

detailed in the *Auction 111 Procedures Public Notice*.

181. Steps Taken to Minimize the Significant Economic Impact on Small Entities, and Significant Alternatives Considered. The RFA requires an agency to describe any significant, specifically small business, alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives (among others): (1) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance and reporting requirements under the rule for such small entities; (3) the use of performance rather than design standards; and (4) an exemption from coverage of the rule, or any part thereof, for such small entities.

182. OEA and MB intend that the procedures adopted in the *Auction 111 Procedures Public Notice* to facilitate participation in Auction 111 will result in both operational and administrative cost savings for small entities and other auction participants. In light of the numerous resources that will be available from the Commission to small entities and other auction participants at no cost, the processes and procedures announced in the *Auction 111 Procedures Public Notice* should minimize any economic impact of the auction processes and procedures on small entities and should result in both operational and administrative cost savings for small entities and other auction participants. For example, prior to the beginning of bidding in this auction, the Commission will hold a mock auction to allow qualified bidders the opportunity to familiarize themselves with both the processes and systems that will be used in Auction 111. During the auction, participants will be able to access and participate in bidding via the internet using a web-based system, or telephonically, providing two cost-effective methods of participation and avoiding the cost of travel for in-person participation. Further, small entities as well as other auction participants will be able to avail themselves of a telephone hotline for assistance with auction processes and procedures as well as a technical support telephone hotline to assist with issues such as access to or navigation within the electronic FCC Form 175 and use of the FCC's auction bidding system. In addition, all auction participants, including small business entities, will have access to various other sources of information and databases through the Commission that will aid in both their

understanding and participation in the process. These mechanisms are made available to facilitate participation by all qualified bidders and may result in significant cost savings for small business entities that utilize these mechanisms. These resources, coupled with the description and communication of the bidding procedures before bidding begins in Auction 111, should ensure that the auction will be administered predictably, efficiently and fairly, thus providing certainty for small entities as well as other auction participants.

183. Notice to SBA. The Commission will send a copy of the *Auctions 111 Procedures Public Notice*, including the Supplemental FRFA, to the Chief Counsel for Advocacy of the SBA.
