SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Background: The Office of Workers' Compensation Programs (OWCP) administers the Federal Employees' Compensation Act (FECA) and the Longshore and Harbor Workers' Compensation Act (LHWCA). These acts provide vocational rehabilitation services to eligible workers with disabilities. 5 U.S.C. 8111(b) of the FECA provides that OWCP may pay an individual undergoing vocational rehabilitation a maintenance allowance, not to exceed \$200 a month. 33 U.S.C. 908(g) of the LHWCA provides that person(s) undergoing such vocational rehabilitation shall receive maintenance allowances as additional compensation. Form OWCP–17 is used to collect information necessary to determine the amount of any maintenance allowance to be paid. This information collection is currently approved for use through February 28, 2022. This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays

a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(b) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Written comments will receive consideration, and be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB Number 1240–0012. Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The completed form gives basic identifying information about the applicant and is the beginning of the development of the black lung claim. Title 20 CFR 725.304a authorizes this information collection. This form, when completed, provides a complete history of the miner's employment and helps to establish whether the individual currently or formerly worked in the nation's coal
