DEPARTMENT OF HEALTH AND HUMAN SERVICES 

Centers for Medicare & Medicaid 
Services 

[Document Identifier: CMS–10417, CMS– 
10768 and CMS–R–43] 

Agency Information Collection 
Activities: Submission for OMB 
Review; Comment Request 

AGENCY: Centers for Medicare & 
Medicaid Services, Health and Human 
Services (HHS). 

ACTION: Notice. 

SUMMARY: The Centers for Medicare & 
Medicaid Services (CMS) is announcing 
an opportunity for the public to 
comment on CMS' intention to collect 
information from the public. Under the 
Paperwork Reduction Act of 1995 
(PRA), federal agencies are required to 
publish notice in the Federal Register 
concerning each proposed collection of 
information, including each proposed 
extension or reinstatement of an existing 
collection of information, and to allow 
a second opportunity for public 
comment on the notice. Interested 
persons are invited to send comments 
regarding the burden estimate or any 
other aspect of this collection of 
information, including the necessity 
and utility of the proposed information 
collection for the proper performance of 
the agency's functions, the accuracy of 
the estimated burden, ways to enhance 
the quality, utility, and clarity of the 
information to be collected, and the use 
of automated collection techniques or 
other forms of information technology to 
minimize the information collection 
burden. 

DATES: Comments on the collection(s) of 
information must be received by the 
OMB desk officer by November 4, 2021. 

ADDRESSES: Written comments and 
recommendations for the proposed 
information collection should be sent 
within 30 days of publication of this 
notice to www.reginfo.gov/public/do/ 
PRAMain. Find this particular 
information collection by selecting 
“Currently under 30-day Review—Open 
for Public Comments” or by using the 
search function. 

To obtain copies of a supporting 
statement and any related forms for the 
proposed collection(s) summarized in 
this notice, you may make your request 
using one of following: 

1. Access CMS’ website address at 
website address at: https:// 
www.cms.gov/Regulations-and-
Guidance/Legislation/Paperwork 

FOR FURTHER INFORMATION CONTACT: 
William Parham at (410) 786–4669. 

SUPPLEMENTARY INFORMATION: Under the 
Paperwork Reduction Act of 1995 (PRA) 
(44 U.S.C. 3501–3520), federal agencies 
must obtain approval from the Office of 
Management and Budget (OMB) for each 
collection of information they conduct 
or sponsor. The term “collection of 
information” is defined in 44 U.S.C. 
3502(3) and 5 CFR 1320.3(c) and 
includes agency requests or 
requirements that members of the public 
submit reports, keep records, or provide 
information to a third party. Section 
3506(c)(2)(A) of the PRA (44 U.S.C. 
3506(c)(2)(A)) requires federal agencies 
to publish a 30-day notice in the 
Federal Register concerning each 
proposed collection of information, 
including each proposed extension or 
reinstatement of an existing collection 
of information, before submitting the 
collection to OMB for approval. To 
comply with this requirement, CMS is 
publishing this notice that summarizes 
the following proposed collection(s) of 
information for public comment: 

1. Title of Information Collection: 
Medicare Fee-for-Service Prepayment 
Review of Medical Records; Type 
of Information Collection Request; 
Revision; Use: The Medical Review 
program is designed to prevent 
improper payments in the Medicare FFS 
program. Whenever possible, Medicare 
Administrative Contractors (MACs) are 
encouraged to automate this process; 
however, it may require the evaluation 
of medical records and related 
documents to determine whether 
Medicare claims are billed in 
compliance with coverage, coding, 
payment, and billing policies. 
Addressing improper payments in the 
Medicare fee-for-service (FFS) program 
and promoting compliance with 
Medicare coverage and coding rules is a 
top priority for the CMS. Preventing 
Medicare improper payments requires 
the active involvement of every 
component of CMS and effective 
coordination with its partners including 
various Medicare contractors and 
providers. The information required 
under this collection is requested by 
Medicare contractors to determine 
proper payment, or if there is a 
suspicion of fraud. Medicare contractors 
request the information from providers/ 
suppliers submitting claims for payment 
when data analysis indicates aberrant 
billing patterns or other information 
which may present a vulnerability to the 
Medicare program. Form Number: 
CMS–10417 (OMB control number: 
0938–0969); Frequency: Occasionally; 
Affected Public: Private Sector, State, 
Business, and Not-for Profits; Number 
of Respondents: 485,632; Number of 
Responses: 485,632; Total Annual 
Hours: 242,816. (For questions regarding 
this collection, contact Christine Grose 
at [410–786–1362]). 

2. Type of Information Collection 
Request: New collection (Request for a 
new OMB control number); Title of 
Information Collection: The ESRD 
Network Peer Mentoring Program; Use: 
The End Stage Renal Disease (ESRD) 
Network Peer Mentoring Program is a 
voluntary program designed to provide 
patient peer support to people with 
kidney disease. In part, the peer support 
is beneficial because patients can give 
each other something most practitioners 
do not have: Lived experience with 
kidney disease. The support and 
perspective of someone who has “been 
there” can help people better cope with 
their circumstances. 

The ESRD Network Peer Mentoring 
Program is a partnership between 
dialysis facilities, ESRD Networks, and 
patient peer mentors and mentees that 
wish to engage in the program. The peer 
mentoring program is organized and 
published with educational 
opportunities for peer mentors and 
mentees, provides resources, and 
includes a complementary toolkit for 
ESRD Networks and dialysis facilities to 
promote and operationalize the 
program. 

Program applicants are people with 
ESRD who: (1) Are adults over the age 
of 18; have been receiving in-center or 
home dialysis or have been 
transplanted for at least six months; actively 
engage in the care plan; consistently 
demonstrate leadership qualities at 
facility Quality Assurance & 
Performance Improvement (QAPI) 
meetings, Lobby Days, and other facility
activities; and wish to be a peer mentor; or (2) are over 18 years of age; are newly diagnosed patients but have been on in-center dialysis for at least six months; are looking for peer support to help them transition to their new reality; and are known as a peer mentor.

To participate in the ESRD Network Peer Mentoring Program, peer mentors and mentees will complete an online application form stored in Confluence. The application serves to validate the peer mentor or peer mentee interest in the ESRD Network Peer Mentoring Program. Information collection is important to the process of pairing peer mentors and mentees with similarly lived experience and interests with their kidney disease. In addition, the application collects information about the peers’ interest in kidney disease, treatment modality, age range, preferred gender recognition, and attitudes toward their kidney disease diagnosis. It also supports aligning hobbies, and genders to support best matched peers with each other.

Form Number: CMS-10768 (OMB control number: 0938–NEW);

Frequency: Once; Affected Public: Individuals and Households; Number of Respondents: 75; Total Annual Responses: 75; Total Annual Hours: 19.

William N. Parham, III,

Director, Paperwork Reduction Staff, Office of Strategic Operations and Regulatory Affairs.

Food and Drug Administration

[Docket No. FDA–2021–N–0031]

Best Practices for Development and Application of Disease Progression Models; Public Workshop

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of public workshop.

SUMMARY: The Food and Drug Administration (FDA) Center for Drug Evaluation and Research, and Center for Biologics Evaluation and Research, are announcing a public workshop entitled “Best Practices for Development and Application of Disease Progression Models.” The purpose of this public workshop is to discuss the best practices for developing disease progression models and their application to support drug development decisions, share experiences and case studies that highlight the opportunities and limitations in the development and application of disease progression models including models for natural history of disease and clinical trial simulations, and discuss the knowledge gaps and research needed to advance the development and use of disease progression models.

DATES: The public workshop will be held on November 19, 2021, from 9:30 a.m. to 2:30 p.m., Eastern Time. See the SUPPLEMENTARY INFORMATION section for registration date and information.

ADDRESSES: This workshop will be virtual only.

SUPPLEMENTARY INFORMATION:

I. Background

II. Topics for Discussion at the Public Workshop

The following topics will be discussed at the public workshop:

• Role of disease models in drug development and regulatory review;
• Lessons learned from past experiences of applying disease models in drug development;
• Best practice considerations for disease modeling to support drug development and regulatory decisions; and
• Best practice considerations for clinical trial simulations based on disease progression/natural history models to support drug development and regulatory decisions.

III. Participating in the Public Workshop

Registration: Persons interested in attending this public workshop must register by November 9, 2021, at https://go.usa.gov/xMvPZ

If you need special accommodations due to a disability, please contact
