-0126.

By letter dated July 7, 2020, FRA granted CMTY an extension of relief until December 31, 2021, in which to acquire brake components required for CMTY's four GTW G-4 diesel multiple units, due to manufacturing delays of the components. At this time, CMTY requests an additional six-month extension of the previously granted relief, as manufacturing delays are causing additional time to be needed for the final air brake kit to be rebuilt and recertified.

A copy of the petition, as well as any written communications concerning the

petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.
