

How should the Commission’s recent *Third Further Notice* and any subsequent order inform or impact our reevaluation of the small voice service provider extension? How close are small voice service providers to “full participation,” and what steps, if any, could the Commission take to promote that goal?

*Extension for Voice Service Providers That Cannot Obtain a SPC Token.* We seek comment on the Commission’s extension for voice service providers that cannot obtain the Service Provider Code (SPC) token necessary to participate in STIR/SHAKEN. The Commission granted voice service providers that are incapable of obtaining a SPC token due to Governance Authority policy an extension until they are capable of obtaining said token. The Commission granted this extension because “it is impossible for a voice service provider to participate in STIR/SHAKEN without access to [a SPC token] and because some voice service providers are unable to obtain [one] at this time.”

In May, the Governance Authority revised the STI-GA Token Access Policy to enable token access by some voice service providers previously unable to receive a token. How has this change impacted the barrier presented by an inability to access a SPC token? Has it resolved the token access barrier? Does this change affect the need for the implementation extension and, if so, how? Does the extension remain necessary? Conversely, is this extension

no longer necessary and should we recommend it be terminated or revised by the Commission going forward? If so, why? Finally, how does token access affect the TRACED Act goal of full participation in caller ID authentication? Are there steps the Commission could take regarding token access to better promote full participation?

*Extension for Services Scheduled for Section 214 Discontinuance.* We seek comment on the Commission’s extension for services scheduled for section 214 discontinuance. The Commission granted an extension to services which are subject to a pending application for permanent discontinuance of service filed as of June 30, 2021 for one year, until June 30, 2022. Under this extension, a voice service provider has until June 30, 2022, to either discontinue the service subject to the application or, alternatively, implement STIR/SHAKEN on that service. The Commission granted this extension to “obviate the need to upgrade components of a voice service provider’s network that will be sunset.” Is there any reason we should lengthen this extension and give affected voice service providers additional time, beyond June 30, 2022, to either discontinue the service or implement STIR/SHAKEN? Is it reasonable for a voice service provider to take longer than one year to complete discontinuance and, if so, how much additional time is appropriate? Alternatively, is a protracted

discontinuance evidence of “bad faith” and should we decline to grant any additional time before a voice service provider is obligated to choose between discontinuance and STIR/SHAKEN implementation? To account for bad faith filers while acknowledging potential reasonable delays, should we lengthen the extension but limit the scope of entities entitled to any further extension? Do services scheduled for 214 discontinuance meaningfully impact the goal of full participation in caller ID authentication?

Federal Communications Commission.

**Deletion of Items From September 30, 2021 Open Meeting**

September 30, 2021.

The following items have been adopted by the Commission and deleted from the list of items scheduled for consideration at the Thursday, September 30, 2021, Open Meeting. These items were previously listed in the Commission’s Notice of Thursday, September 23, 2021.

3 .....	OFFICE OF ENGINEERING & TECHNOLOGY.	TITLE: Authorizing 6 GHz Band Automated Frequency Coordination Systems (ET Docket No. 21–352). SUMMARY: The Commission will consider a Public Notice beginning the process for authorizing Automated Frequency Coordination Systems to govern the operation of standard-power devices in the 6 GHz band (5.925–7.125 GHz).
4 .....	OFFICE OF ENGINEERING & TECHNOLOGY.	TITLE: Spectrum Requirements for the Internet of Things (ET Docket No. 21–353) SUMMARY: The Commission will consider a Notice of Inquiry seeking comment on current and future spectrum needs to enable better connectivity relating to the Internet of Things (IoT).

**Information Collection Being Reviewed by the Federal Communications Commission**

**AGENCY:** Federal Communications Commission.  
**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction

Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

**DATES:** Written PRA comments should be submitted on or before December 13, 2021. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Nicole Ongele, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [nicole.ongele@fcc.gov](mailto:nicole.ongele@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

**SUPPLEMENTARY INFORMATION:**

*OMB Control Number:* 3060-0719.

*Title:* Quarterly Report of Local Exchange Carriers Listing Payphone Automatic Number Identifications (ANIs).

*Form Number:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities.

*Number of Respondents:* 400 respondents; 1,600 responses.

*Estimated Time per Response:* 3.5 hours (8 hours for the initial submission; 2 hours per subsequent submission—for an average of 3.5 hours per response).

*Frequency of Response:* Quarterly reporting requirement, recordkeeping

requirement and third party disclosure requirement.

*Obligation to Respond:* Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154, 201-205, 215, 218, 219, 220, 226 and 276 of the Communications Act of 1934, as amended.

*Total Annual Burden:* 5,600 hours.

*Total Annual Cost:* No cost.

*Privacy Act Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* The Commission is not requesting respondents to submit confidential information to the Commission. If the respondents wish confidential treatment of their information, they may request confidential treatment under 47 CFR 0.459 of the Commission's Rules.

*Needs and Uses:* The Commission adopted rules and policies governing the payphone industry under section 276(b)(1)(A) of the Telecommunications Act of 1996 (the Act) and established "a per call compensation plan to ensure that all payphone service providers are fairly compensated for each and every completed intrastate and interstate call." Pursuant to this mandate, and as required by section 64.1310(d) of the Commission's rules, Local Exchange Carriers (LECs) must provide to carriers required to pay compensation pursuant to section 64.1300(a), a quarterly report listing payphone ANIs. Without provision of this report, resolution of disputed ANIs would be rendered very difficult. Carriers would not be able to discern which ANIs pertain to payphones and therefore would not be able to ascertain which dial-around calls were originated by payphones for compensation purposes. There would be no way to guard against possible fraud. Without this collection, lengthy investigations would be necessary to verify claims. The report allows carriers to determine which dial-around calls are made from payphones. The information must be provided to third parties. The requirement would be used to ensure that LECs and the carriers required to pay compensation pursuant to 47 CFR 64.1300(a) of the Commission's rules comply with their obligations under the

Telecommunications Act of 1996.

Federal Communications Commission.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Agency for Healthcare Research and Quality

#### Supplemental Evidence and Data Request on Telehealth for Women

**AGENCY:** Agency for Healthcare Research and Quality (AHRQ), HHS.

**ACTION:** Request for supplemental evidence and data submissions.

**SUMMARY:** The Agency for Healthcare Research and Quality (AHRQ) is seeking scientific information submissions from the public. Scientific information is being solicited to inform our review on *Telehealth for Women*, which is currently being conducted by the AHRQ's Evidence-based Practice Centers (EPC) Program. Access to published and unpublished pertinent scientific information will improve the quality of this review.

**DATES:** *Submission Deadline* on or before November 12, 2021.

**ADDRESSES:**

*Email submissions:* [epc@ahrq.hhs.gov](mailto:epc@ahrq.hhs.gov).

*Print submissions:*

*Mailing Address:* Center for Evidence and Practice Improvement, Agency for Healthcare Research and Quality, ATTN: EPC SEADs Coordinator, 5600 Fishers Lane, Mail Stop 06E53A, Rockville, MD 20857.

*Shipping Address (FedEx, UPS, etc.):* Center for Evidence and Practice Improvement, Agency for Healthcare Research and Quality, ATTN: EPC SEADs Coordinator, 5600 Fishers Lane, Mail Stop 06E77D, Rockville, MD 20857.

**FOR FURTHER INFORMATION CONTACT:** Jenae Benns, Telephone: 301-427-1496 or Email: [epc@ahrq.hhs.gov](mailto:epc@ahrq.hhs.gov).

**SUPPLEMENTARY INFORMATION:** The Agency for Healthcare Research and Quality has commissioned the Evidence-based Practice Centers (EPC) Program to complete a review of the evidence for *Telehealth for Women*. AHRQ is conducting this technical brief pursuant to Section 902 of the Public Health Service Act, 42 U.S.C. 299a.

The EPC Program is dedicated to identifying as many studies as possible that are relevant to the questions for each of its reviews. In order to do so, we are supplementing the usual manual and electronic database searches of the literature by requesting information from the public (e.g., details of studies conducted). We are looking for studies that report on *Telehealth for Women*, including those that describe adverse
