## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA-R05-OAR-2018-0694; FRL-8823-03-R5]

### Air Plan Approval; Ohio; Infrastructure SIP Requirements for the 2015 Ozone NAAQS; Correction

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Correcting amendment.

**SUMMARY:** This action corrects codification errors in the Ohio State Implementation Plan (SIP) regarding the infrastructure requirements of section 110 of the Clean Air Act (CAA) for the 2015 Ozone National Ambient Air Quality Standards (NAAQS).

**DATES:** This correcting amendment is effective on October 4, 2021.

**FOR FURTHER INFORMATION CONTACT:** Christos Panos, Environmental Engineer, Attainment Planning and Maintenance Section, Air Programs Branch (AR-18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 353-8328, [panos.christos@epa.gov](mailto:panos.christos@epa.gov).

**SUPPLEMENTARY INFORMATION:** On August 11, 2021, the Environmental Protection Agency (EPA) made inadvertent codification errors when it approved elements of a SIP submission from Ohio regarding the infrastructure requirements of CAA section 110 for the 2015 ozone NAAQS. In the final rule published in the **Federal Register** on August 11, 2021 (86 FR 43962), on page 43964, EPA mistakenly included instructions to add entry "Section 110(a)(2) Infrastructure Requirements for the 2015 ozone NAAQS" immediately after entry "Section 110(a)(2) infrastructure requirements for the 2012 PM<sub>2.5</sub> NAAQS", where the instructions should have said to add entry "Section 110(a)(2) Infrastructure Requirements for the 2015 ozone NAAQS" immediately after entry "Section 110(a)(2)(D) infrastructure requirements for the 2012 PM<sub>2.5</sub> NAAQS". EPA also mistakenly identified the entry in the table entitled "EPA Approved Ohio Nonregulatory and Quasi-Regulatory Provisions" on page 43964 to read "Section 110(a)(2)(D) Infrastructure Requirements for the 2015 ozone NAAQS", where the correct entry should read "Section 110(a)(2) Infrastructure Requirements for the 2015 ozone NAAQS". Lastly, the citation for prongs 1 and 2 in the "Comments" column of the table on page 43964 should read "(D)(i)(I)" and not "(D)(i)(II)".

This action amends the regulatory text to correct these errors. Section 553 of the Administrative Procedure Act, 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. We have determined that there is good cause for making this rule final without prior proposal and opportunity for comment because we are merely correcting incorrect citations in previous actions. Thus, notice and public procedure are unnecessary. We find that this constitutes good cause under 5 U.S.C. 553(b)(B).

### Statutory and Executive Order Reviews

This action is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011). This action does not impose an information collection burden under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). Because the agency has made a "good cause" finding that this action is

not subject to notice-and-comment requirements under the Administrative Procedures Act or any other statute as indicated in the **SUPPLEMENTARY INFORMATION** section above, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C 601 *et seq.*), or to sections 202 and 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104–4). This action will not have substantial direct effects on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of governments, as specified by E.O. 13132 (64 FR 43255, August 10, 1999). In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by E.O. 13175 (65 FR 67249, November 9, 2000). This action is not subject to E.O. 13045 (62 FR 19885, April 23, 1997), because it is not economically significant. This action is also not subject to E.O. 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001). This technical correction

action does not involve technical standards; thus the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. The action also does not involve special consideration of environmental justice related issues as required by E.O. 12898 (59 FR 7629, February 16, 1994). The Congressional Review Act (5 U.S.C. 801 *et seq.*), as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be supported by a brief statement. 5 U.S.C. 808(2). As stated previously, EPA had made such a good cause finding, including the reasons therefore, and established an effective date of October 4, 2021. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This correction to

40 CFR part 52 for Ohio is not a “major rule” as defined by 5 U.S.C. 804(2).

*Acting Regional Administrator, Region 5.*

Accordingly, 40 CFR part 52 is corrected by making the following correcting amendments:

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

- 1. The authority citation for part 52 continues to read as follows:

**Authority:** 42 U.S.C. 7401 *et seq.*

- 2. In § 52.1870, the table in paragraph (e) is amended under the heading “Infrastructure Requirements” by adding an entry for “Section 110(a)(2) Infrastructure Requirements for the 2015 ozone NAAQS” immediately after the entry for “Section 110(a)(2)(D) infrastructure requirements for the 2012 PM<sub>2.5</sub> NAAQS” to read as follows:

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA-R05-OAR-2020-0544, EPA-R05-OAR-2021-0144; FRL-90003-02-R5]

### Air Plan Approval; Illinois; National Ambient Air Quality Standards Updates; Reference and Equivalent Methods Updates

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is approving several revisions to the Illinois State Implementation Plan (SIP). First, EPA is approving amendments to the Illinois SIP that incorporate by reference EPA's current national ambient air quality standard for ozone, particulate matter, lead, nitrogen dioxide, and sulfur oxides. Second, EPA is approving revisions to the Illinois SIP that incorporate by reference current Federal Reference Methods for monitoring carbon monoxide, ozone, particulate matter, lead, nitrogen dioxide, and sulfur oxides. Third, EPA is approving an amendment to the Illinois SIP that reflects a recent update to EPA's List of Designated Reference and Equivalent Methods. Lastly, EPA is approving minor revisions and corrections to the Illinois SIP.

**DATES:** This final rule is effective on November 3, 2021.

**ADDRESSES:** EPA has established a docket for this action under Docket ID No. EPA-R05-OAR-2020-0544 and EPA-R05-OAR-2021-0144. All documents in the docket are listed on the [www.regulations.gov](http://www.regulations.gov) website. ### SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA.

### I. Background Information.

On June 21, 2021, EPA proposed to approve revisions to several sections of Title 35 of the Illinois Administrative Code, Part 243 (35 IAC 243), Subparts A (“General Provisions”) and B (“Standards and Measurement Methods”) requested by the Illinois Environmental Protection Agency on October 20, 2020 and February 16, 2021. See 86 FR 32366. An explanation of the applicable Clean Air Act (CAA) requirements, a detailed analysis of the revisions, and EPA's reasons for proposing approval were provided in the notice of proposed rulemaking and will not be restated here. The public comment period for this proposed rulemaking ended on July 21, 2021. EPA did not receive any comments on the proposal. Therefore, we are finalizing our action as proposed.

### II. What action is EPA taking?

EPA is approving the revisions to 35 IAC 243 as outlined in Illinois' October 20, 2020 submittal, except for 35 IAC 243.108. EPA is also approving the revisions to 35 IAC 243 as outlined in Illinois' February 16, 2021 submittal.

### III. Incorporation by Reference.

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of the Illinois Regulations described in the amendments to 40 CFR part 52 set forth below. EPA has made, and will continue to make, these documents generally available through [www.regulations.gov](http://www.regulations.gov), and at the EPA Region 5 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the SIP, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA's approval, and will be

incorporated by reference in the next update to the SIP compilation.<sup>1</sup>

### IV. Statutory and Executive Order Reviews.

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
